

4% INTEREST PAID ON SAVINGS 4%

SOMETHING BESIDES 4 PER CENT

The fact that this Bank pays you four per cent on your savings is important to you, of course, but principally, because, in connection with this rate, it offers you ALSO the exceptional degree of SAFETY secured by its unusually large Capital of \$200,000.00 and by the most conservative management. Are your savings where they enjoy these advantages?

PREPARE TO REORGANIZE

By Norfolk And Southern Officials. Arranging Papers In North Carolina

Norfolk May 2.—That the reorganization will lose no time in actually securing possession of the Norfolk and Southern Railroad and terminating the receivership is evidenced from the fact that Mr. Edward R. Baird and Frederick Hoff, General Manager E. T. Lamb, and others interested, were in North Carolina, at New Bern and Raleigh, Saturday getting certain papers signed, necessary to the transfer.

The party, which is traveling in a special car, will go to Richmond, for the purpose of securing a charter for the reorganized company, and will then go on to New York where after preliminary meetings, the property will be transferred. This will take place on Tuesday or Wednesday.

MAKES AIR-CRAFT OBEY

Inventor Believes He Has Revolutionized War by His Invention

London, May 2.—T. R. Phillips, a Liverpool engineer, claims to have invented means for controlling and directing aerostats or electricity transmitted ethereally.

He gave a demonstration at the London Hippodrome with a twenty foot Zepplin airship, and showed his ability to raise, lower, drive, stop, and turn it at will by manipulation of the keyboard of a transmitter.

Mr. Phillips claims that the principle is applicable to man-carrying airships and aeroplanes, but is primarily intended for aerial torpedoes. "I can sit in an arm chair in London," he says and make an airship drop a bunch of flowers in a friends garden in Manchester, Paris or Berlin, and with equal ease I can make it drop explosives wherever I like. I believe it will abolish the existing methods of warfare. I have offered the invention to the British government, which will inspect it shortly."

BEEF MEN INDICTED

Selling Meats at Loss To Force Out Competition

Savannah Ga., May. 2.—Shortly after 3 o'clock Saturday the United States grand jury returned a true bill against Ouday & Co. the Schwarzschild and Sulzberger Beef Company, Swift & Co Armour Packing Company, and the Nelson Morris Company as corporation and Emmet B. Adams, local manager for Swift; William Cooper, local manager for Armour, and Fred M. Hull, Jr. local manager for Nelson, Morris & Co., are individual defendants. The date of operations under which this indictment is brought is for the year 1908.

It is alleged that the packing house bought and slaughtered at various points in the West and North live stock, shipped fresh meats to Savannah, reduced the price of meats, and sold them on the market at a loss. The result of this manipulation is alleged to have compelled the South Atlantic Packing and Provision Company of Savannah, to sell its product at a loss, and was a conspiracy in restraint of business, trade, and commerce.

Rector Called to Florida.

Rev. J. H. Brown, of this city has received a call from Pensacola, Fla., Christ Episcopal church in that city, and will leave this week to look over the situation before deciding to accept or decline the invitation in the new field.

New shipment of Queen Quality Oxfords received today, in Patent Leathers and Suedes. Dont fail to see them they are beauties. J. J. Baxter.

Swansboro News

May 2.—The machinery of the new saw mill of W. S. Swindell & Sons, has been installed, and they gave it a trial Saturday which proved satisfactory, as it turned out some very pretty lumber. This is a new enterprise and will add much to our community.

Mr. T. H. Pritchard is having a large stern wheel steam boat built light draft to play between Swansboro New Bern and intermediate points, to carry freight, with passenger accommodation. The boat is sixty feet long twenty feet wide and will when completed, accommodate fifty passengers besides freight. This boat will be ready in about thirty days, and will be quite an acquisition to Swansboro and vicinity. The work is under the supervision of R. L. Smith the efficient boat builder.

SHORT PASSING EVENTS

On Trent road it is noticed that cotton is up in many fields, and everybody is done planting. Chopping will begin in a week or ten days at the outside. As far as it is known the acreage in this section has been increased very slightly if any, but the manuring has been heavier than usual.

Farmers from adjoining counties are complaining that the dry weather is retarding the growth of most of the crops that are now up. In the humid area vicinity of New Bern, while it is very dry, growing vegetation shows but little effect of drought. So far corn and other crop have a good color and are well advanced.

