

## A SAVINGS ACCOUNT

It is well known that a person in poor physical condition is more subject to attacks of disease than a person who is strong. It is just as true that a person who is in poor circumstances financially, is more liable to misfortune than one who is protected by some ready money in the bank. A savings account is the best means of strengthening yourself financially. Open an account at once. This bank accepts deposits of one dollar or more and interest is paid at the rate of 4 per cent per annum.

Prospects For Completing Needed Legislation Not Good Queer Political Line Up.

Washington, Jan. 18.—With another kink tied in the House rules, and two more days a month taken away from general legislative business, the House leaders admitted that they will have hard work disposing of the routine work before the end of the session on March 4th. The possibility of an extra session, immediately after the new Democratic Congress comes in, looms up very large.

Representative Tawney, chairman of the House Appropriations, after summing up the work yet to be done on the regular appropriations bill, declared that these measures would demand at least twenty-eight or thirty more general legislative days. In the last two weeks the House spent two days in fighting over the rules, and there are now only eighteen days left on which the appropriation bills can be considered. Either a series of night sessions or an extra session seems imperative.

In addition to the pressure of time the House is involved in the queerest line-up of parties that has marked this checkered Congress. Insurgents joined the Democrats in overruling Speaker Cannon. But a week ago the insurgents refused to join the Democrats on a similar proposition. The Democrats seem to be in a position to control the House, almost absolutely as they will after March the 4th.

One result of the tangled situation predicted by some leaders is that President Taft will secure no tariff commission legislation of consequence, and that the administration legislative program will be lost in the wild scramble to clean up routine business.

South Carolina Mill To Urge Curtailment.

Spartanburg, S. C., Jan. 18.—Members of the Cotton Manufacturers' Association of South Carolina will, it is said, be advised by the executive committee radically to curtail the output of their mills when the association meet here today in response to a call of the committee. The last previous meeting of the association was held in June of last year, at which time it was recommended that the mills shut down for a certain number of weeks in the autumn.

This recommendation was generally complied with, but it is said the situation has become worse and it is felt that still more drastic action is required to decrease the production.

About 75 members are expected to attend the meeting, which will be held in the rooms of the chamber of commerce. A luncheon at the Spartan City Club will follow the business session.

VERGE OF  
A REVOLT

Economy Policy of Postmaster General Stirs Railroad Mail Clerks.

Washington, Jan. 18.—That the economy policy of Postmaster General Hitchcock has crippled the railway mail service to such an extent that the clerks are on the verge of a revolt in all parts of the country, and that the matter will be taken before Congress is the declaration of a representative of the railway mail clerks. Aside from the strenuous and dangerous nature of their duties the railway mail clerks are compelled to do much studying and memorizing routes and schemes for distribution. Heretofore the orders permitted them the necessary time to study. The clerks were given a week for rest alternately. The recent order by Hitchcock requires all clerks to make an average of six and a half hours daily active duty.

A Real King Is Refused Admission to America.

New York, Jan. 18th.—For the first time perhaps in the history of the United States, a king of a nation with which this country is at peace was deported yesterday as an undesirable alien. The board of special inquiry on Ellis Island wouldn't let in Petru Luca, one of the many "kings" of the gypsies, and he went back today with his wife, his step-son and his adopted daughter-in-law by the same ship he came over in.

King Petru, who speaks English fluently, confessed that he had formerly lived in this country, but quarreled with his wife, left her, went back to Bosnia, and there bought a new wife for \$110 and a fat pig. Because of these liberal views concerning matrimony he was deported.

Mr. Robert Hancock manager of the Amuzu moving picture place, will be the manager of the Liberty. The theatre will have its own lighting, heating and refrigerating plants. The house will be brilliantly lighted inside and out. A retiring room for ladies and a smoking room for men will be furnished. A balcony will be installed for colored people.

From One of New Bern's Best Known People.

Having used Savodine freely according to directions in my family, I consider it the best remedy I have ever tried for bruises, for cold in the head, throat and chest, for rheumatism, for sciatica, neuralgia and catarrh. After a two year's test I recommend "Savodine" to all who suffer from any of the above complaints.
