SENATOR TILLMAN IS IMPROVING

Has Lost No Ground Since Saturday, But Has Regained Partial Use of Right Arm And Leg—Power of Speech Greatly Improving

Washington, D. C., Feb. 22.—The continued improvement in the condition of Senator Benj. R. Tillman, of South Carolina, has inspired renewed hope of ultimate recovery from his present serious illness. In the opinion of his physicians, the chances are now much in his favor.

There has been some abatement of the paralysis and today he regained the use of his right arm and leg to a limited extent. The aphasia has markedly improved and he is now able to speak. The change for the better was said to be most remarkable and was attributed to the Senator's temperate life, strong physique and his generally good condition. The favorable developments in his illness were considered very exceptional, his case was looked upon as one in ten thousand. He is responding admirably to the medical treatment and it is said the power of speech may practically be re-established.

Mothers find Perry Davis' Painkiller invaluable in the nursery, and it should be kept at hand in case of accident. For pain in the breast take a little Painkiller in sweetened milk and water, bathing the breast in clear at the same time. If the milk passages are clogged, from cold, or other causes, bathing in the Painkiller will give immediate relief. Ask for New 35c. Bottle.

Notice.

I shall sit in the Federal Building, in New Bern, North Carolina, on Tuesday March 1, 1910, and from day to day, for the purpose of hearing all claims which have been filed with me against the Norfolk & Southern Railway Company.

Money Matters.

Of the world's stock of money \$1,000,000,000 is gold, \$1,500,000,000 silver and four and one-third billions of covered paper.

The coinage value of silver produced from the mines of the world since 1492 is practically equal to that of the gold produced in that period—\$18,000,000,000.

The comptroller of the currency has issued an order advising all national bank examiners that under no circumstances should bank clerks be asked to assist in examining banks in which they are employed.

SKIN AND FUR TRADE

An Unsuspected Local Business Involving Thousands of Dollars in Transactions

Some years ago a gentleman and his family coming to New Bern to spend the winter months, were most agreeably pleased with their first visit. More than this, the gentleman who was in the fur trade in New York City, found upon looking about while here, that there were animals bearing furs and skins in this section that were of value. Being a business man, this gentleman, there is no secrecy as to his name, Mr. E. E. Baldwin, found that his visit here had a double importance so that each winter himself and family returns to New Bern, and Mr. Baldwin combines pleasure with some business, doing some hunting himself, at the same time acquainting himself with those animals that bear fur or have skins that are mer-chantable.

The amount of this purchasing will surprise those not knowing. Few there are who meeting Mr. Baldwin realize that he is here for anything except recreation, alone. But he has developed quite a business, pays taxes, and his purchases have aroused a trade hardly thought possible. During the last month Mr. Baldwin has paid out for furs and skins \$9,000 and \$16,000 during the winter, and \$81,000 since coming here. And yet New Bern has never been classed as a fur and skin market.

SHORT PASSING EVENTS

(Continued from Page Four)

unique in its presentation of old time Southern scenes and songs of before the war times. Palk Miller is specially enjoyable to the older generation of the South in his revival of memories of long ago. The quartet singing was excellent.

Early yesterday morning Mr. W. F. Gilbert, Circulation Manager of the Journal, received a telephone message from Clark's which stated that a house which he owned and which was located near that place, had been destroyed by fire sometime during the previous night. The house was situated quite a distance from any other structure, and the only theory advanced as to the cause of the fire is that it was of incendiary origin. Mr. Gilbert left yesterday morning accompanied by an officer to investigate the case.

While on a visit to the county jail yesterday a Journal representative was allowed a short conversation with Jesse Whitehead, the negro man convicted of burglary in the first degree and sentenced to be electrocuted on April 29th. Whitehead was reclining on his cot and seemed to be in excellent spirits. When asked in regard to his approaching execution he replied, that in all probability that event would never take place, as he was almost certain that the Governor would commute his sentence to life imprisonment.

Several weeks ago a number of young boys of the city conceived the idea of erecting a monument in some conspicuous place within the city limits to the memory of Haron DeGraffenried, the Swiss nobleman who led the expedition which made original settlement of New Bern. The matter was discussed among their elders and the result was that the venture was started with Mr. S. M. Brinson as treasurer, and Edgar Wainwright and Robert McDaniel as collectors. Quite a neat sum has been contributed up to the present time, but the required amount has not been received. Any contribution to this worthy cause will be appreciated.

