Indispensable.—There are some simple remedies indispensable in every family. Among these, the experience of years assures us, should be recorded Perry Davis' Painkiller. For both internal and external application we have found it of great value; especially can we recommend it for colds, rheumatism, or fresh wounds.—Christian Era.

## NO VERDICT AT MIDNIGHT

In Carraway Case. Able Presentations Before Jury by Attorneys.

In the case of United States vs J. R. B. Carraway, yesterday, the counsel for defendant announced that it would put on no witnesses. At 9:32 a. m. Wm. Dunn Jr. for defendant spoke nearly an hour to the jury, being followed by Assistant U S Attorney Giles for the government, then E. M. Greer, for defendant, U S Attorney Sewell, and ended by L I Moore for the defendant, who closed at 6:11. No able five addresses to a jury have ever been made than the five yesterday.

Judge Connor made his charge to the jury taking 50 minutes, the jury then retiring.

At 12 o'clock last night it was announced as no verdict had been brought in, there would be none announced until morning, as Judge Connor would not be called up after that hour. There were some reports on the street as to how the jury stood but there was no reason to believe that any real knowledge was to be had in the matter, as to a definite verdict.

### Judge Guion no Candidate

Judge O. H. Guion requests the Journal to positively announce in his behalf that under no circumstances will he be a candidate for Congress in the 3d district, as has been rumored. Judge Guion has resigned from the bench to resume his law practice, with his son W. B. R. Guion, and will confine himself to the law practice. This statement of Judge Guion ought to at once set at rest all stories associating his name with political rumors as an office seeker.

### Will Meet in Wilmington

The State Council of the Junior Order of the United American Mechanics will meet in convention in Wilmington in August. This will be the first meeting under the change of time for the yearly event and will be decidedly interesting on that account. Some months ago the idea was advanced for changing the time of meeting from bleak February to warm August and the idea was well received. Then a sufficient number of votes had to be obtained in order to make the change. This has now been accomplished. So the change will be made with the convention to be held in that city, Wilmington having been decided upon as the next convention city, and the time of commencement of the convention has been set for August 23rd.

Our car of Pittsburgh Fencing has arrived. See us at once. Basnight Hdwr. Co.

## GIRL'S ASSAILANT FIRES ON POSSE

Youth Makes Murderous Attack on Companion—Barriadees Self, Shoots Officer.

East Rutherford, N. J., April 29.—A 17-year-old boy, sister of one of the most prominent lawyers in Rutherford, while she was in his company in the Rutherford Boat Club house this morning, Clarence Woods, 19 year old, barricaded the doors of the building. Then with a Winchester rifle and revolvers he fought off Sheriff George M. Brewer and a posse of twenty-five deputies.

Policeman Charles Smith, who with Chief McClellan started to crawl through the window grass along the river front to surprise Woods, was shot of wounds in the right shoulder and leg in the chest. He was removed and sent to Passaic hospital.

Miss Kippson at her home in an unconscious condition, and physicians fear her skull is fractured and that she will die.

The cause of the attempted murder has not been advised.

The man in the boat looks like Randall when he's full.

## THE LAST DAY SCHOOL EXHIBIT

Successful Termination In All Departments of Scholars Work.

Yesterday was the last day of the school exhibit and many came out to hear the spelling bee and get a look at the exhibit. The exhibit from beginning to end has been a decided success, and from the daily crowds that thronged the different rooms one would judge that the public has been favorably impressed.

Of the grades of the high school the seventh A had doubtless the most interesting and attractive display work. Notable among the works of skill were placards of the administrations of presidents with drawings illustrating the principal events that occurred during their respective terms of office. Another attractive bit of work was a book of photos of several of the class dressed to illustrate Japanese life and customs.

As the class has lately studied the "Sketch Book" and "The Vision of Sir Launfal," some of the most gifted members of the class have displayed their skill and imagination by drawing scenes from these two books as the passages presented the pictures to their imaginations. "Ichabod Crane at School" and "Ichabod on Gunpowder" are among the best of the drawings.

The relief maps drawn by the geography class showed accuracy and care and the coverings for all of the class work were attractive and appropriate.

Conspicuous on the table in the eighth grade room was a drawing entitled "Ulalume" by one of the members of the class. It was the representation on paper of the picture produced in the artists mind after the study of that poem of that name by Poe. Like the seventh, the eighth grade displayed drawings of relief maps of the continents worked in putty. The class work on exhibition was neat and the grades generally high. The coverings though not so elaborate as those of some of the lower grades, were neat and engaging.

The exhibit of the ninth grade was written class work and tests. The work was interesting and showed the development of greater mental abilities. One of the best and interesting was a series of papers on Ivanhoe, a work which they have lately studied. The papers of the history test were well arranged with cards above them giving the value of the study of history. The tenth grade like all the others had a very artistic display. But the appearance of the room was without a doubt the most inviting. Both cut and pot flowers filled the air with fragrance and the colors of the class and of last years class being from the walls. The work of the class was of course of a higher order than of the other grades. But it was interesting nevertheless and everything was displayed to the best advantage. Artistic and tasteful covers adorned the written work on exhibit and the care and skill of the graduating class was plainly manifested.

Diarrhea should be cured without loss of time and by a medicine which like Chamberlain's Colic Cholera and Diarrhoea Remedy not only cures promptly but produces no unpleasant after effects. It never fails and is pleasant and safe to take. Sold by all dealers.

### Mr. Stephen Woolton Found Dead

Greenville April 28.—Mr. Stephen C. Woolton, a young attorney here was found dead in his room at his boarding house this morning. He was out as usual yesterday attending court but went to his room early in the evening without supper. An attaché of the boarding house went to his room about supper time to see if he wanted anything and Mr. Woolton told him he felt unwell and wished to retire so he could get up early this morning to prepare for some business in court.

Not coming down for breakfast this morning, his room was again visited and he was found dead. His body was lying across the edge of the bed, feet and legs being upon the bed and head and shoulders on the floor. His neck was broken by falling in this position from the bed. The car was a 1908 but after examining the body deemed an inquest unnecessary.

Mr. Woolton was one of those badly injured in the automobile wreck here last November and was in a critical condition for weeks following the accident. Since recovery he appeared as well as usual with the exception of occasional epileptic convulsions and one of these convulsions is given as the cause of his death.
