WEEK'S WEATHER FORECAST

Torrid Wave To Pass Says Weather Man. Moderately High Temperature

Washington, D. C., July 11.—Lower temperature today is predicted by the Weather Bureau for the lower lake and Ohio Valley regions, and by tonight for the Middle Atlantic and New England States, with normal temperature in those regions during the remainder of the week.

Moderately high temperatures will prevail during the week in the South Atlantic and Gulf States, and warm weather will continue in the region west of the Rockies. Temperature near or below normal is promised for the next few days in the upper lake region, the upper Mississippi Valley, the plains States and the Northwest.

Local rains will fall in the Atlantic States the early part of the week, and by the middle of the week there will be scattering showers in the Mississippi Valley and the Northwest. Fair weather will prevail during the greater part of the week in the Rocky Mountains and plateau regions and the Pacific States.

Hot Wave Sweeps United States.

From practically every city in the eastern section of the United States comes reports of the intense heat that has prevailed for the past few days. In New York city many deaths have been caused by the hot wave and several have succumbed at other places. The temperature in this city during the past few days has been rather high but not enough to cause any serious inconvenience.

Finds Suit-case In River.

While standing down on the market dock Sunday afternoon, Mr. Thomas Bowden saw a suit-case floating on the water. Waiting until it came near enough he succeeded in fastening his cane in the handle of the case and drew it up on the dock.

Upon opening it a suit of clothes and other articles belonging to a gentleman's toilet were brought to view. Policeman Parker saw Mr. Bowden pull the suit-case out of the water and after a few inquiries took charge of it and carried it to his home, while he made some inquiries in order to see if he could locate the owner. Yesterday morning it was discovered that the suit-case was the property of a gentleman in Goldsboro who had been down the river on a hunting trip and upon his return to this city and having but a few minutes to spare, had set the suit-case near the edge of the dock and it had fallen over-board, while he, being in a hurry to catch his train either forgot to look for it or after searching for it in vain had decided it had been stolen and left the city.

First Baptist S. S. Picnic

The Sunday school picnic of the First Baptist Church will occur on next Wednesday. If the weather is good the boat will proceed as far as Oriental, otherwise a stop will be made at Slocumb's Creek or some intervening point. The managers regret to have to announce that on account of the limited size of the boat it will not be possible to carry any except such as attend the First Baptist Sunday School or Church. It is hoped that others will appreciate the difficulty and not apply for accommodation. Persons having baskets of dinner will notify Mr. Dowdy at Miller's Furniture Store on Tuesday and he will send a wagon for the baskets early Wednesday morning. The crowd is requested to meet at the church on Wednesday morning not later than seven o'clock, as the boat will sail immediately after that hour. The children will be carefully looked after and every effort made to give them a good time. Parents are especially invited to accompany their children.

FIRED BECAUSE HE WAS TOO OLD

Attorney General Thought Mosby Couldn't do Work Required of Him.

Washington, D. C., July 11.—It was officially announced today that the resignation of Col. John S. Mosby, the famous Confederate Guerilla as special attorney for the department of justice, was submitted in compliance with a request from Attorney General Wickersham. It is understood that the retirement of Col. Mosby was due to his alleged inability on account of his advanced age to meet the requirements of the service and that no other complaint was made against him.

Col. Mosby was appointed about 8 years ago by President Roosevelt and took a prominent part in the work of breaking up the operations of cattle men against government lands in the middle west. The veteran fighter, now 73 years old, has undertaken to write a history of his career during the war.

Accidentally Wounded.

An accident that came near proving fatal to the victim occurred early yesterday morning when Luther French a small white boy, shot Earl Stanley, also white with a 22 calibre rifle.

The two boys had been practicing shooting at a target and had fired several shots when the accident occurred. In attempting to place a cartridge in the breach of the gun young French in some released the hammer and the shot struck the Stan'ey boy on the hand, inflicting a very painful wound which required the attention of a physician.

Large Audience Attends Lecture

Capt Oscar Stern, commander of the local branch of the American Salvation Army informed the writer that the largest audience of the opening of the mission, attended his lecture on his work in Chinatown, New York, which he delivered last Sunday night. Next Sunday night he will deliver another of those soul-stirring personal experience lectures.

Awning Destroyed.

