

The Prudent Farmer

THERE is a great deal being said throughout the country about the importance of farming as an occupation. The fact is, that the great mass of people are just beginning to understand the value of land and the independent position of the farmer. The great drawback to farming in the past has been the lack of knowledge with regard to methods of agriculture and the precaution on the part of the farmers to lay up money in good years for possible emergencies when crops fail.

The farmer who deposits his surplus money in a strong, safe bank can tide over a season of bad crops, when it comes. This bank issues Certificates of Deposit, yielding interest at the rate of Four Per Cent.

TAFT MAY NAME JUSTICE WHITE

Associate on Supreme Bench Being Considered for Chief Judge of Court.

New York, Oct. 20.—Associate Justice Edward D. White, of the Supreme Court of the United States, a Democrat, may be the next chief justice. President Taft, who has been making counsel from his advisers on this appointment, has been surprised at the unanimity with which business men, lawyers and friends have urged Justice White's fitness for the place. The executive now has a list of about fifty names of persons who have been suggested as Supreme Court calibre. He is collecting all available information about these "possibilities."

VANQUISHED FOR THIRD TIME

Is the Result For Chicago in World's Championship Series.

Chicago, Oct. 20.—Change of place had no effect in helping the Chicago Cubs win against the Athletics, for the Cubs went down to ignominious defeat today, being outplayed at every point. The boasted Cubs look cheap after today's game.

COAST LINE CASE IN SUPREME COURT

Question of Liability of Local Carriers For Damage on Connecting Lines Involved.

Washington, Oct. 20.—The question of the validity of the Carmack amendment to the Interstate Commerce law making local carriers responsible for shipments over connecting carriers on a through bill of lading, came up for argument yesterday in the supreme court of the United States in two cases.
One is that of the Atlantic Coast Line railway against the Riverside Mills, of Georgia, and the other that of the Louisville & Nashville railway against N. F. Scott.
In each case the railroads accepted shipments for distant points which were not reached by their own lines. Suits for damages were brought against them although in each case it was understood that the damages occurred on the line of the connecting carrier and not on the lines of the roads which were sued.
The roads held that the Carmack amendment making them liable was unconstitutional. The lower courts held against this view and the cases were brought to the supreme court on this point.
The question is of far-reaching importance both to the railroads and to shippers and is one of the striking features of the Hepburn act to regulate Interstate Commerce.

Mother Relieved by Boy's Rescue:

Washington, D. C., Oct. 20.—Almost a total wreck from three days and nights of anxiety and prayer, having gone almost entirely without sleep Mrs. Annie Aubert, mother of the nineteen-year-old Washington boy, who sailed with Wellman in the air ship 'America' declared yesterday that she cannot be comforted until she receives direct word from the lad.
"I am sure when the full details are known, it will be learned that my brave boy—young as he was—held up his head and his heart, and did his full share of work without flinching," she said, the fire of pride flashing through the tears in her eyes. But, oh, I must hear from him! Of all the messages I have received none has been signed by him. I will go to New York and if he is too exhausted to travel, I will see that he is taken directly from the ship to a hospital."
Fred B. Aubert, the youthful adventurer, is a friend and admirer of Miss Rebecca Wellman, daughter of Walter Wellman.

Dover Cedar Works Burned

Fire, about six o'clock Tuesday evening, completely destroyed the plant of the Dover Cedar Works, near Dover, entailing a loss of approximately \$2,000. The plant belonged to C. E. Johnson and Company, of Norfolk and Mr. Johnson was not there, hence it could not be learned whether there was any insurance to cover the damage. The mill has been manufacturing hard wood lumber, but had been shut down for several months. The watchman who was employed to stay at the plant had gone to Dover for his mail and, when he returned, found the mill in flames.—Kinston Free Press 20th.

Episcopal Convention.

Cincinnati, O., Oct. 19.—An amendment to the constitution of the Protestant Episcopal Church, calling for the establishment of missionary districts along racial lines, was voted down decisively by the House of Deputies at the triennial convention of that body yesterday. The negroes have long wanted a bishop of their own, but the vote was of such a character as to quiet any suggestions along this line that might be made in the near future. Rev. Joseph Dunn, of the Diocese of Southern Va., in speaking against the adoption of the amendment said:
"The emancipation of the negroes was a dire disaster, as the negro at that very time was in need of all the teachings and help that could be given to him by his white mother. They lost all of this and the church has 45 years of misguidance to undo."
"The negroes cannot grasp the idea of the church as yet. Their religion at the present time is mostly emotional, and I believe that the passage of this amendment would be fatal in regard to the negroes."
The House of Deputies passed the canon regarding missionary work, with the provision that the president of the board of missions be elected to a six year term instead of three, as at first proposed.
In the House of Bishops yesterday the provisions that give a clergyman latitude in marrying an innocent party to any divorcee was repealed. The canon now holds that divorced members of the church cannot marry.

