Spelling tests were given in all the grades on Friday. These will be corrected and grades then sent home to the parents. Summaries will also be made of the results in each grade and from these comparison will be made of the work being done in each grade.

The Primary Grade are drawing boats this week. Mrs. Reid inspector for the Webb & Ware drawing system has asked that this work be done for her inspection. No help is given the pupils but they are asked to draw their idea of a boat.

Arrangements have been made with Dr. Ferrell by which every pupil in school, who cares to do so, may be examined for hookworm. As soon as some details can be made the work will be done. Thief Caught; Money Found.

Suspected, captured and threatened with lynching, Norman Brown, colored who worked in the woods with the Goldsboro Lumber Company, confessed to robbing Mrs. Bettie Watson's shanty of nearly \$4,000 Monday night, and directed the men where he had hid the money. Following Brown, the men went five miles from the camp and dug the cash up from where it was buried by Brown. Every cent of it was recovered, \$8,905 in all, belonging to parties who had given the money to Mrs. Watson for safekeeping. She had hid it between the bed tick in her bed, and the negro slipped there while the white people were at supper and stole it.

The camp was moving from Pink Hill this county, where it was located when the robbery occurred. Brown was given a hearing there today and sent up to court.—Kinston Free Press.

TWO SUPREME COURT APPOINTEES

To Be Named This Week By President. Southern Judge Likely.

Washington, Dec. 10.—From the following list of eight men, President Taft early next week will announce his two appointees to the Supreme Court of the United States:

Justice Swayne, of the Supreme Court of New Jersey.

Judge Lamar, formerly chief justice of the Supreme Court of Georgia.

Chief Justice Winslow, of the Supreme Court of Wisconsin.

Senator George Sutherland of Utah.

This was the authoritative statement made by one who is in close touch with the President. The eight names are those which have been picked from a list of 400 candidates. It is said to be more probable than ever that Associate Justice Hughes will be made Chief Justice.

In that case the President will be likely to appoint two of the men mentioned as associate justices.

Judge Lamar has the backing of the Southeastern Democrats and Judge Russell, only recently elevated from a seat in the House of Representatives, is endorsed by the middle Southern Democrats. It is likely that the President will pick a Democrat to fill one of the vacancies on the bench, and one of these two men it was believed today would probably be the appointee.

It is known that Senator Briflow, of Kansas, and other progressives in the Senate would bitterly oppose Pollock, and as his home is in Bristol's State, it is not thought likely that he will be chosen. The progressives also would oppose the confirmation of Sutherland.

VOICE OF THE PEOPLE

PROHIBITION AND PERSONAL LIBERTY.

Mr. Editor:—I have noticed that the fellows that do the loudest blowing about the failure of prohibition are those who are directly interested in the sale of liquors, the makers, the salesmen, and the poor fools that drink the rotten grain juice.

Of the salesmen, probably the most noticeable ones are those publishers who solicit sales for out of town firms by means of advertisements in their papers. They are often the most shameless, too, reminding the public of their share in the debauchery by calling attention in their editorial columns to the great number of "dead soldiers" brought into their communities through their efforts.

Assisting the above mentioned gentlemen are a few pitiable creatures who being unable to think, and form opinions for themselves, are ever ready to repeat, parrot-like, the sentences put into their mouths by their sharper brothers. This latter class, by the way, usually do this work for nothing and board themselves. The poor fellows seem to like to say over words, even if they cannot express a respectable idea. They imagine that they are talking. All of them seem to lack intelligence enough to see that every assertion of law failure is also an assertion that the officials are either too cowardly to enforce law, or are too dishonest to do it.

They are "knockers" of the worst kind.

They all dodge the important fact that every criminal law on the statute books is a prohibition law, and interferes with the personal liberty of some one. They ignore the fact that personal liberty does not exist in any civilized community; that when any person enters the community, either by birth or migration, he must surrender to the State all personal liberty, receiving back from the State such privileges as the State believes he will use for his own good and that of his fellows. The State also reserves the right to withdraw from him any or all of these privileges if he uses them to the detriment of himself or his fellow men.
