PRESIDENT MAY ASK FOR MONEY

With Which to Build Airships. Strongly Impressed by Them.

Washington, Nov. 25.—Reference to the aviation experiments in the navy will undoubtedly be made in the President's annual message to Congress.

How strongly President Taft will urge appropriation by Congress for further activities in this direction is not known. But navy officers, who are interested in the topic, have hopes that he will ask for a generous provision of money for the purchase of aeroplanes for further experiments.

A report upon the recent flight made by Aviator Eugene B. Ely, from the deck of the cruiser Birmingham, at Hampton Roads will be included in the report of the Secretary of the Navy, Captain Chambers, who was in charge of the test flight from the Birmingham prepared at the request of Secretary Meyer. This will be placed before the President within a few days, and it is expected that he will stamp the experiment with his approval by including the subject in his message, now under preparation.

His Graft Nipped By Officers

To illustrate the baseness of some of the beggars that infest this city it would doubtless be well to cite an incident that occurred during the session of police court yesterday afternoon. There are doubtless many people in this city who have recently been called upon by a young white man who goes by the name of Robert Jones and who claims to be soliciting money in order to obtain food for some sick relatives. Yesterday afternoon Jones visited the police court for the purpose of seeing what disposition the Mayor would make of the Thanksgiving Day celebrators who had been caught in the net of the law. During the time that he was in the court room he acted in a very disorderly manner and the Mayor finally ordered one of the officers to place him in one of the cells until after the session had been concluded. It is the custom of the officers to always search prisoners before placing them in confinement. Jones objected to this procedure very much but the officers performed their duty nevertheless. After all of the numerous pockets which his apparel contained had been emptied of their contents it was found that he had \$31.75 on his person. Still he claimed that he did not have money enough to purchase his supper.

Judge Clark Shows Big Decrease in North Carolina Crime.

Raleigh, N. C. Nov. 25.—In the opinion of Chief Justice Walter Clark, of the North Carolina Supreme Court, the new State-wide prohibition law has reduced general crime in this State 50 per cent. Others consider the figures conservative. The return for last year and this year, which have just been made up, prove the statement of the Chief Justice.

Murder in the first degree showed a decline of 32 per cent, in the two years; burglary, 20 per cent; attacks with deadly weapons, 30 per cent; larceny, 40 per cent; manslaughter, 35 per cent; murder in second degree, 21 per cent, and minor crimes from 22 to 55 per cent.

There has been a falling off of 15 per cent, in violation of the anti-liquor laws

Durno Pleases Large Audience

Durno, the mysterious, entertained a large audience at the opera house last night. His manner was pleasing and his entertaining talk was no small part of the program. His tricks of substitution were skillfully performed. Among them were the handkerchief trick, the egg trick, and the watch trick. His chief effort is his famous trunk trick. In this act he exchanges places with his assistants while the latter is confined in a locked trunk. This trick appeared marvelous to the audience, and it also appeared marvelous to the two well-known New Bernians who assisted in the act. The dialect part taken by Mr. Frank Sherman were very pleasing and were very cleverly executed, especially that of Josiah and Samathy.

MARK TWAIN ONCE SAID

"It is Spring Fever that causes the general unrest, lack of ambition and run-down condition which pervades the human system in the Spring of the year."

The sudden change from frigid to torrid weather occurs within a few weeks, especially in our northern states.

No wonder pulmonary troubles—pneumonia, spring fever, and all such ailments are almost universal.

If people in this vicinity only knew the value of Vinol, our delicious cod liver and iron tonic (without oil) at this season of the year, we would not be able to get enough to supply the demand.

Vinol tones up the digestive organs, purifies and enriches the blood, promotes healthful sleep and a normal appetite.

Old people, delicate children, run-down overworked and tired women, those suffering from bronchitis, chronic coughs and colds, all derive great benefit from its use.

Try a bottle of Vinol with the understanding that your money will be returned if it does not help you. P. M. Daily, Druggist, New Bern, N. C.

LARGE FRAUD IN WEIGHING MAIL

Postmaster General Orders Removal of Employes Through Investigation.

Washington, Nov. 25.—Postmaster General Hitchcock yesterday ordered the removal from the postoffice service of Edward F. Blodgett, superintendent of stations, and of James F. Norton and S. S. F. Giles, clerks, all in the Atlanta postoffice, as the result of gross irregularities in the weighing of newspaper mail.

The order filed an investigation of the Atlanta office into irregularities which the postoffice department declares covered a series of years and resulted in the loss of many thousands of dollars to the department. The department announced in connection with this order that a general investigation of the methods of weighing second class mail throughout the country is now being conducted by inspectors with the idea of detecting and bringing to an end such irregularities as those disclosed at Atlanta.

Because of inefficiency in the discharge of his duties, the superintendent of the railway mail service at Atlanta, Y. M. Terrell, who failed to take the precautionary measures required by the postal regulations to prevent certain of the irregularities, was transferred by the postmaster-general's order from his position of responsibility to a minor place in the service.

Failed to Show in New Bern

Alleging that the aggregation failed to fill an engagement in New Bern thereby causing him to sustain a loss of \$150, Mr. L. J. Taylor, manager of the opera house there, brought attachment proceeding before Justice J. M. Hines, in New Bern, against John W. Vogel, manager of the minstrels appearing at the Academy of Music in this city last night, and the papers were sent here yesterday and served last night by Constable Savage. The papers were served shortly after the curtain went up, the officer levying on money at the box office. A garnishee and attachment were served on Mr. Walter Penny, agent of Mr. S. A. Schloss, lessee of the Academy of Music, and a garnishee was also served on Mr. Schloss. The plaintiff in the action, Mr. Taylor, was represented by Kellum & Loughin, of this city, and later in the night there was a satisfactory adjustment of the matter and the funds levied upon were released by the constable.—Wilmington Star.
