OTHER ASSETS BESIDES MONEY

While this Bank has exceptionally large capital, it has other assets which it prizes quite as highly. It has also, as its customers, hundreds of men of means, judgement and high standing in this community, who have been attracted to this Bank because of its strength and who, in turn, have added to the strength of this Bank by their patronage and support.

MINERS ENTOMBED AND SUFFOCATED

Seven Found Dead After Heroic Efforts at Rescue.

Wilkesbarre, Pa., March 14.—From seven to seventeen men were entombed tonight in the No. 5 shift of the Lehigh and Wilkesbarre Coal Co. near here as the result of a terrific explosion of gas. The men are behind a heavy wall of rock and wall of fire and at present there appears to be little hope of rescuing them alive.

A fire fighting force was organized and at 11 o'clock tonight a thousand feet of hose was sent down into the mine in an effort to play water on the fire. There was a good supply of water but the fire fighters were handicapped by deadly fire damp which gathered in large quantities. The mine is one of the most gaseous in the region and the rescuers are proceeding with the utmost caution.

Later the rescuers came across the entombed men shortly after midnight. There were seven in the party. All were suffocated by fire damp.

VOICE OF THE PEOPLE.

Fast Automobiles.

ED. JOURNAL.—I would like to ask through your column if our city authorities ought not to take some steps to regulate the speed of automobiles in New Bern. There is scarcely a day that they are not seen dashing along our streets and around corners at a dangerous pace. There has already been a number of close calls, but fortunately no accident as yet as far as we know has occurred here.

Rev. Mr. Hurley has seen fit to refer to this subject from his pulpit at Centenary Church citing a number of accidents that he has known of in this state one of which we believe was fatal. Also a dispatch from Charlotte tells of a man being run over and killed by an automobile near that city a day or two ago.

Again we think it would be well for our police to be more exacting in regard to the careless drive and transfer driving that occurs almost daily. Shall we wait for some serious accident to learn a lesson?

SHORT PASSING EVENTS

In the Spring a woman's fancy turns to a pretty hat, and naturally she becomes enthusiastic on the subject, but tomorrow at the store of J. M. Mitchell & Co., her fondest hopes will be realized. Their opening will be on a grander and more stupendous scale than ever before. Every department is filled to overflowing with goods of the latest styles and varieties. The opening begins at nine o'clock tomorrow morning. Do not fail to see this magnificent array of millinery.

Upon arriving at their work Friday morning several employes of the Virginia-Carolina Chem. Co., found that during the night some one had cut open 81 sacks of guano which had been left on the platform. Harvey Jones and Monroe Carraway, two colored men who had been employed there were suspected and were arrested and placed in jail. They were tried before the Mayor yesterday afternoon, but on account of the lack of sufficient evidence were released from custody.

Just as engine number 51, on which an electric headlight has recently been placed, was preparing to pull out of Dover Sunday night a colored man rushed up to engineer Jack Neal who was in charge and inquired what that thing was on the front of the engine. After being told that it was one of the new electric headlights he seemed much relieved he told the engineer that on first seeing the light several miles down the road he had thought it was Halley's Comet which is scheduled to arrive in a short while.

There is nothing too unprincipled or too cowardly for some people to do, if there is not the least satisfaction in perpetrating the act, but the fact that it will cause some one much annoyance they will even go out of their way to do it. Such is the case with the micro-ania who delight in demolishing the small inconspicuous that are placed at different places where needed in this city. This sort of thing causes the Electric Light Company much trouble, and if the micro-ania is apprehended he will be severely punished.

The legislature of 1909 appointed a committee to thoroughly investigate the fisheries of North Carolina and make a report in the form of a bill to be presented to the legislators of 1910, which will employ such legislation as in their judgment they deem best for the building up of the fishing industry of this State. This committee did a portion of their work last summer, but did not complete it. They are now to make another trip to eastern North Carolina in order to obtain more data. They will arrive in this city on the 19th inst.

The ever popular little comedians, The Lyman Twins, are to be seen here soon in a brand new up-to-date musical show "The Prize Winners" which from reports in other states has more than made good and is by far the best vehicle from a standpoint of dramatic worth in which these clever little laugh makers ever before appeared. This new attraction is a production of note with a heavy and beautiful scenic investment which rivals the best. The stories, songs and costumes are said to be stunning, and some of the numerous jingling songs hits real novelties. They will appear at the Masonic Theatre in this city March 20th.

THE SITUATION IS UNCHANGED

President Taft Closely Watching The Results. Dissension Has Broken Out.

Philadelphia, Pa., March 14.—Dissension in the directorate of the Philadelphia Rapid Transit has broken out over the company's policy in the car strike are correspondingly encouraged. The split on the board came with the advancement of a plan by Mayor John B. Reybura for the extension of the time in which the striking employes might be taken back and the advancement of wages to such as might return.

Today it was declared authoritatively the situation is such that the formation of factions is imminent.

The directors of the traction company are P. A. B. Widener, John S. Phipps, August B. Loeb, John B. Parsons, George D. Widener, J. J. Sullivan, William H. Schelmerdin and the city's representatives, Mayor Reybura, William H. Carpenter and Clarence Wolf.

The adoption of the suggestion made by Mayor Reybura was accomplished only after a hard struggle. It amounts to little more than a continuation of the previous attitude of the company toward the strikers, save for the arrangement to pay married men ten dollars in advance on their wages and single men \$5, the amount to be deducted from their wages at the rate of not more than \$2 a week.

The time of the return of the men is expected to March 16.

President Taft is watching the Pennsylvania situation closely. Keeping in touch with every angle of the Philadelphia general strike and the threatened state-wide strike, now but two weeks off. Advice from Washington today say that the president is much alarmed over the prospects, and lending every energy toward peace. His action, taken through Secretary of Commerce and Labor Nagel, in sending Labor Commissioner Neill to Philadelphia is indicative of his anxiety.

A Baffling Myster, Story

Preparations are now being made by the New York Sunday World to print in booklet form the greatest detective story of modern times. Arrangements have not been completed with the author, hence the title of the story for the present remains unknown. Next week, a issue of this paper will give further particulars. Everyone will want this great story, which is given free with the Sunday World. There will also be the words and music of a splendid song entitled "Venus, Goddess of Liberty," from "Sky-lark," soon to appear on Broadway.

EASTER

You Are Specially Invited To Be Present at Our **MILLINERY OPENING**

Wednesday, March 16th, 1910
ONE DAY ONLY
From 9 A. M. to 10 P. M.

Our Line of Spring and Summer Fabrics have been carefully selected from the best markets and well adapted to the immediate wants of the trade. What Paris originates, what New York indorses and adopts, that is what we offer you. The higher notes of the store orchestra now chant. Style, fashion, the mode, but the deep sustaining under-current of the music is an ever, low prices, best values and satisfaction. The birds, the green foliage, and blooming flowers remind us that the warm days will soon be here. Have you thought of your Hat or Dress, which ought to bloom royally when nature again smiles?

Just think what it will mean to you to come in personal contact with the most complete line of Easter Millinery and Dress Fabrics ever shown in New Bern.

Our many customers need no persuasion, but to others we would say come and participate.

Music will be furnished by an Italian orchestra. This alone will be worth your trip, if nothing more. Souvenir for each and every one. Come and spend the day with us—there is a reason.
