SHADE OF CAESAR IS COLONEL T. R.

Theosophists Quite Sure Roosevelt is Reincarnated World Hero of Days Gone By.

Chicago, Sept. 14.—Colonel Roosevelt has been placed. He was once Julius Caesar, Napoleon Bonaparte, Alexander the Great, and perhaps even Washington of later times.

Many of the colonel's enemies have seen his likeness to Caesar and Napoleon in his action, but it remained for The Theosophic Society in convention here to properly classify and label.

T. H. Tabbot declared he had no doubt but the spirit of Roosevelt had achieved prominence in the world's affairs in other generations. He declared his present status is even greater than in the past ages, for it has grown with the experience of each physical life. A study of his character shows, he asserted, that he has developed his greatness only through many years' training.

"He is a great astral master," said Tabbot, "master of men in every period in which he has appeared. I do not have at hand the astral name for Roosevelt, but he probably lived in the person of Alexander the Great or Julius Caesar."

New York Cotton Market.

New York, Sept. 14.—The cotton market was listless today. Fluctuations ranged within a few points. Spot sales 6,700 bales at ten points decline.

LATHAM ALEXANDER & CO.

Democrats Carry Arizona.

Phoenix, Ariz. Sept. 14.—Complete returns from yesterday's election of delegates to the Arizona Constitutional Convention confirm reports of the overwhelming victory of the Democrats. They have elected a total of 38 delegates out of 52, the Republicans having elected 11. Republicans, Democrats and leaders of the Labor party are declining the five Gila county delegates, but the result will not be known positively until remote precincts are heard from.

The result makes certain the incorporation of the principles of direct legislation the initiative, referendum and recall in the new State Constitution, and forecasts its probable adoption by the voters of the State.

Sugar Weighting Cases Up Again.

New York, Sept. 14.—Argument was heard in the United States Circuit court today on a motion asking for arrest of judgment and setting aside the verdict of conviction against Chas. R. Heike, former secretary of the American Sugar Refining company and Ernest Gerbracht, superintendent of Hooks, who were found guilty last June of conspiring to defraud the government in underweighting sugar.

After preliminary statements Judge Martin said he would take until Monday to consider the motions in Heike's case and until Wednesday in the Gerbracht case.

9771,512 Aliens Since 1901

Washington, Sept. 14.—Since 1901 9,771,512 aliens have arrived in the United States. The race represented have been classified into 40 subdivisions by the statisticians of the Immigration Bureau. Southern Italians lead all in numbers with a total of 1,761,948 with Italians second at 976,293. Polish immigrants were third in number with 573,600.

The miscellaneous immigrants for whom no appropriate place could be found in these subdivisions numbered 10,772. The Pacific Islanders were the least in number. Only 661 of them have immigrated in the 10 years.

The average amount of money possessed by each alien at landing averaged \$22, but some amazing individual differences are evident. The Spanish-Americans were richest, averaging \$104 each, and the Koreans were poorest, with only \$7 each. Pacific Islanders averaged \$23 and Japanese \$21. The Jews and among the poorest. Their average was \$13.

The immigration in the last 10 years was equal to the normal population of seven of the largest Southern States on 15 of the Western States. The number of normal population of Maine, New Hampshire, Vermont, Massachusetts,

PANAMA SEC'Y ORDERED HOME IS BAILEY THE MAN?

Backing American For President When Government Was Anxious to be Neutral

Washington, Sept. 14.—Critical conditions in Panama about which the State Department maintains an attitude of utmost secretiveness, culminated today in the recall of R. O. Marsh, Secretary of the American Legation at Panama, who has been acting as charge, and the announcement that Thomas Dawson, the Minister to Panama, will proceed from Washington tomorrow to take up his duties on the scene. It is believed here that there is imminent danger of trouble between the Americans and the negroes.

This action on the day before the elections, which will be held tomorrow for the selection of a vice-president, to serve as acting president during the unexpired term of the President Obaldia, is believed to have great significance. It is believed here that Marsh has been active in the support of Samuel Lewis, a former American, who is a candidate for the place. It is said that Colonel Goethals, who is in charge of the canal zone, also is favorable to Mr. Lewis.

The impression prevails here that the department was unwilling to support the attitude of Goethals and Marsh and that it was the desire of the department to take no part in the election.

A message was sent last week to Mr. Marsh instructing him to repudiate a reported interview in which he was represented as indicating that the United States might intervene if Mundoa, a native candidate, was elected. As it has not been announced that Marsh repudiated the interview, and as the department absolutely refused to comment today, it is supposed that Marsh did not repudiate it.

The Late B. S. Guion Laid to Rest.

Sad and impressive funeral services were held yesterday afternoon at five o'clock over the remains of the late B. S. Guion, who passed away at his home in this city Tuesday morning. The service was conducted from Christ Episcopal church, of which the deceased was a member, by Rev. Huske, and there were in attendance a large number of sympathizing friends and relatives of the family. After the funeral service had been concluded the remains were borne to beautiful Cedar Grove cemetery and there interred.

Heavy Sales.

