COMING DOWN TO HARD FACTS

It may as well be admitted that there's a little difference in the price of this, that or the other coal-per ton on car or cart. There's a lot of difference in the amount of combustible matter—so much goes up the chimney in smoke, or in the ashpan as clinker, when you burn some coals! That's why we are persistent in the effort to get you to buy the right kind of coal.

A TREMENDOUS BIG STOCK IN FACT TWO BIG STOCKS COMBINED IN ONE

I have moved my Kinston branch store here, and have more goods on hand now than ever, and to get rid of same, will of course cut prices on everything. There is no red banner in front of my store, as I am not trying to stimulate business by any fake sale. You can save from 20 to 50 per cent on any article you buy at my store. It will pay you to buy your next winter suit or overcoat now, at the prices we will sell at. I must get rid of my tremendous stock in a short time to make room for my Spring and Summer Goods and will sell at lowest price. Come and price our goods and be convinced. Yours to serve,

Sam Lippman.

TORNADO VISITS THE CITY

Plays Havoc For a Short While. Amount of Damage Done is Immense.

Last night just before 10 o'clock one of the worst tornadoes ever seen in this section visited this city. A low rumbling noise as if the elements were in turmoil was heard and those who were out at the time heard the warning and at once rushed for shelter.

In a few minutes after this unusual noise had ceased the storm burst upon the city in all of its fury, and the city was in the grasp of one of the worst tornadoes that ever visited this section.

The scaffolding which had been erected at the Southeast corner of the post office was the first thing to go down, and this fell with a terrific crash toward the residence of Mr. J. W. Stewart just across the street.

In the descent of the heavy scaffolding two of the electric light wires were broken and a section of the city was shrouded in complete darkness for a short while. In other parts of the city windows were blown out, small houses blown down, trees uprooted and chimneys torn from their base.

After the storm had abated the streets presented a frightful appearance, debris of all kinds scattered in every direction and with the possibility that a person would step on a live wire traveling was indeed perilous. Fortunately no one was injured in any way. Such storms as this do not visit this city very often, but when they do they usually leave disaster in their wake, and last night was no exception as can be plainly seen by viewing the scenery this morning.

Stomach Dead Man Still Lives

People who suffer from sour stomach fermentation of food, distress after eating and indigestion, and seek relief in large chunks of artificial digestors, are killing their stomachs, by insertion just as surely as the victim of morphine is deadening and injuring beyond repair every nerve of his body.

What the stomach of every sufferer from indigestion needs is a good prescription that will build up his stomach, put strength, energy and elasticity into it, and make it sturdy enough to digest a hearty meal without artificial aid. The best prescription for indigestion ever written is sold by druggists everywhere and by the Bradham Drug Co. and is rigidly guaranteed to build up the stomach and cure indigestion, or money back.

This prescription is named **Mi-o-na**, and is sold in small tablet form in large boxes, for only 50c. Remember the name, **Mi-o-na** stomach tablets. They never fail. Booth's Pills, best for liver, bowels and constipation. 50c.

HAWK GETS NO DAMAGES

Jury Return Verdict in Favor of the Defendant. Many Cases Continued.

After being out nearly four hours the jury in the case of Gary Hawk vs. the Pine Lumber Company late yesterday afternoon returned a verdict in favor of the defendant.

The unusual length of time which the jury spent on the case caused much speculation among the public and the whole case and the probable verdict was among the chief topics discussed on the street yesterday. A number of people thought that the jury would bring in a verdict that would award the plaintiff at least a fourth of the damages he was suing for while there were others who did not think the facts in the case would allow the jury to award any damages at all.

All of the other cases which should have been tried up to the present time have been continued until the next term of court.

NARROW ESCAPE FROM DEATH

Window Cleaner Escaped Death And The Human Buffer That Saved Him Was Unhurt.

New York, Feb. 17.—Falling from a fifth story window, just like a man diving backward off a springboard, John Kaufman, 26 years of age, 36 East Twelfth street would have been killed instantly yesterday afternoon if he had not struck James Girdwood, a miner, of Orange, N. J., who was walking along the street.

Kaufman is a window cleaner, and like most men of his calling he often stands outside of windows high in the air with only a strap to hold him, and often not even that. Yesterday he did not have his strap attached to the hook in the window frame, because he was only five stories high, and he had become used to doing without any support that close to the earth.

He was cleaning the windows of the offices of L. Strauss & Sons. He was holding to the upper sash while working on the lower one, and without any warning the upper sash started to lower and Kaufman was thrown from the window ledge.

He turned head first as he fell, and it seemed there would be nothing to prevent his being dashed to death on the pavement. Girdwood was passing below and knew nothing of the falling man until he was struck. Both of Kaufman's arms and both legs were broken. Girdwood was knocked down and lay there for a moment with Kaufman on top of him. Girdwood got up and brushed off his clothes and walked away. Kaufman will recover.

DYNAMITE FOR STUMPS

Is Modern Method to Quickly Clear Fields. Saves Time and Expense.

Every farmer knows the annoyance that he must undergo in getting stumps out of his fields. To hire a colored digger, means at least fifty cents a stump, and where the farmer has a number of stumps to be removed, it is very uncertain how long a digger will continue at work. A more modern method is now being shown, and the Journal representative on Wednesday saw the practical demonstration of clearing a field of stumps by the dynamite method.

The process is such that any farmer can follow it, and be independent from hiring a man who is uncertain as to time he will labor or amount of work he will do. Mr. Morrison, representing the Du Pont Powder Co. showed how to do the work on the farm of C. H. Fowler, near Callison, Pamlico Co. Mr. W. J. Swan was an assistant, and the farmers in the neighborhood were present.

With a large augur a hole is bored to the top root of the stump, a fuse with cap is attached to half pound stick of dynamite, which is pushed down to the farthest end of the hole, and upon this is packed loose dynamite to the amount that is judged necessary to lift the stump. The rest of the hole is packed with earth to form a solid mass. As the hole is drilled at an angle the dynamite following an upward course when exploded, tears the entire stump out, and all the farmer has to do is to clear away the fragments. The cost per stump depends on its size, the estimate according to the Du Pont Powder Co. being an average of twenty cents per stump.
