we invite you to call and see us. We will consider your application carefully and promptly, and if we can consistently do so we will be glad to make the

Of course a carefully managed bank, must not make any but safe loans, but when we regard a borrower as deserving of a loan we are quite as happy to serve him as a good depositor.

It takes good borrowers as well as good depositors to make a live bank.

Has Invented Moving Pictures In Mixed Train No. 13 Enroute From Returns From Cotton Growing This City to Oriental Jumps Their Native Colors. They Talk Like Real People Track, and Passengers Badly Shaken Up.

Newark, N. J., May 20-Thomas A. Edison, the "electrical wizzard," said today that he has succeeded in producing a moving-picture photographing ma-chine which will take pictures in their native colors, the experiments showing such results as to warrant the inventor asying that almost any day would see its perfection.

"While color photography is not new by any means," said Edison, "its diffi-culty for just ordinary landscape pic-tures is such that only a few experienters care to use the Lumiere plates, and even in the hands of the experts the results are indifferent.

"I am also working on a machine which will reproduce the pictures as well as the moving-talking-picture mahine I know that there are some on narket, but none of them are any good. There's no synchronism between the pictures and the talking. Just think of having a picture colored true to nature, with the action and talking clear ly reproduced.

"I've had Mr. Lumiere here. He tsyed with me a couple of days and was satisfied with what I have done." Mr. Edison was asked what was the principal invention needed by the human race and which had not been invented.

"I am no prophet," he replied, "and

The high prices that have prevailed fair could be learned but it is known for the past year has resulted in generthat Mr. and Mrs. White will make al increase in acreage, particularly in Greenville their home. Texas and Oklahoma. The freezing

weather in April caused considerable damage and necessitated a great deal of replanting, fortunately this occurred at a time when less than 30 per cent of the crop was planted, and only part of this above ground. During the past two weeks copious rains have fallen over the entire belt, but there have been complaints of continued cool weather. The Texas crop promises to break all records, warm seasonable weather du-

ring June is now all that is necessary to assure a satisfactory crop. We have received a number of communications, from Virginia, Missouri and Kentucky, but not enough to war-