Sales of tobacco on the local market today were again quite heavy, about 125,000 pounds were sold on the five warehouse floors. There was more high grade tobacco in the offering than has been at any one day during the present season, and quite a number of piles of tobacco of character, quality and weight were sold at from 30 to 40 cents a pound. There was no material change in the prices from those prevailing for the past ten days, but the average of today's sale will probably show greater, because of the fact mentioned above—Kinston Free Press.

THINK PELLAGRA GERM IS FOUND

Marine Hospital Expert Writes Hopeful Letter From Europe Investigating Disease

Washington, Sept. 14th.—Word has been received at the marine hospital laboratory that Dr. C. H. Laviander of the public health service, who has been in Europe studying pellagra, has called for this country. He has had a hard but interesting summer's work.

He is very conservative and careful in making predictions, so that he has not ventured any additional suggestions as to the source of pellagra, but is believed by the physicians of the service that they are on the track of the disease and will be able soon to determine its origin. It is fairly well established that these conclusions will not agree with those published by Dr. Sobona, of Paris, who recently announced that he had discovered the carrier of the disease to be a night-flying insect.

It is also announced at laboratory that there is no truth in the statement that the scientists are tracing hookworm in pasteurized and condensed milk. No work in this line has been done, and the circumstances are not such as to justify spending time in looking for what does not exist.

Trappers take notice. The Basnight Hardware Co. has just received a full line of Victor and Jump steel traps, and rat traps in other styles.

Local Police Think That Bailey Is Wanted For Murder at High Point

Several weeks ago a young woman who lived at High Point, N. C., was murdered by a young man who was known at that place by the name of Levy Maynard. The murderer, who is described as being about 23 years of age, at once made his escape and despite the fact that every available method has been used by the police of that place to locate him has not been apprehended unless he is the man confined in Craven county jail under the name of Wm. J. Bailey, of Henderson, N. C.

After Bailey had been placed under arrest by the local police charged with cutting John Haven's throat a few nights ago one of the policemen remembered reading a description of the escaped murderer of the High Point woman and it tallied exactly with Bailey's description.

An investigation was begun by the Chief of Police of this city, who after writing to the High Point authorities in regard to the matter was almost convinced that Bailey was the man wanted and he is now being held until his identity can be fully ascertained.

Bailey has acknowledged that he has cut to pieces a number of men at various times during the past few years. That he has served time on the county roads, and that he is now under bond for retailing at Henderson, and in fact it seems that he is an expert all round crook and a dangerous person to be at large.

Brick! Brick! Brick! See us for Brick and save money. J. S. Basnight Hdw. Co.

Funeral of Col. John D. Whitford.

The funeral over the body of the late Colonel John D. Whitford, one of New Bern's most respected citizens, who passed away at his home in this city Tuesday morning, was conducted from the First Baptist church yesterday afternoon at 4 o'clock.

The services were conducted by the pastor, Rev. Chas. L. Graves, and the hymns were sweetly rendered by the church choir. After the services had been concluded the remains were borne to Cedar Grove cemetery and there interred.

Farmers' Union.

The Craven County Farmers' Union met at the court house in this city yesterday and organized a county union. The following officers were selected: D. P. Whitford, President; J. W. Biddle, Jr., of Fort Barnwell, Vice-President; Graham T. Richardson, of Bellair, Secretary-Treasurer; Daniel Lane, Chaplain; Jess Barrow, of Vanceboro, Door Keeper; T. J. Ivey, Conductor; T. M. Arthur, J. E. Daugherty and L. E. Dudley Executive Committee; A. E. Whitford County Business Agent. The next meeting will be held Oct. 8th.

The New Bern Banking & Trust Co. speaks in the advertisement on this page of the service that a bank renders. Few people appreciate all that a bank does for its depositors and the community at large. The fact is that the bank is the financial heart from which flows the resources that develop manufacturing and other enterprises, furnishing employment and general commercial activity.

Peaches Not In Orchards.

Waynesboro, Pa. Sept. 14.—Peaches are so plentiful and the prices so low that growers are not putting forth much effort to save and sell the fruit.

A party in Waynesboro, who visiting the orchard of J. H. Ledy, Ledy's Station, one of the largest fruit growers in the Cumberland Valley, said there were hundreds of baskets of the finest kind of peaches lying upon the ground, and the owner was willing to take almost any price offered. He said that owing to the high rate charged for the transportation to market and the commission charged for the selling nothing was left for the shipper.

Land Grants Being Put In Proper Shape.

Raleigh, Sept. 14.—The secretary of state is having the land grants in his office jacketed and indexed and the work is immense. It begins with the first grant issued about the year 1690. Mr. W. P. Batcher, who is in charge of the work, says that grants have been jacketed up to 1794, and he is now bringing the index up for that year. There will be in all about 8,000,000 grants. He says that not more than three people can be employed in any enterprise involving this enormous work, and as it is necessary

FORTIFY YOUR FUTURE

The best protection against trouble is money in the Bank. It insures safety.

The hole in the ground, the crevice in the wall, a friends pocket book or your own, is not as safe a place to keep your money in as is our bank, which is fire and burglar proof.

We refer those who have not banked with us to those who have.

We pay liberal interest consistent with safety 4 per cent.
