How often do we hear people say, "He is lucky." This is one of the popular errors which has gained a considerable foothold. The lucky man is the man who works diligently and uses careful judgment in handling his money.

Extra Session Likely

Washington, Feb. 20.—An extra session of Congress looms very large and probable. Unless President Taft and the friends of the Canadian reciprocity agreement are able to bring more than ordinary pressure to bear upon the Senate and avert the expenditure of any time whatever by the opponents of the agreement—or friends either, for that matter—it is difficult to see how the Senate can reach a vote on the subject before adjournment two weeks from today.

May Prove to be Man Wanted

What may prove to be an important capture was made by officers Lupton yesterday morning when he arrested a negro man who gave his name as Arch in Southernland on suspicion that he was Claude Ferguson, who murdered three other negroes during a crap game several months ago at Laurens, S. C. A reward of \$100 was offered for the murderer after he escaped and as it was thought that he would probably come to this town to visit some of his relatives, the officers here have been keeping a sharp watch for him. He was placed in jail to await the arrival of an officer from that town, and if he is the man, officer Lupton will receive the reward.

A Wise Investment

Most people think of what a dollar will buy, but the prudent man or woman thinks of what a dollar will earn. It is the earning power of money that makes men rich. If you had to depend upon their personal earning power alone, there would be no millionaires. It has been well said that no man can earn a million dollars during his life time. But the man who earns a dollar and saves that dollar to work earning more money will be rich.
