**JURY INTELLIGENCE.**

Juries have long been subjects for jokes, and not without reason, for while no more important public duty awaits any citizen, yet intelligence and the juror have more often been wide apart than any where near together, and still the juror stands for justice and the protection of the commonwealth.

The joke as to no person being capable of judging the minds of a petit jury, has for its point the mental dullness and incapacity of such twelve men. Why should such a selection be made, it might be asked, any one noting the proceedings in court can easily answer this question. And yet the jury system has for its basis the object in naming twelve men to secure men who are peers of the defendant, but too often the jury cannot be so held. Ignorance of all current events, particularly any knowledge of circumstances concerning the case before the court, make jurors specially eligible for selection.

But the day is practically past when men can be selected for jury duty because of their lack of intelligence, or ignorance of every day happenings. That a juror should get hold of a newspaper while serving has been held a most serious matter, but the following from an exchange is a most notable legal decision on the part of the Federal Court.

"The case of James H. Holt convicted of murder on a government reservation in the western district of Washington, was appealed on the ground that the jury was permitted to separate while the case was being tried, and that the members of the jury were allowed to read the newspapers. But the court held that the fact that the jury separated and read the newspapers was not sufficient grounds for justifying a new trial, and incidentally, said that the modern tendency was not to permit such technicalities to delay justice. It is especially fortunate that this decision was rendered by the Federal court, since the State courts more closely follow the Federal decisions than they do the State decisions. Hence it is reasonably certain that the decision will be accepted by the other courts, to the end that it will tend to lessen the evil which comes about from allowing such technicalities to delay or even thwart justice."

**DEAFNESS CANNOT BE CURED** by local applications, as they cannot reach the diseased portions of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by Catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

**A Lenoir Lady, After Two Weeks Grinding Labor, Feels Better Than Ever.**

Lenoir, N. C.—"I am not tired at all, and am stouter than I have ever been," writes Mrs. Kate Waters, of Lenoir, N. C., "although I have just finished a two weeks' wash. I lay my strength to Cardui, the woman's tonic. I have taken a lot of it and I can never praise it enough for what it has done for me. I can never thank you enough for the advice you gave me, to take Cardui, for since taking it I look so well and am stout as a mule."

You are urged to take Cardui, that gentle, vegetable tonic, for weak women. Its use will strengthen and build up your system, relieve or prevent headache, backache and the ailments of weak women. It will surely help you, as it has helped thousands of others, in the past 50 years.

**MISERY FROM STOMACH GOES**

No Indigestion, Heartburn, Gas or Dyspepsia Five Minutes After Taking a Little Diapepsin.

Every year regularly more than a million stomach sufferers in the United States, England and Canada take Pape's Diapepsin, and realize not only immediate, but lasting relief.

This harmless preparation will digest anything you eat and overcome a sour, gassy or out-of-order stomach five minutes afterwards.

If your meals don't fit comfortably, or what you eat lies like a lump of lead in your stomach, or if you have heartburn, that is a sign of Indigestion.

Get from your Pharmacist a 50 cent case of Pape's Diapepsin and take a dose just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, Nausea, Debilitating Headaches, Dizziness or Intestinal griping. This will all go, and besides there will be no sour food left in the stomach to poison your breath with nauseous odors.

Pape's Diapepsin is a certain cure for out-of-order stomachs, because it takes hold of your food and digests it just the same as if your stomach wasn't there.

Relief in five minutes from all stomach misery is waiting for you at any drug store.

These large 50 cent cases contain more than sufficient to thoroughly cure almost any case of Dyspepsia, Indigestion or any other stomach disorder.

**NOT SORRY FOR BLUNDER.**

"If my friends hadn't blundered in thinking I was a doomed victim of consumption, I might not be alive now," writes D. T. Sanders, of Harrodsburg, Ky.; "but for years they saw every attempt to cure a lung-racking cough fail. At last I read Dr. King's New Discovery. The effect was wonderful. It soon stopped the cough and I am now in better health than I have been for years. This wonderful life-saver is an unrivaled remedy for coughs, colds, influenza, grippe, asthma, croup, hemorrhages, whooping cough, weak lungs, 50c, 25c, 15c. Trial bottle free by all dealers."

See comb or honeycomb, the material of which the honey cells in the bee hive are composed, is a wax produced by a system of chemistry carried on in the "wax pockets" which are located in the abdomen of all working bees. It is a peculiar substance and is said to be analogous to the fat of higher animals. Originally it was supposed that this wax was taken up in an almost pure state from the flowers on the bees, but recent experiments carried on by the leading biologists and chemists of the leading nations

It isn't so difficult to strengthen a weak stomach if one goes at it correct. And this is true of the Heart and Kidneys. The old fashioned way of doing the stomach or stimulating the Heart or Kidneys is surely wrong. Dr. Shoop first pointed out the error. "Go to the weak and ailing nerves of these organs," said he. Each inside organ has its controlling or "inside nerve." When these nerves fail then these organs must surely fail. This vital truth is leading druggists everywhere to dispense and recommend Dr. Shoop's Restorative. A few days' rest will surely tell. Sold by Bradham Drug Company.

**SAVES AN IOWA MAN'S LIFE.**

The very grave seemed to yawn before Robert Madsen, of West Burlington, Iowa, when after seven weeks in the hospital, four of the best physicians gave him up. Then was shown to him the valuable curative power of Electric Bitters. For, after eight months of frightful suffering from liver trouble and yellow jaundice, getting no help from other remedies or doctors, five bottles of this matchless medicine completely cured him. Its positively guaranteed for Stomach, Liver or Kidney troubles and never disappoints. Only 50c. at all druggists.

**Speaker and Speaker.**

There is a tale to the effect that while Hon. Thomas Brackett Reed wielded the gavel in congress a gentleman took his little boy to the gallery of the house of representatives, looking down upon the more numerous branch of the federal legislature the child said: "Father, who is that large man sitting in the pulpit with a mallet in his hand?"  
 "He, my son," replied the fond parent, "is the house of representatives."  
 "And who are those other men sitting in semicircles around him?" inquired the tiny chap.  
 "They are the speakers of the house of representatives," answered paternal benediction.

**Her First Poem.**  
 She was one of those soft eyed maidens, sweetly innocent, shy and gentle. She was unaccustomed to newspaper offices, but, being ambitious, she managed to find enough courage to try winning an editor's sympathy, sympathetically to be expressed by the acceptance of her poem.  
 "I have here," she said demurely, "a little verse I've composed. I really don't know what you'll think of it. You may not like it at all, but it's my first—that is, the first I've ever written for a newspaper—and I'd be very pleased indeed if you honestly thought it was good."  
 The editor kept at his work, now and then scowling, but not at the young woman especially.  
 "It's about a maiden tripping o'er the ice," she continued.  
 "What was the trouble?" asked the man behind the paper. "Couldn't she sit on her feet?"—Philadelphia Times.
