

The Prudent Farmer

THERE is a great deal being said throughout the country about the importance of farming as an occupation. The fact is, that the great mass of people are just beginning to understand the value of land and the independent position of the farmer. The great drawback to farming in the past has been the lack of knowledge with regard to methods of agriculture and the precaution on the part of the farmers to lay up money in good years for possible emergencies when crops fail.

The farmer who deposits his surplus money in a strong, safe bank can tide over a season of bad crops, when it comes. This bank issues Certificates of Deposit, yielding interest at the rate of Four Per Cent.

EXPRESS STRIKERS ARE DEFIANT

Will Remain Out Until the Union is Recognized.—Con. Jerome

New York, Nov. 5.—Striking employees of the express companies in New York after receiving assurances today from the State Board of Mediators that their grievances would be favorably listened to if they would forego their demand for recognition of the union, determined to stay out until the union is recognized. Their action was the one positive development of the day, elsewhere there were conferences among the labor leaders and between Mayor Gaynor and Francis S. Bangs, counsel for the Adams Express Company, and the vice-president of the Wallis Fargo Company, but no final word issued from any of them. The only action taken by the mayor was to uphold the city ordinance requiring that all express drivers must be licensed by the city—a requirement that bars the employment of strike-breakers.

"Glory Song Medley" at Tabernacle

At the Baptist Tabernacle church this (Sunday) evening the chorus will sing for the first time the "Glory Song Medley."

The reputation this choir has for making good music insures a large congregation to hear this, their first effort at rendering this song.

Services begin promptly at 7:30 and are concluded at 8:30.

The pastor, Rev. Allen G. Schuler, will preach on "Heaven and Hell" or "Old Fashioned Theology."

Oil War at Wilmington.

Wilmington, Nov. 5.—Some ten or fifteen years ago an independent oil Co. entered the local field, and it was but a short time until the Standard put the company out of business by cutting the price to a very low figure. No sooner was the other company out of the field than the price was raised and remained up until a few months ago when the Cape Fear Oil Company was organized. The Standard has again cut the price and will only be a matter of time before the independent company will be forced out of business.

Wilmington is not the only town in North Carolina that has had the opportunity during the past six months of seeing the methods resorted to by the Standard Oil Company to drive a competitor out of business, and not one word has been heard of the antitrust law passed by the last legislature being invoked.

Can Buy Fish Without License.

Early yesterday morning Mr. C. L. Fields, of LaGrange, who has been in the city all the week attending Federal Court, went down to the market dock and bought a barrel of fish from one of the fishing boats. The transaction was witnessed by one of the local fish dealers who did not think that he had a right to purchase the fish to resell without license and forthwith had Fields arrested. He was taken to the city hall, but after the matter had been investigated he was released from custody.

Savodine Remedy for Grip.

"SAVODINE in my opinion should be in every household. I have given it an impartial trial for several ailments for which it is recommended and without a single exception have received very prompt relief. In cases of Headache, Toothache or Difficult Breathing its effect is wonderful. I have had La Grippe a number of times, which has left me with heavy cough and sore throat, nasal and bronchial trouble. In these cases I get from SAVODINE a relief which nothing else has given me. I had a really excruciating case of La Grippe. Conscience troubled me, I moved it from the one and I believe will receive it from the other. Two great trials in the favor of this. I am glad to see and hear of those who have been cured by it."

MARRIES HER ROOM-MATE

Girl Who Posed as a Man Finds a Husband. Voice Betrayed Her.

Toledo, O., Nov. 5.—Miss Margaret Patrick, the 17-year-old girl arrested Tuesday afternoon after posing as a man in man's clothing for the last six months, became the wife yesterday of W. F. Collier, 22 years old, employed by the Bell Telephone Co., with whom she had roomed for the past month. The ceremony was performed in the police station.

Dressed as a boy and under the name of Robert Doyle, she obtained employment as a messenger by the Bell Telephone Company and later as a news-batcher on the Lake Shore.

The girl's voice and manner aroused suspicion of the baggage master, who quizzed her into confession. She said she could not find any desirable work for a girl.

What a Visitor Would See.

A traveler passing through this city on a Norfolk-Southern train would come to the conclusion that there was something moving in the metropolis of eastern North Carolina.

After passing through the railroad yards where he would see fifty cars undergoing repairs, he would view with surprise the long rows of red tiled railroad sheds with cement walks under construction, leading to the newly completed red brick Union station, and beyond on Queen street the Atlantic Coast Line passenger cover nearly completed. To the right would be seen the new brick St. Cyprian church edifice.

