

## The Prudent Farmer

**T**HERE is a great deal being said throughout the country about the importance of farming as an occupation. The fact is, that the great mass of people are just beginning to understand the value of land and the independent position of the farmer. The great drawback to farming in the past has been the lack of knowledge with regard to methods of agriculture and the precaution on the part of the farmers to lay up money in good years for possible emergencies when crops fail.

The farmer who deposits his surplus money in a strong, safe bank can tide over a season of bad crops, when it comes. This bank issues Certificates of Deposit, yielding interest at the rate of Four Per Cent.

## HIGHER FREIGHT RATES UPHELD.

Interstate Commerce Commission Declares Sweeping Advances Are Justified.

Washington, Nov. 7.—Upholding the sweeping advances in rate of southern traffic, on many classes and commodities, as justified by the condition of the railroads and the need for improved facilities, the Interstate Commerce Commission Saturday in a divided decision dismissed the cases instituted by the Railroad Commission of Alabama and Georgia, and the A. F. Morgan Grain Company and others.

The decision may have an important bearing on other pending cases—the southwestern shippers' case which was heard by the Commission today and taken under advisement and the wholesale increases in rates by the railroads generally, now suspended by the Commission, pending investigation. Today's decision involves the Atlantic Coast Line, the L. and N. and other roads as defendants.

The advances involved were made August 1, 1908, and the majority opinion, written by Commissioner Cockrell, held that they were not found to be unjust, unreasonable, nor unduly discriminatory. The decision covered the advance generally Alabama, Georgia, Florida and the Carolinas, from Ohio and Mississippi river points. The majority opinion holds that both the adjustment of rates between Birmingham and Atlanta and the advances made August 1, 1908, were based on increasing taxation and in the prices of material and labor.

## ROOSEVELT WILL BE SUED

Judge Says he Will Sue as Soon as He Has Time After The Election.

New Haven, Conn., Nov. 7.—Judge Simon E. Baldwin, Democratic candidate for governor, said recently that he would sue Theodore Roosevelt for slander as soon as the present campaign is over. The threatened suit is an outcome of Roosevelt's attack on Judge Baldwin for the decision on the law in reference to compensation for injured workmen.

Judge Baldwin, who was formerly chief justice of the Supreme Court issued his statement of the intended suit through the Democratic State Central Committee. He doubts Col. Roosevelt's sincerity, if not his veracity, in saying that he (Roosevelt) was not correctly quoted in his recent Congress speech in which he was quoted as saying that Baldwin was "retrogressive." The Judge claims to have received a stenographic report of the address.

### 'A NERVOUS WRECK'

"My daughter is rapidly becoming a nervous wreck," said an anxious father to a friend who had seemed to be a druggist, "she has no appetite, is run-down, weak, takes no interest in anything, and we cannot find anything that helps her."

"Why don't you give her Vinal?" said the druggist. "It is not a secret nostrum, just a simple and delicious cod liver and iron tonic—and the best strength creator and general all round tonic we have ever sold in our store. Take a bottle home and try it. We'll return your money if it does not help her."

Within ten days the father came back for another bottle of Vinal, saying that he had never seen such a change in a girl in his life, and he felt sure she would be a more robust and healthy child to her normal condition."

Such cases as the above are constantly coming to our attention, and we are every day seeing nervous, debilitated, and weak persons in this vicinity, and every person suffering from chronic cough, cold, or bronchitis should try a bottle of Vinal on the same terms as above. ## GUARD SHOTS EXPRESS STRIKER

Mayor Gaynor's Effort at Conciliation Fails—Companies Defiant, Men Determined.

New York, Nov. 7.—The most serious rioting that has yet marked the strike of express drivers and helpers, culminating in the shooting of a strike by a guard on an Adams Express wagon, occurred Saturday evening as the climax to an abrupt termination of negotiations between the men and the company.

The situation is regarded as increasingly serious, with added possibility of a sympathetic walkout throughout the city of all teamsters and allied organizations.

Peter Roach a striking driver, was shot through the body during an attack by a mob on an Adams Express wagon at Broadway and Seventy-fifth streets. The riot was administered to him a drug store and he was hurried to hospital, where his condition was reported as critical.

John Perry, a guard on the wagon was arrested and, according to the police, admitted the shooting. He said he fired after he had been hit in the face by a stone hurled by Roach. When he saw the latter preparing to throw again he fired, Roach denied any part in the riot.

Officers took Perry from the wagon to a police station while holding the frenzied rioters at bay with revolvers.

The termination of negotiations was precipitated by a letter to Mayor Gaynor from the companies stating that the only condition upon which they would take back the strikers was by individual application. Re-employment in their old positions at former wages was promised "without discrimination against any of them because of having left the service."

The companies also agreed as soon as work is resumed to confer with their employes in an endeavor to effect a settlement of wages and hours.

### Church or Rock Pile.

Kansas City, Nov. 7.—"Break rock for one hundred days or go to church every Sunday for six months." This is the way William Volker, president of the board of public welfare, sentenced three boys after they had been convicted of throwing eggs at pedestrians. When the boys appeared in the municipal court two of them were fined \$50 each and the third \$25.

The last were arrested on October 31 on a charge of having thrown eggs at men who passed near their houses, and their parents refused to come to their aid.

After sentence had been passed upon them, all three attended church. In case they miss a service without a reasonable excuse they will be sent to jail.