So far no census enumeration has been made of the 3rd ward. The enumerators appointed refused to serve for the price fixed by the department which this time was extremely low, so no count has been taken. The other white enumerators have finished their work and sent in the schedules several days ago. The rural counties have two weeks yet to finish their work.

G. T. Hudson who has been living in Rome, Ga., for the last eight years has moved here and gone in business. Mr. Hudson came here in bad health, but as he was reared here the old place may be healthier for him. We are glad to have him back with us. Mr. Hudson's wife who has been visiting her mother and relatives in Shelby, N. C., came down Saturday to join him.

A REGULAR TOM BOY

Tom Baine—slim, trim and frisky, jumping, dishing, snorting, always getting exercise, and always making some noise or sound, but never making any sense, and never doing any work, other than just applying himself to the business of being a tom boy. He is a regular tom boy, and is a regular tom boy, and is a regular tom boy.

Wall paper now in stock we decided to put in good quality paper so you would not have to wait for it to be ordered, we will be glad to show you the prices from 10c. per double roll to \$2.00.

Hamilton—Hancock.

Married by Rev. J. V. Williams, at his office 4 South Front Street on Sunday morning at 9:30 J. W. Hamilton, of New Bern N. C. and Mrs. Ida Hancock, of Kinston, N. C. May heaven's blessings follow them. J. V. W.

The Sixteen Inch Gun. The monster sixteen inch rifle, the only one built so far, is now at the Sandy Hook proving grounds and has been fired only a few times. The huge shell of steel can be hurled a distance of twenty miles or more and weighs 2,400 pounds. The powder charge is nearly 500 pounds. The cost of firing one shot reaches in the neighborhood of \$1,000. It is not probable that this type of gun will be used, but rather the fourteen inch, for the main coast defenses of the Panama canal and possibly the Philippines. This formidable and long range weapon, though capable of firing so tremendous a projectile, is too costly and fires too slowly for modern warfare.—Scientific American.

The Missing Violin. About three years ago Yasay appeared as soloist at a concert of the Imperial Symphony orchestra in the Imperial Opera House at St. Petersburg. He was greeted by a most distinguished audience. Grand dukes and all the notables of the court circle crowded the greenroom after the concert to pay their respects to the virtuoso. As is usual on such occasions, only the elect were admitted. Just the same Yasay's precious Stradivarius disappeared from that greenroom "under the most distinguished auspices," as American humorists would put it. The instrument was worth \$10,000. It has never been recovered.

A Picture He Didn't Get. A year or two ago an art dealer called at the Duke of Westminster's house and sent word to the duke that he represented a famous American millionaire, who wanted instant possession of "The Rine Roy," as he was called the next day. The dealer brought with him an open check for \$25,000 and had a four wheeled cab waiting to take the picture away. The millionaire had instructed him that if the frame was too large for the cab he could bring the picture unframed without deducting anything for the frame. But even this inducement could not tempt the duke to part with the picture.—London Mail.

Woman's Beauty

Imperfect Digestion Causes Bad Complexion and Dull Eyes.

The color in your cheeks won't fade, the brightness in your eyes won't vanish if you keep your stomach in good condition.

This was the advice of a prominent physician to a woman's club in Boston and it is good advice.

Belching of gas, heaviness, sour taste in mouth, dizziness, biliousness and nausea occur simply because the stomach is not properly digesting the food. The blood needs nourishment to carry vigor, vim and vitality to every part of the body and when food ferments in the stomach enough nourishment is not supplied.

Mellin's stomach tablets give instant relief to upset stomachs, but they do more; they put strength into the stomach and build it up so that it can easily digest a hearty meal without giving it lower hours of misery.

Mellin's is sold by druggists everywhere and by Brethren Drug Co. at its sole large store. It is guaranteed to cure indigestion or any stomach disorder or money back.

The Springfelt Mattress is an invention for which a patent has been granted. In the construction of this mattress we use a specially constructed 120 coil very highly tempered spring. The Springfelt Mattress does not require any other spring, this saving the expense of a spring. If desired they can be placed on another spring, but we do not recommend this except for a very heavy person. The Springfelt can be dressed over, or end for end, no as to insure equal wear. Both sides are made alike.

The ventilation of a mattress is essential, and the Springfelt has a ventilator in each end, covered with fine brass gauze wire. These ventilators make a very sanitary mattress.
