PUTILL PAPER OF NEW BERN AND CRAVEN COUNTY.

New Bern, N. C. Jan., 26, 1911

THE SPIRIT OF LAW OBSER-VANOR.

Before the present legislature there are bills seeking to make impossible the sale of near beer in many places in this State. The prohibition vote in North Caroli ne, sufficient in its majority it would seem to fully determine the issue of the sale of any kind of alcoholic drink, like other issues voted upon to settle other public matters, did not suffice to down liquor traffic; not to mention li quor drinking.

New Bern voted for prohibition before the State voted, and with the State wide issue, again voted for prohibition. Here as in other places, the insidious near beer worked an entrance. It needs no definition as to what near beer is. What it is not, yet seeks entrance under the pretence of law observance, is its dangerous effect. If near beer could be just and honestly what its label stands for, it should not be given a liceuse, if there is any meaning to the vote cast for State wide prohibition, for near beer is the intent to satisfy the thirst of the regular liquor drinker, to offer the opportunity of drinking to those inclined.

In a presumably respectable way, the near beer saloon is offer ed as the substitute for the old time saloon, the groggery, the dive and the grocery store with its bar in the rear. The near beer sa loon is simply the attempt to retail alcoholic drinks without ar rest, and with the government placard nailed upon the wall as authority to deceive and delude the public authorities where such places are tolorated. It is for every individual, every citizen, evspirit of every law to its fullest, for if this be not done, there is certain to be law violations, and as one law is violated, is not fully sustained by public opinion, municipal authority and action, so must other laws be weakened in their enforcement. State prohibis their enforcement. State prohibis and affects of overeating or drinking tion means just what it was voted to be, what every hone-t voter was ach distres.

Vomiting or pragnacy, or any atom meant it to be when his vote was cast. Near beer sales, near beer licence granting is a violation of the State prohibition law as voted the State prohibition law as voted to cents a large box. and intended.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and sesisting pature in doing its work. The proprietors have so much faith in its carative powers that they offer one bundred dollars for any case that it fails to cure.

"Beautiful as a Dachshund." It is in the drawing rooms of the German diplomats and their triends that you meet occasionally the long bair-ed, aesthetic masculine beings whom you have perhaps noticed skating in the Tiergarten, with their long coats dapping in the breeze, or hunched over a journal at Bauer's-artists and writers whose names every one knows, and there are dozens of young army offi-cers, their cheeks scarred with the wounds, of many duels. They talk Wagner and Schopenhauer with seri-ous appreciation, and in the midst of the walts as they are spinning fraulein giddly around and around like an animated top you may overhear them whispering in her ear, "You are as beautiful as a dachshund."
