New Bern, N. C.

# To Farmers of Craven and Adjoining Counties.

This year is the farmers' own. We rejoice with you.

A wise farmer seeks the best MARKET for his products. New Bern is paying more for farm products today than any town in Eastern North Carolina and the New Bern STORES are overflowing with well selected and a tractive goods that may be bought at very low prices.

Now as a business proposition, if Cotton, Seed Cotton and other farm products are selling high in New Bern and the New Bern Stores are selling reliable goods cheaply, will it not pay the farmer to trade in New Bern?

A Cordial Welcome and a Square Deal Awaits You.

### BOOKS NEED CLEANING.

How to Care For Libraries So Volumes Will Be Preserved,

Books are frequently rulned through carelessness. This is less in the handling often than upon the shelves. Many a reader who would scorn to bend a book back when open will put it to worse strain on the shelves.

Books should not be packed tightly on a shelf. It rulns the backs and causes them to tear loose with the strain of putting in and pulling out. Often it forces the leaves to sag to the shelf when pushed unduly.

It is just as bad for books to be too loose on a shelf, as they warp and the spreading leaves encourage dust. A bookcase with the contents at every angle is not a pleasing sight.

There are some housekeepers who think a yearly dusting of books at housecleaning time sufficient. This is had enough when they are kept under giass; when on open shelves it means ruin to valuable books. It takes little prospects? longer to dust the backs and tops of books on each shelf every day. Use a soft cheesecloth or sink duster and shake it frequently

Many variable books are rufned at housecleaning time. This should be twice a year and is not a burden if systematically done a shelf at a time. The old plan of hearing the contents

book. If it has been wet absorb moof the moisture with a blotter and soft cloth, then dry under pressure to prevent warpier.

Forbid young people to handle books until they know how to protect them. It is well to use covers to protect a book when held by grimy young hands. These can now be bought in different sizes to fit almost any book and can be used repeatedly.
