ARMY TO BE REDUCED

Committee on Military Affairs Meets Today to Work on Army Appropriation

Washington, Jan. 5.—The military affairs committee of the House will meet today to finish work upon the appropriation bill carrying funds for the support of the army. Members of the committee believe that the War Department's estimate of \$700,000 for new field artillery in the United States will be considerably reduced.

The bill will be ready for the House shortly after Congress re-convenes. The House has already passed the urgency deficiency bill, which has become a law, the Indian appropriation bill now before the Senate and the pension appropriation bill now before the Senate committee on pensions. The bill appropriating money for the legislative, executive and judicial branches of the government is before the House and will be taken up again today.

VOICE OF THE PEOPLE.

CONGRATULATIONS.

Editor The Journal: The proceedings of the last meeting of the board of aldermen show that the city is to be congratulated on having one member that is a MAN, and is not in sympathy with or afraid of the "blind tigers" and their friends. All honor to the one who shows that he is not a coward nor an anarchist. Such exhibitions of Christian manhood seem to be exceedingly rare.

One who admires a MAN.

Creators and His Band - Masonic Opera House Wednesday Jan. 25th.

A rare treat is promised the music lovers of New Bern in the event of the appearance here of Creators and his band. Signor Creator and his artistic organization are meeting with their usual overwhelming success while on tour, and the band is being received with more enthusiasm than ever. The tour of New England will be a short one, only the principal cities being visited. A program of exceptional merit will be rendered here on Jan. 25. Don't fail to see Creator and hear his wonderful band.

Mr. J. Leon Williams has secured Creators, the famous Italian bandmaster with his organization of over fifty musicians, composing one of the really great bands of the world. The band will be heard on Jan. 25th when a program of unprecedented excellence will be rendered. Prudent patrons will do well to secure their seats in advance.

The news that Creators is coming here shortly with the band that has won international fame will be welcome news to the many admirers of the famous bandmaster and his men. The great band is at its best now and Creators has so replenished his library at the foreign publishers that he is prepared to offer programs on this tour fairly replete with novelties.

There is probably no bandmaster in the world who stands in the limelight more than Signor Giuseppe Creators. A glance at his program shows that he undertakes such an evening's work as no other conductor would dare attempt. Creators stands unique—alone—his band is up to a high standard full of richness of color and power, while the playing is full of expressiveness and point. In his conducting his work may appear to be spectacular. The most effects are produced. First he is pleasing with his men, then threatening, then urging, then almost praying, then pouring in emphatic weights. When at the climax, the audience is almost breathless, then a gasp, then thundering applause. Those in search of a new sensation may well be recommended not only to hear Creators' band but to see how he conducts it. The organization plays here on the 25th of January.

MRS. EDDY'S CHAIR AWAITS

Return of Christian Science Leader. Manifestation Watched For by Students.

New York, Jan. 5.—Students of Mrs. Augusta E. Stetson, the proclaimed Christian Scientist, who has announced her belief that Mrs. Mary Baker Eddy will soon return from the grave and give a "manifestation" that will startle the world, are daily expecting Mrs. Stetson to announce that she has seen and talked with Mrs. Eddy.

At the Stetson home, on West Ninety-sixth street next door to the First Church of Christ, Scientist, which Mrs. Stetson built seven years ago, is a vacant chair, reserved for the appearance of Mrs. Eddy. In this chair, students of Mrs. Stetson say, Mrs. Eddy's spiritual body has already rested on several occasions, though that was several months before her death and while the Mother of Christian Science was in retirement at her home in Brookline.

According to the testimony of several of Mrs. Stetson's students in Boston last year, while she was on trial for heresy, meetings presided over by Mrs. Stetson were held in an upper room of West Ninety-sixth Street, at which all present fixed their thoughts on the empty chair and exerted a thought force which was supposed to compel Mrs. Eddy to project her spiritual being through space to the empty chair. These students also told "of mental" visits of Mrs. Eddy to the Stetson home.

Mrs. Eddy's last visit to the Stetson home was many months ago, but the same chair is still ready, and those who believe as Mrs. Stetson does say that within a week they expect either to see Mrs. Eddy themselves or learn from Mrs. Stetson that the latter has seen and conversed with the late high priestess of Christian Science.

For the last few days many of Mrs. Stetson's students out of town have been coming here, firm in the belief that they too, will be able to witness the "manifestation" or "resurrection" of Mrs. Eddy.

Captivated, Captured and Carried Away.

A beautiful marriage took place at Wood Grove church Jan. 4th, at 4 p. m. The contracting parties were Mr. Quinton G. Southard of Wallace, N. C. and Miss Annie B. Perry of the vicinity. The ceremony was conducted by Rev. J. M. Wright.

The contracting parties left immediately, taking the evening train for a bridal tour.

COAL FACTS.

In looks all coal is alike—black, rough sparkling. But there the likeness ends. For some coal burns unevenly, throws off little heat and makes much dirt. Our coal has proven best by test. It burns with a hot, steady flame to a white ash and is most economical. We solicit your patronage on quality alone.
