MUCH RIOTING GOING ON

Strike Situation Is Very Little Improved. March Side Claims Victory

Philadelphia, March 10.—Despite the excitement created last night by the "shooting up" of one of the principal thoroughfares by a trolley carload of alleged strike breakers from St. Louis there were no serious demonstrations against the trolley cars in operation early to-day.

C. O. Pratt the organizer of the car men, denounces the affair, which occurred on Frankford avenue and resulted in three men and a 14-year-old girl being taken to the hospital suffering from bullet wounds received when the trolleyman fired from the swiftly moving car into the crowd. He said it was the usual last resort of the desperate strike-breakers, who, finding everything quiet, shot up a town to indicate trouble. The victims of the bullets are not seriously hurt.

Although many lines were running today without any sign of trouble much apprehension was felt as to the outcome of the feeling stirred up by last night's attack. The police are trying to fix the blame for the reckless gun play. It is alleged that the strike breakers, on learning that one of their number had been injured by a stone thrown while he was operating a car, decided to get revenge and took out a trolley without the permission of the company. Running down Frankford avenue, they shot into every crowd they saw and quickly returned to the barn by a cross-over switch. Notwithstanding Director of Public Safety Clay declared the general strike feeling is on the wane, the labor leaders declare they are steadily gaining ground. Many meetings of unorganized workers are being addressed by prominent labor organizers daily and nightly.

Many converts to the cause of trades unionism are reported. Some of the special dispensations are being withdrawn by the union, and it was declared that 600 bakers would today join the strike.

CAPT. BOGARDUS AGAIN HITS THE BULL'S EYE

The world famous rifle shot who holds the championship record of 100 points in 100 consecutive shots is living at Lincoln, Ill. Recently interviewed, he says—"I have suffered a long time with kidney and bladder trouble and have used several well known kidney medicines all of which gave me no relief until I started taking Foley's Kidney Pills. Before I used Foley's Kidney Pills was subjected to severe backache and pains in my kidneys with oppression and a constant steady urination. While upon taking of the medicine I would get dull headaches. Now I have taken three bottles of Foley's Kidney Pills and feel one 100 per cent better. I am never bothered with my kidneys or bladder and now my body feels like my own self. All this I am due to Foley's Kidney Pills and always recommend them to my friends." Davis Pharmacy.

MILL MEN DEPRESSED

Output Not Remunerative, Because of High Raw Material. People Are in Fine Spirits

Raleigh, March 10.—Dr. B. F. Dixon, State Auditor, returned today from an official trip to Greensboro and cotton manufacturing points in Gaston county, and says he found the people in fine spirits everywhere he went, except in the case of the cotton mill men. These, he says, are depressed over the situation that confronts them in the high price of cotton, the low prices they are receiving for their outputs of cotton yarns and the steadily decreasing market for their products. Dr. Dixon declares that he found the mill men regarding the outlook as quite gloomy.

THE SITUATION IS CRITICAL

Board of Health Hold Meeting to Decide Whether to Quarantine Against Oriental.

Yesterday afternoon the Board of Health met at the city hall for the purpose of investigating the advisability of quarantining this city against the town of Oriental in Pamlico county, where smallpox is now raging.

After discussing the matter the Board finally came to the conclusion that to send two physicians to that town and let them investigate the true state of affairs and report same to the Board before any action was taken, would be the best plan. After this question was satisfactorily decided Drs. Primrose and Patterson were chosen as the two physicians to investigate, and they will leave for that place this morning.

There seems to be a faction there between the people as the following letter from one of the health officers there plainly shows:

Oriental, N. C.

March 10, 1910.

Board of Health Gentlemen:—

A very regrettable state of affairs exist in Oriental. A political and physician's fight. Brother argued against brother, neighbor against neighbor, not for the safety of health and life, but to see who shall win seems to be the clamor.

I am doing all in my power to try and keep peace and harmony within the ranks, but I find it hard to please any or all. If I do, I offend. If I do, I offend. If I do not I still offend, not so it places me in awkward position. I have been abused for not quarantining the town. I went to work Monday to attempt to quarantine all houses with any contagious diseases, whatever they may be. I find great opposition from the faction that wanted quarantine. They oppose absolute quarantine not allowing any one to pass in or out the house (when coming in direct communication). In one case their physician and the family, forbade us entering the house, locking the door, and even forbade us putting up quarantine flags. We want to be honest and fair, and want to use every precaution to prevent the city of New Bern quarantining against us, as it will be an inconvenience to us and a lack of a great many dollars to New Bern trade and interest. I wish to ask you what you require of us to prevent being quarantined against. Your representatives were in the town of Oriental today, but I was not notified of their coming and was away. It seems to me they should have notified the town commissioners and myself and our health officer, and held a consultation and gone to the homes of the affected persons and examined them, and seen if they were properly quarantined to meet the demand of New Bern. Instead of that they went with those whom were making the fight against the town board health officers etc., and pronounced the cases examined smallpox, and improperly quarantined. Afterwards our health officer and one of the aldermen sought them out, and found them and got them to examine other cases and discuss the matter of quarantine etc. I cannot learn conclusions reached, therefore I write this letter.

The great trouble is, not a family or attending physician has reported a case to me, within the corporate limits of Oriental. All knew the town had chick-enpox as it was called—no one staid at home until ready to go to bed, then only for a few days. Later it was called smallpox. Vaccination does not stop its taking on some, and others that have had it have been vaccinated since and the vaccination has taken effect.

HEALTH OFFICER.

Naturally, the people of Oriental are not desirous of being quarantined, but if the disease proves to be smallpox such will be the case.
