Mr. E. V. Taylor, local manager of the Southern Express company received a telegram from the headquarters of that company yesterday morning telling him to refuse to accept all shipments of perishable goods for New York and Jersey City and to take all other shipments subject to delay. Don't forget the illustrated series of lectures by Rev. Cameron Johnson in the Presbyterian Church, March 25-28. It is a privilege to hear at first hand these lectures on Eastern countries so splendidly illustrated. This course of lectures has been enthusiastically received by growing congregations in Greensboro, Winston-Salem, Charlotte, Washington, and other towns in this State.

There are a great many theories explaining why there are so many millionaires in the United States, but it seems that the advertisement of the New Bern Banking and Trust Company tells the millionaires are the men who have made their money for them day in and day out. It makes no difference whether you have a small amount of money or a large amount, it should be earning interest.

LIVING AT HIGH TENSION

To overdo in order to keep up with the parade is the tendency of the age. Living at such a high tension, in any vocation that our nerve sanitariums and rest cures are filled with nervous, overworked, broken-down men and women.

When one begins to get into this condition, there is only one cure—a complete rest, together with a wholesome diet and a good blood-making tonic and strength creator. There is nothing in this line that can possibly excel the medicinal elements of the cod's liver combined with tonic iron. This simple combination is found in Vinol. It contains no oil or grease and agrees with everyone.

A well known college professor states that he considers Vinol a truly wonderful tonic and strength creator. He was himself overworked and run-down to a critical point. A friend asked him to try Vinol. He did so, and in a few days enjoyed perfect health, and its curative powers cannot be too strongly extolled.

Money talks, but what the "copper cents" may not be worth two cents.
