AROUSES ENGLAND'S FEARS

London Newspapers Comment Vigorously on Champ Clark's Utterance.

London, Feb. 16.—England is aroused over the fear of ultimately losing Canada in case the American-Canadian reciprocity agreement is ratified.

The press is particularly disturbed because of the statement made by Speaker-Elect Champ Clark in House that he had no doubt that the time would soon come when England would gladly look forward to the turning over of her possessions in North America to the United States. The conservative press in exhibiting the nearest approach to "America-phobia" that it has ever displayed, and even the papers friendly to reciprocity are censuring Clark for his so-called indiscretion.

The Westminster Gazette, which has led the fight for reciprocity, says:

"Clark must be singularly innocent, if desiring this consummation he imagines it will be promoted by such a frank avowal at the present moment. But he will probably get the right kind of measure, despite his utterance."

"The speech will surely make Canada pause before assenting to the tariff agreement," the Globe Anti-American declares.

The Times says that if its correspondent is right in stating that it is doubtful whether the American people take the annexation talk seriously, "the Americans show their good sense."

The Pall Mall Gazette asserts that "Englishmen cannot much longer be blind to the fact that preference signifies union and Cobdenism, and that reciprocity is a long step in this direction."

An appeal to the English people to "save the empire" is sounded by the Morning Post. It declares that there is no longer any attempt in America to conceal the ultimate aim of annexing Canada.

Charged With Misrepresentation.

In the police court yesterday afternoon Elias Green, the negro man who was arrested at Bridgeton last Wednesday night as being a suspicious character, was given a hearing on a warrant charging him with misrepresentation, he having searched a house in the western part of the city under the guise of a revenue officer and also an agent with a deadly weapon. Probable cause was found in both cases and he was bound over to the next term of Superior Court under a bond of \$500 in default of which he was committed to jail.

NOTICE.

To the tax payers of the town of Bridgeton. You are aware of the fact that your taxes for the year 1910 are now due, to those who will not pay the same for the year 1910, we are in possession of the same and will be glad to receive the same and will be glad to receive the same and will be glad to receive the same.

THE 17 YEAR LOCUSTS REAPPEAR

Thousands of Grubs Near Nyack. Last Visitation Worked Great Havoc.

New York, Feb. 16.—The 17 year locusts which are due to return to plague the American farmer this summer, after being absent since 1894, have made their appearance in the vicinity of New York city, Curator Dittmars of the N. Y. Zoological Society, has discovered the first grubs, several thousand in number, in an excavation near Nyack, N. Y. By the time the frost is out of the ground these thousands will be millions, he says.

During the last previous visitation the locusts literally covered suburban New York, stripping trees, bushes, hedges, lawns and truck farms of everything green, and then moving in vast clouds which obscured the sun, to fresh fields. The individual locusts lived only a few days, but each female in that time found time to lay about 500 eggs on the branches of denuded trees. When the larvae hatched they fell to the ground and burrowed straight down for more than a foot.

There, it is said, they have rested for 17 years before the process of hatching was complete, and as soon as the frost leaves the ground they will dig their way to the surface and appear as small oblong shells. The grubs found in the excavation at Nyack are said to be completely formed and ready to come to the surface as soon as the earth warms up.

Chinatown will welcome the visitation. The Chinese cook makes them into pies, roasts them as a salad, and dresses them in many mysterious ways and even New Yorkers have found some of these dishes palatable.

Cobbers Was Tortured.

New York, Feb. 16.—Tortured by fire was resorted to by burglars who broke into the rooms of Joseph Wisnack, a cobbler, in Williamsburg, today in their determination to make him reveal the hiding place of his pitifully small hoard of savings. It was not until the two relentless men had burned off Wisnack's beard and hair and had blistered his neck with match flames that the plucky little man revealed this his small store of \$12 was hidden in the mattress on which his torturers had him pinned down. At the hospital where the sufferer had his painful, but not fatal burns dressed, he identified two young men whom the police arrested as the pair who had tortured and robbed him. They were held for the grand jury.

Well Equipped Manufacturing Plant Doing an Increasing Business.

The annual meeting of the Tolson Lumber and Manfg. Company, was held at the company's office, last night and the following officers were elected for the coming year: H. W. Simoon, President, J. L. Tolson, -V. President, F. H. Aberly-Treas., and L. C. Tolson, Secy. and Mangr.

These people have a fully equipped plant for manufacturing all interior and exterior trimmings for building, flooring, ceiling, partition, siding and etc. In their wood-working departments they are getting out all kinds of special work pertaining in the different parts of a building, such as doors, stove fronts, mantels, window casings, plumb blocks, sash and trim, etc. In fact every imaginable shape of turned work. They have a large stock of stock water-laid in their warehouses ready for immediate shipment. The management of this concern states that they are feeling very good about the year 1911.

PASSED AFTER TEN YEARS

Bill to Create Forest Reserves in the East Gets Through Congress.

Washington, Feb. 16th.—After many years of delay the bill looking to the creation of national forest reserves in the White Mountains and the Southern Appalachians passed the Senate, the vote standing 57 to 9.

The bill passed the house of Representatives last session, and as it was accepted by the Senate without change it lacks only the signature of the President to make it a law.

Senators Simmons, of North Carolina, and Newlands, of Nevada, spoke in support of the bill, and Senators Burton, of Ohio, and Hayburn, of Idaho, in opposition. The supporters of the measure resisted all efforts at amendment on the theory that any change would impair the bill in the house. They were successful.

In a short speech toward the close of the debate Senator Hayburn denounced the bill as a farce and as "the most radical piece of fancy legislation ever proposed to Congress." He declared that if seriously carried into effect it would cost more than the Panama Canal.

While it is understood on all sides that the purpose of the bill is the acquisition of lands in the White Mountains of New England and of the Appalachians in the Southern States for the creation of forest reserves, it contains no specific mention of such purpose. The authority for this proceeding is found in the general powers contained in the carrying into effect of the provisions of the bill is placed in the hands of a commission to be composed of the Secretary of War, the Secretary of the Interior, the Secretary of Agriculture, two Senators and two members of the House of Representatives.

The purchase of land is placed in the hands of the Secretary of Agriculture and is confined to such areas as may affect the head waters of navigable streams. No purchase is to be authorized until passed upon by the Geological Survey. The land once acquired, it is to be turned up into forest reserves as may seem best for administrative purposes.

Authority for co-operation with different states is given and \$2,000,000 a year is appropriated until 1915.

Papers Should Not Advertise Liquor.

The provision in Senator Ewert's bill prohibiting newspapers from publishing advertisements of liquors ought to be passed. The people of the State by a large majority have declared in favor of the prohibition of the liquor traffic, and the papers of the State should not be permitted to abet the violation of the law by advertising the goods.—High Point Enterprise.

Prices Paid For Cotton.

Washington, Feb. 16th.—American manufacturers paid an average price of 14.2 cents per pound for American upland cotton and 8.2 cents for lintseed during the year which ended August 31, 1910, according to the bureau of statistics of the Department of Agriculture. The average price per pound of other kinds of raw cotton consumed during the year were:

Georgia and Florida Sea Island 27.1 cents; South Carolina Sea Island 22.9 cents; Egyptian 20.5 cents; East Indian 16.9 cents; Peruvian 16 cents and Chinese 11.5 cents.

COAL FACTS:

In looks all coal is alike—black, rough sparkling. But there the likeness ends. For some coal burns unevenly, throws off little heat and makes much dirt. Our coal has proven best by test. It burns with a hot, steady flame to a white ash and is most economical.—We solicit your patronage on quality alone.
