THE BEST PLACE TO KEEP YOUR MONEY is the place where you can get it back PROMPTLY if really needed.

Only those with a great deal of money can properly afford to consider permanent investments, and they had best consult with their banker before letting go of their cash.

The average man needs a good sized available reserve in a strong, safe bank, before putting a penny into anything outside of his own business.

Ready cash is a mighty good friend.

WEEKLY COTTON LETTER

Short Interest Used as Lever. Business Conditions Abroad Satisfactory.

New York, June 13.—The heavy short interest in the cotton market that accumulated over the government report was used as a lever this week by the bull interests to advance prices to a still higher level. This operation was greatly assisted by the strong statistical position of the remainder of the old crop. Domestic spinners have been moderate buyers, they are persistent in the policy of curtailment owing to the very unsatisfactory state of general trade which lately has been accentuated by the drastic policy of the administration in enjoining the railroads from raising rates. While the issue has been in a measure adjusted there is still a feeling of uncertainty over the immediate outlook which deters merchants from making normal new commitments for the future.

Business conditions abroad are much more satisfactory than at home. Foreign spinners have been good buyers of spot cotton, as reflected in the heavy sales at Liverpool during the past week. They had been awaiting a decline after our government report which failed of materialization and they have been taking their supplies since then, at prevailing prices.

Weather conditions in the cotton belt since the issuance of the government reports have been very favorable for the germination and growth of the new crop and the promise of a good yield continues excellent. The state reports of Oklahoma and Texas are exceptionally good both as to condition and acreage, the figures showing a greater increase and higher condition than those reported by the government. Cotton is forming squares in Southern Texas and other parts of the belt where the weather has been unusually good and some new cotton should be coming to market from these sections within two months.

MARKET DULL AND NARROW

Largest New England Mills Expected to Close Down During Summer Has Depressing Effect

Special to Journal. New York, June 13.—The cotton market was narrow and dull today and experienced a further reaction, but rallied in the last half hour on what appeared to be short covering by local traders who had sold in the earlier session.

Liverpool cables smaller spot sales than has been expected.

The announcement of further summer curtailment by several of the largest new England mills had a depressing effect on the market but was considered to be due more to the very unsatisfactory condition of trade rather than to high prices. There is an abnormally small demand from jobbers and small dealers which has not improved even on material price concessions recently offered by the mills.

Spot sales were about seventeen thousand bales value at unchanged prices.

DEMOCRATS WANT THOMAS

The Democrats of Craven County in Mass Meeting Assembled Endorse Him.

At 12 o'clock yesterday a large number of voters of Craven county, met in mass meeting at the court house and endorsed Hon. Charles R. Thomas for re-nomination for Congress from the 3d Congressional District.

The meeting was called to order by Mr. R. A. Nunn, and he called upon Hon. Jas. Bryan to preside. Mr. Bryan addressed the meeting in a rattling good speech. The main point made by Mr. Bryan was that the interests of all Eastern Carolina demanded that Mr. Thomas be returned to Congress, and that his constituents had the right to call for his nomination. It was merely a question of the interests of this section and no one else could do what he could do for deep waterways and all the great needs at this critical period.

There was great applause for the telling points of Mr. Bryan's remarks. The number of people present was remarkable and the following resolutions were unanimously passed.

New Bern, N. C., June 13, 1910.

We, the citizens of Craven county, in mass meeting assembled, hereby endorse our fellow countryman, Hon. Chas. R. Thomas, for Congress, and respectfully call to attention his untiring services as Congressman for the past ten years. We believe that it is for the best interest of this district to re-elect Mr. Thomas, and know of no good reason why he should not be returned to Congress. While Mr. Thomas is not a candidate for the position we believe that we have the right to acknowledge our gratitude to him for his valuable services already rendered and to express our desire to see him retained in the position in which he has accomplished so much for his people.

Rain Causes Interruption.

The Memorial Exercises by Elmwood camp No 12, W. O. W. were very much interrupted yesterday evening by the rains, however, the members marched to the cemetery at 5 o'clock and with a short ceremony decorated the graves of their deceased with flowers and evergreens in honor of their memory and to show reverence for their worth.

An elaborate program had been arranged and Mr. D. E. Henderson had kindly consented to deliver the address, but owing to the inclemency of the weather, it became necessary to dispense with the greater portion of the exercises. This is a beautiful custom of the Woodmen, and it is to be regretted that the weather prevented them from carrying out their program.
