## Large Capital is Vital

Whether your lawyer or your doctor has much or little money is immaterial to you. The quality of their service does not depend on Capital.

But your bank—that is different, for no amount of personal willingness on the part of your banker, can take the place of the ability to serve that goes only with the possession of large capital.

With these facts in mind the \$200,000.00 Capital of this Bank becomes a matter of serious import in choosing a Bank.

## ATTEMPTS TO WRECK TRAIN

New Haven Motor Train Hits Stack of Ties, but Sticks to the Rails

Stamford, Conn., May 21—A deliberate attempt was made last evening about 7 o'clock to wreck an inbound train on the New Haven branch of the New Haven road. Two railroad ties were placed on the tracks in Springdale, a suburb of Stamford, at a point where the road curves widely. The train hit the ties when running at high speed.

The ties were not fastened and the blow sent one of them spinning high in the air, the other was caught in the locomotive guard and was broken into small pieces. The train did not leave the track and no one was hurt, although the thirty-five passengers were thrown about when the air brakes brought it to a sudden stop.

Chief Morhouse of the rail road police and several of his men are working on the case. Many wealthy New Yorkers have summer places in New Canaan and the attempt has given them a scare. The New Canaan express from New York passed the spot only a short time previous.

The train was in charge of Motorman Eugene Ferguson. It was composed of a motor combination smoker and baggage, with a single trailer. Ferguson did not see the ties until his train hit them.

Mrs. Jacquelin's Week of Menus.

The week of cooking demonstrations by gas, given by Mrs. Jacquelin, of New York city, at the Gas Co's rooms ended yesterday. The interest shown by New Bern housekeepers has been seen in the large daily attendance, and that gas is a success for cooking everything that goes to make up a first class menu, is fully demonstrated. Those who have attended these daily menu cookings are full of praise for Mrs. Jacquelin, and the Gas Co. comes in for a full share of thanks, for it has opened up a profitable week for New Bern housekeepers to learn many new arts in cooking, which only so skillful a demonstrator as Mrs. Jacquelin can give.

### In Memoriam

In the solemn rites of our order, we have often been reminded of the great truth, that we were born to die. Mortality has been brought to view, that we might more earnestly seek an immortality beyond this fleeting life, whose death can come no more forever.

The sad and mournful funeral knell has betokened that another spirit has gone to a new State of existence. There is an alarm at the door of our Lodge, and none presumed to ask: "who dares approach?"

Our brother, Chas. C. Clark, Jr., has been summoned before the Supreme Grand Master of all the Universes, and we bow in humble submission. He was a true and loyal friend; a loving husband and father; an upright and just Mason; his life designs, wrought upon the Trestle Board, were faithfully executed, and are worthy of emulation. No task was too arduous, no requirement too difficult for his performance. He vindicated the judgment, and justified the confidence of man and Mason.

Resolved: To his bereaved and mourning friends and relatives we tender our heartfelt sympathies.

That this tribute be spread upon our Masonic Records, and a copy transmitted to his sorrowing family.

### Sunday School Convention

The County Sunday School Convention to be held here on Thursday 2nd June promises to be the beginning of an interdenominational movement, which in time will affect every Sunday school in Craven county. Its purpose is to broaden the horizon and deepen the interest of all Sunday school workers, by bringing them together in an annual gathering to exchange ideas and methods of Sunday school work.

Being interdenominational, it has not only the strength of its allied State, International and World's Associations behind it, but also the combination strength of all the Evangelical Denominations. Thus the County Association is no small affair, it is not a stray key but belongs to a whole bunch of keys, which in turn is linked to all the denominations. The Organized Sunday School work is so magnified these days that the Sunday school is no longer a child's institution though it is an institution for children, but it is a man's work and worthy of a man's best thought and attention. Its various departments take hold of life in all its stages, from the cradle roll of the wee little tots to the Home Department of the old aged and invalid. In the convention here on the 2nd day of June the work of all the departments, of the Modern Sunday School Movement, will be presented, and the State Association will have representatives present to present expert advice on various Sunday school problems. The local cooperating committee, consisting of one representative from each denomination in the town, is preparing a program for the Convention and a large and representative gathering from the schools throughout the county is expected.

### The Comet in the West.

The comet having made an uneventful transit, may now be looked for in the western skies, setting close after the sun. It may be seen in the west this evening just after dark, but there need be no particular hurry, for the comet will be a regular weekly attraction until early in June, when it will fade away for another absence of seventy-five years.

## THEODORE PRICE ESCAPES

But Other Accused Cotton Men Will Be Tried in Washington

Washington, May 21—Theodore H. Price of New York, the "cotton king," indicted here for connection with the "cotton leak" scandal of 1908, cannot be prosecuted in the District of Columbia, according to a ruling of the Supreme Court of the District.

He is the only one of the four men charged with conspiracy in connection with the cotton leak who will not have to face a jury here. Frederick A. Peckham, Moses H. Haas, of New York, and Edwin S. Holmes, Jr. of this city, although relieved by the court's action of the 1908 indictment, will still have to answer the old indictment returned in 1906. Holmes was once tried under these indictments, but the jury disagreed. Peckham and Haas sought by habeas corpus proceedings to attack the 1906 indictment and to be released from custody because a New York court on removal proceedings had declared the indictment charged no offense.

### Total Eclipse of the Moon.

An interesting astronomical event of the month will be the total eclipse of the moon which will occur tomorrow night.

This time the hour is more convenient for the majority of people, and doubtless there will be many gazing at Luna from papa's front yard. The moon will enter the earth's penumbra at 2:11. The shadow of the earth is one million miles long and at the point where the moon passes through it is four thousand miles in diameter, so that the moon will travel these four thousand miles plus the distance the earth travels during the time of the eclipse in 2 hours and 15 minutes. At 1:25 the moon will be entirely lost in Mother Earth's shadow. Should the skies be clear the eclipse will be one of the prettiest that you will have an opportunity of observing during the present year.

### Tribute of Respect.

Again the ranks of our thin line of Confederate veterans has lost another member, my old school mate, comrade, mess mate and tent mate.

Comrade W. C. Brewer has crossed over the river and answered to the last roll call; we were members together of the 24th regiment Co. F. N. C. State troops. "Cris" was a true and faithful soldier and a companionable tent mate. I never knew him to hesitate or falter amid the hard duties of soldier life in the Confederate army. He was promoted to lieutenant, and for a considerable time had charge of a corps of sharpshooters; was wounded several times, and very seriously at Chancellorsville, Va. He was on the line of sharpshooters at the memorable battle of the Horse Shoe "Spottsylvania" where we were engaged for 17 hours; Cris told me he was just on the right of our brigade as we went in action, and that he passed through the Stewart yard where the most severe fighting was done, and as an assurance of its severity, Mr. Stewart told me a few years ago that a tree in his yard 22 inches in diameter was cut entirely down that day by minnie balls, and as a memento of that battle a section of the tree that cut down was carried to the Smithsonian Institute at Washington, D. C. It hardly seems possible that any man could live where such a clash of arms took place.

I shall miss my old comrade as we meet in the next reunion in our camp. When I think his last May 10th on the Academy Green, I little thought it was our last earthly meeting. As color bearer of the company at Chappahub Cris had the flag staff cut off just above his head as we were retreating, and he took the flag from the broken staff and carried it safely out, after having six bullets shot through the flag—that day, as a soldier, I, who knew him best, can testify to his bravery, fortitude and faithfulness.