Norfolk's Great Aviation Meet

Spectacular Flying Every Afternoon on the Exposition Grounds on Nov. 1, 2 and 3, in Which Some of the Most Noted of the Sky-Pilots Will Participate.

Under The Auspices of The Ledger-Dispatch

Merchandise Exposition Week Will Be Observed By the Merchants Offering Outside Trade the Great Shopping Opportunities of the Times—Thousands Will Flock to Norfolk to Take Advantage of the Unusual Offerings—The Fall Racing Season Begins on Same Day, With the Best Stables in the Country Represented.

Norfolk, Va., October 20.—The Ledger-Dispatch aviation meet, which will be held on the first three days of November, offers to the people of this section an opportunity to see the world's famous aviators perform their wonderful feats and gives to Norfolk the distinction of being the first Southern city to hold such a carnival.

Other cities of the South have had aeroplane flights. Single performers have exhibited at several of Dixie's largest cities.

But Norfolk will on the first day of November open the South's history of aviation meets, where more than one sky-pilot has a part to play.

Who Will Be Seen.

Glenn H. Curtiss, the speed king, among the aviators and the winner of the world's great aviation prize, will have a large share in the undertaking.

"Bud" Marx, the most hardy and sturdiest of them all, will do tricks with his biplane that will send shivers up and down the spine of timid spectators.

Willard MacCurdy and his crew will probably take part and other men whose reputations are equally well spread are being considered for an engagement.

Reserve Expected.

With such an aggregation of interest and talent, it is not surprising that competition between the great ones is being expected.

Features.

Mimic attacks on Fortress Monroe and the Norfolk Navy Yard will be undertaken.

Involved turns and dips will be made at the scene of the meet.

Quick rises and sharp descents will be practiced in competition.

The record for altitude will be assaulted.

Aviators will strive to make a new figure for quick descent.

Mars will glide from the clouds to the earth with motor motionless.

Curtiss will electrify the spectators with some announced feature that is sure to be a triumph.

Each of the participants is sure to accomplish some special feat of aerial daring.

The opportunity to witness these miracles of today is one that nobody can justly ignore.

Other Attractions.

This first week of November is an epoch for Norfolk. Realizing and appreciating the great enterprise of the Ledger-Dispatch, the merchants of Norfolk are going to do their share to make the city a magnet.

Merchandise Exposition.

The prominent merchants have decided to make their stores real show places. They have arranged for quantities of new goods and will display them for the benefit of visitors.

No one need feel called upon to buy.

This is an exposition.

It will not be a bargain week for sale of odds and ends. On the contrary, everything displayed will be the newest, finest, best the market affords—the season's most up-to-date offerings; and the prices will be as reasonable as the quality of goods will warrant.

Norfolk Women's Multifarious.

Atlantic City, Oct. 20.—The failure of the Wellman party to "make good" on his trip to Europe by balloon has by no means disheartened the promoters of the enterprise. Plans were made yesterday for a renewal of the attempt to cross the Atlantic in a balloon, but whether Wellman will head the party is not known as yet.

Only One Report of Crop Conditions During November.

Only one important crop report will be issued by the United States Department of Agriculture during November. It will be made public Wednesday, November 3, at 2:30 p. m. and will give the production and quality of corn, buckwheat, potatoes, tobacco and flax and the percentage of the 1909 crop on farms November 1. The average weight per measure bushel of wheat, and barley crops of this year and the production of apples expressed in percentage on a full crop.

THERE'S Only one way out of it. The world says unless you have "the goods" you are not it. It matters little what you make unless you save regularly and persistently. Therefore it is not wise to save money while you may and invest in something that is good and absolutely safe? By taking stock in the October Series of the NEW BERN BUILDING & LOAN ASSOCIATION (established 1886-22 years) which we now have on sale you not only lay the foundation for a snug sum, but become a factor in the town's uplift, as the money circulates freely and improves business conditions generally. At the end of seven years when the stock matures and you draw out \$100, \$500, or \$1000, to cost only \$24, \$250, or \$240, it comes so easy it's like picking money up out of the street. W. G.