Early yesterday morning the large canvas awning which covers the entire front of Mr. J. J. Baxter's dry goods store became ignited, and before the blaze could be extinguished more than half of it had been destroyed. Just how the blaze originated is not definitely known, but it is supposed to have been caused by a lighted match or a cigarette which was thrown from a window above the awning.

"Life is a See-Saw."

An incident that fully corroborates the old maxim that "life is a see saw" culminated in this city yesterday when a young man who came to this city several weeks ago, presumably to take a vacation and enjoy life in general, had to walk out of the city leaving behind him a large number of unpaid bills.

The young man, who claimed Wilson N. C., as his home, gave varied and enthusiastic accounts of his family's local standing and financial ability, yet when he wired home Saturday morning telling the sad news that he was "all in" and that a few simoleans would be greatly appreciated he failed to receive a reply. When only a few days before he had presumably been well supplied with the "ever ready" and was enjoying life to its full extent he awoke to the fact but too late, that "the pace that kills" could not exist on an empty pocket book, and leaving all of his worldly goods, except the clothes he wore, with the landlady, started out to "foot it" to Wilson.

ENGINEER FOILS BANDITS

In Possession of Train Forty Minutes, But Get Nothing

St. Louis, Mo., July 11.—Cleverness on the part of the engineer prevented three youthful and apparently inexperienced bandits from robbing the Missouri, Kansas and Texas Southwestern "Flyer" near Larimore, fifteen miles from St. Louis, early Sunday. Three men were arrested later as suspects and placed in jail pending investigation.

Engineer Quinn, through a ruse, prevented the looting of the baggage car and the passenger coaches. The bandits compelled the engineer and the fireman, at the point of revolvers, to descend from the cab and go with them to the baggage car to assist in uncoupling it. The engineer in the darkness managed to glide away from the bandits and made for the cab. The bandits opened fire on them.

Scrambling into the cab the engineer threw the throttle wide open and dashed away with the train.

Five miles further on Quinn rung up the yardmaster in St. Louis and told the details of the attempted robbery. The train was in the hands of the bandits forty minutes. According to railway officers there were thousands of dollars in the baggage car in addition to the mail, which was unusually heavy.

New York Cotton Market

Supposed Corpse Proves to be Stuffed Overcoat.

While crossing Neuse river bridge a few days ago several young boys who live at Bridgeton were startled by seeing, what they supposed was the body of a drowned man, floating down the river. There was no boat at hand in which they could reach the "corpse" so they rushed back to the Bridgeton side of the river, where after telling their story to several people there they secured a boat and rowed out to bring the victim ashore. Imagine their chagrin when upon reaching the object which they supposed was the body of some poor unfortunate who becoming tired of life's turmoil, had decided to end it all by seeking a watery grave. They discovered an old dilapidated overcoat which had been stuffed with hay and thrown overboard by some practical joker.

How Many Can You Accommodate?

The Chamber of Commerce is pleased to announce that the matter of properly looking after visitors in the way of locating boarding accommodations during the celebration has been taken in hand by the committee on entertainment, and that J. Leon Williams, Esq., one of our young and prominent lawyers will give the matter his personal attention from now until the close of the celebration. All persons who can be respectfully urged to arrange to accommodate as many visitors as possible on this August occasion in order that no person may go from our city dissatisfied by reason of accommodations.

In the cities during exhibitions it is the custom for every house that can do so to open its doors to the visitors, a great many placing signs outside that boarders are wanted. If this is done here during the celebration it will tend to relieve the committee on entertainment of one of its greatest burdens. The Chamber of Commerce therefore begs that nothing be left undone by anyone to assist in caring for the large number of visitors who will be in evidence in New Bern during the Bi Centennial Celebration and all matters pertaining thereto should be referred to Mr. Williams who will strive to his utmost ability to see that everyone is properly looked after.

Points on Perfect Protection

The excellence in protection afforded by a policy on BOILERS and FLY WHEELS in the MARYLAND CASUALTY CO. of Baltimore, (assets \$5,000,000) is proven by the following facts and figures:-

Only casualty company maintaining a CLAIM DEPARTMENT in North Carolina which assures prompt adjustment.

Premiums collected in this state last year exceeded that of any other company by \$45,000.

Has advanced in 12 years from the bottom to SECOND PLACE in the list of wealthy companies.

For prompt adjustment of claims and protection given policy holders it has no equal and the beauty of it all is its rates are low as less reliable companies. A policy on boilers reduces cost of fire insurance. No boiler owner should neglect this important feature.