Looking from the car window to the east at Pollock he would see the piles of brick and broken ground for the new Blades theatre the happy home of Vandeville to be. On the west close by the residence of W. G. B. yd, Secretary of the Chamber of Commerce, nearly under cover.

Reaching South Front street he would see a large area being laid off for the new Trent river warehouse to replace the building recently destroyed, and looking ahead across Trent river, and alongside the railroad bridge would appear the huge structure being erected by the Va. Cer. Chemical Company, built on hundreds of piling and of massive timbers, with large wharfrage facilities.

All these buildings are or will be imposing and form part of the permanent and substantial improvement of the city. If any other town in the state can make a better exhibit at this time we do not know the place.

Hargett-Sabiston

Jacksonville, N. C., Nov. 4.—A wedding of more than local interest was solemnized Wednesday evening Nov. 2 at eight o'clock, when in a pretty and impressive ceremony by Rev. W. L. Cunningham Miss Lella May Sabiston, the accomplished daughter of Mr. and Mrs. H. W. Sabiston became the bride of Mr. Fred W. Hargett one of Jacksonville's most popular and prominent young business men.

The Sabiston home was attractively decorated with southern simplex autumn leaves palms and cut flowers. Promptly at the appointed hour the bridal party entered the north parlor where an improvised altar had been established and the bride and groom entered from the reception hall ushered by Messrs. John Warlick and Walter E. Sabiston. After the vows had been spoken, the wedding party to the strains of the recessional marched to the library where the bride and groom received the hearty congratulations and best wishes of a few choice friends who had assembled to witness the pretty ceremony fraught with so much interest to the young couple.

No artist could have painted a fairer picture than the bride dressed in white duchesse satin trimmed with imported pearls and point lace. She was radiant and in elegant simplicity which characterized her girlish nature, she was a graduate of St. Mary's College.

All the guests received was given them by Mr. and Mrs. F. W. Hargett, parents of the groom.

MILLION AND HALF FOR MISSION WORK

Board of Foreign Missions Projects Work For Year on Board Scale.

Baltimore, Md. Nov. 5.—The Board of Foreign Missions of the Methodist Episcopal Church, composed of many prominent bishops and other noted churchmen, which convened yesterday at East Baltimore Station church for the annual session, voted to expend \$1,150,000 for foreign missions next year. In addition to this appropriation it was agreed to use \$42,000 toward the elimination of the debt of \$98,610.67 contracted some years ago.

This appropriation is about the same that has been contributed for missions the last few years, as evidenced by the report of Rev. Dr. Homer Eaton, of New York, the treasurer of the board. The report showed that the receipts last year were \$1,166,794.90 and the disbursements \$1,088,827.53.

It states that in November, 1909, the treasury was in debt \$168,877.89, of which \$70,267.27 was paid within the year. Special gifts during the year were \$820,905.12 leaving a balance on hand of \$41,424.08.

It is expected that the usual assessment for foreign missions will be levied on all the churches.

Appropriations for the different mission fields and the special uses for which the money can be spent will occupy much of the time of the session.

While no official action has been taken, it seems certain that no new mission field will be opened by the board, and no special appropriations will be made. A spirit of conservatism, based on a determination to get out of debt and so remain, seems to prevail.

That this policy be adhered to was the suggestion of Bishop J. W. Bashford, of China, who addressed the delegates in the afternoon before leaving for the southern coast of Tibet. Bishop Bashford pointed out the needs of China and made many suggestions as to appropriations.

Postage Plans Explained

Washington, Nov. 5.—Postmaster General Hitchcock's plan of requiring the magazines to pay increased postage on their advertising pages sufficient to eliminate postal deficits and warrant, in the future, one cent postage on first class mail, was officially explained yesterday.

Postmaster General Hitchcock believes that in carrying on the administration's purpose to accomplish reasonable increases in the postage rates on certain kinds of second-class mail a distinction should be made between advertising and what is termed legitimate reading matter. He does favor under present conditions an increase in the rates of postage for carrying reading matter. Any increase thus applied he points out, will place a special burden on a large number of second-class publications such as educational and religious periodicals, that derive little or no profit from advertising. It is the circulation of this type of publications which aid so effectively in the educational and moral advancement of the people, that the government can best afford to encourage. For their publications and also for any other legitimate reading matter in periodical form, Hitchcock suggests a continuation of the present low postage rate of one cent a pound and recommends that the proposed increase in rate be applied only to magazine advertising matters.