Constable James M. Key returned last night from Clark's, where he had been to arrest Epoch Ambrose, a disreputable colored man of that section, on a warrant sworn out by Mr. W. F. Gilbert, of this city, charging him with the cutting of cross ties and the theft of several hundred pounds of cotton from his premises. On account of the enterprising which the majority of the lawyers have for such degenerate specimens of humanity, not caring to bring themselves in contact with them as the least, the negro had considerable trouble in securing counsel but the case was finally taken by D. E. Henderson who arranged to give bond for the negro's appearance before magistrate W. F. Hill for trial Thursday.

NEW BERN'S COMING CELEBRATIONS

Committees Named For Bi-Centennial, Fireman's Tournament And Fair Association. Every Citizen's Help Demanded.

The following Committees from the Chamber of Commerce have been appointed by President E. K. Bishop on the Fair, Bi-Centennial and Firemen's Tournament:

Mayor C. J. McCarthy, Chairman—R. A. Nunn, Wm. Ellis, Geo. N. Ives, Edwin F. Richardson, L. I. Moore, C. E. Foy, H. W. Simpson, J. J. Wolfenden, Wm. Dunn, Jr., D. E. Henderson, Fair Association For sale of Stock R. A. Nunn, Chairman.—Wm. Dunn, Jr., H. W. Simpson.

To Select Site Wm. Dunn, Chairman—J. A. Bryan—T. G. Hyman.

The above committees are composed of men who have shown marked interest in building the Chamber of Commerce to its present state of efficiency and will merit the support and confidence of the entire public. We earnestly solicit for these gentlemen the co-operation of the entire public, for without that, committee work accomplishes very little.

With regard to the organization of the Fair Association it must be borne in mind that the success or failure of this great plan will depend absolutely upon the support given it by the New Bern public. Right here let us say that it is not going to be any one man's affair, but every citizen in the town of New Bern and surrounding country is expected to rally to its support and take as much of the stock as they can. The price of the stock, only \$25.00 a share will enable practically everyone to subscribe for it without any sacrifice and we do not know of a better way to advance the welfare of the community than through the medium of a good Fair Association. Such as will be organized and maintained if the proper amount of support is given to it by the public.

With the country opened by the Norfolk & Southern Ry. and improved schedules on that road and the Atlantic Coast Line, and deeper water from New Bern to the ocean by way of the ship canal and Beaufort, which should be in operation not later than this fall, the time has come to start the Fair and it is now up to the public to aid it by subscribing for the stock liberally.

Since our last report four new members have been enrolled, Messrs. H. W. Bell of the Pine Lumber Co., Carrison A. Farrow, Post Office, C. T. Ward and W. H. Davis of the Roper Lumber Company, making sixty eight who have joined since the first of the year and a total membership of a hundred and fifty eight. Forty two new names are wanted at once.

DEPENDABLE MEDICINE

So much comment and criticism of medicines has been caused since the creation of the Pure Food and Drugs Law that one hardly knows what to depend upon.

There are, however, dependable medicines such as Cod Liver and Iron preparation called VINOL, which is not a patent medicine in any sense of the word, because it is openly stated on every bottle what it contains, and this combination of two-world famed tonics can be relied upon by every weak, run-down or aged person to restore health and strength. Merit Boosted and Records Smashed

For over a quarter of a century the World Almanac has been smashing records in maintaining the information of the land in a most admirable manner. Its accuracy has been vouched for by thousands—yes, millions, and it has won for itself the well-deserved position among reference books which has outlasted every competitor. Edition after edition has gone to press—the high water mark of circulation has been reached so take warning and get a copy today before announcement is made "out of print." 1910 edition on all newsstands, 25c; by mail, 35c; west of Buffalo and Pittsburg, 50c.

President Helps Orphans

Hundreds of orphans have been helped by the President of the Industrial and Orphans Home at Mason, Ga., who writes: "We have used Electric Bitters in this institution for nine years. It has proved a most excellent medicine for stomach, liver and kidney troubles. We regard it as one of the best family remedies known to us here. It purifies the blood, stimulates the appetite, creates energy, and builds up pale, thin, weak children or run-down people. It has no equal. Best for female complaints. Only 25c. at all druggists."

COMMUNITY UPBUILDING

A community advances in proportion to the effort put forth by its citizenship.

Every citizen may assist in developing New Bern.

The business man could do so by joining the CHAMBER OF COMMERCE, attend its meetings and divide time between his business and his COMMUNITY'S WELFARE.

The citizens generally could do so by TRADING at HOME instead of sending the money they make at New Bern to other parts of the country.
