## AROUND ABOUT EAST-ER TIME

There is usually a great deal of new construction work going on, and of course a considerable quantity of pine lumber is required for flooring, ceiling, partitions, roofing, weatherboarding, mouldings, framing, curbs, etc. Our best yard is headquarters for this class of lumber. We cut, saw, season, and finish our own timber, and sell it from our yard. Everyone who has ever bought our pine lumber, rough or dressed, knows that this is the best lumber in the South. We give you the millwright's price and give you better grades with a larger assortment.

## SEN. SIMMONS INTERVIEWED

### Expresses His Opinion of the Payne-Aldrich Tariff to Journal Representative.

Senator Simmons, who has been spending the time between the sessions of Congress, at his home in this city and who will leave next Saturday for Washington to take up his duties at the extra session of Congress, said yesterday to a Journal representative:

"I am glad to see in today's papers that Mr. Underwood, our new Democratic Chairman, of the Ways and Means Committee, and Mr. Clark, speaker to be, have decided that there must be some real tariff legislation at the extra session of Congress. This is indeed good news. If the Democrats in Congress shall do something substantial and real during the extra session to revise that abomination of iniquity, the Payne-Aldrich bill, even should Taft veto it, and amend the Canadian reciprocity agreement so as to eliminate its protection features and remove its outrageous discriminations against the farmers in favor of the meat packing trust, the great roller mills and brewers—those of us who have stood against 'me tooing' Taft's policies and measures without dotting an I or crossing a T, and against delaying relief from oppressive tariff burdens to 'a more convenient season' will have been amply repaid for all the criticism and censure we have endured from those who, while hot and eager for the relief they demand for themselves, are willing that the people should wait for theirs until Spring comes again."

### The Successful Career.

of a young man or woman depends upon properly investing surplus earnings while possible to do so. Procrastination has caused the loss of millions, while money idly spent in youth creates want in old age.

There's a way out of all this. A few dollars invested monthly in the NEW BERN BUILDING & LOAN ASSOCIATION (est. 1888 and one of the best conducted associations in the country) is the desideratum.

Will you grasp the opportunity that lies before you, or sleep on while others take good? The April Series now on sale by the undersigned, for further particulars, call, address or phone.

### Improvements Being Made.

It is noticed that a number of improvements are being made on the campus surrounding the graded school. The new granite walk leading from the sidewalk to the building are to be laid. All of the curbing around the walks which lead from one building to another is to be removed and brick walks put down. The curbing which surrounds the grounds is also to be lowered several inches and the campus will be graded down. These improvements will greatly aid the appearance of this beautiful spot.

## MAGAZINES BY FAST FREIGHT

### Postmaster General Thinks New Plan a Solution of Pending Controversy.

Washington, March 28—After July magazines and other bulky periodicals will be transported in carloads as fast freight at freight rates in the third contract section of the country, comprising the States of Ohio, Indiana, Illinois, Michigan, Wisconsin, Iowa and Missouri.

"The plans I have decided upon," said Postmaster-General Hitchcock, are not proposed as a solution of the controversy over the suggested increase of second class mail rates on the advertising sections of magazines, but they probably will tend to bring about a solution of that question the more easily."

Distributing terminals have been established in Boston, New York, Philadelphia, Chicago, St. Louis, Omaha, St. Paul and Cincinnati. Arrangements will be made with the publishers for a finer separation in the publishing offices and for an earlier mailing of their matter, so that the slower method of transportation may not affect the regularity of promptness of its delivery.

"We expect," said Mr. Hitchcock, "to effect considerable economies, not only in the cost of transportation but also in the railway post-office car pay."

### Morehead City's New Hospital.

The Morehead City hospital will soon open for the reception of patients. It will be equipped in up-to-date style and have a modern operating room. A call bell system will be installed throughout the building, and every room lighted by electricity. Water is amply supplied for each room. The hospital will contain five private rooms and two large wards, providing accommodations for twenty patients, if necessary. A kitchen, dining room, linen closet, storage room and office are provided besides the operating room and sterilization room.—Morehead City Enterprise.

### Notice to Box Renters.

Bill (form 1588) is placed in your box to tell you that your box rent is due on the first day of the quarter, and to show you the amount of rent to be paid on or before the last day of the quarter. You will therefore bring your bill (form 1588) and have it receipted when you call to pay your rent. It is not a matter of discretion with me as to closing your box if the rent is not paid, but the government demands that I shall close them.

## DECISION OF PEACE WITH

### Rebel Leaders in Mexico. American Soldiers May Cross Border.

San Antonio, Tex., March 28—Upon a meeting to be held this week, possibly in San Antonio, but more likely in the mountains of Chihuahua, depends the fate of the republic of Mexico.

Alfonso and Julio Madero, brothers of the leader of the Mexican revolution are awaiting the arrival of Francisco Madero, Sr. and Gustavo Madero, preparatory to a family conference. The Maderos may hold that conference in San Antonio, but junta members believe they will go on to Chihuahua to meet the active leader. The father and sons are believed to have received from Senator De La Barra, former ambassador to the United States, but now named as minister of foreign affairs in Mexico, proposals from the Diaz government for peace.

The proposals, it is said, will be laid before Francisco Madero, Jr. If he accepts the rebels in the field will lay down their arms and intervention on the part of the United States will be rendered unnecessary. If he refuses, civil strife will be continued with a probability that the American army will cross the border on a mission of pacification.

While the peace negotiations are said to be on, reports reaching here from Mexico indicate that rebel activities are increasing and the American patrols along the border are ordered by General Duncan, commanding the department of Texas, to redouble their vigil to prevent the smuggling of arms across the Rio Grande. Major George O. Squirer, of the signal corps, has returned from a trip along the border and it is understood that Wright's planes and two Curtiss biplanes, manned by Lieutenants Beck and Walker, Kelly and Foulers will be ordered immediately to the border for regular patrol duty.

### Blast Cut all Her Masts off.

The schooner Mary S. Bradshaw, an old Norfolk trader, Captain Nottage commanding, which was a three-master when she sailed from New York for Norfolk the other day, with a cargo of fertilizer for the D. B. Martin Co., was towed in here today from Delaware Breakwater with a couple of stumps standing and her masts lying down on her deck.

She was struck by the late severe blow off this coast and the masts went by the board. She later made the Breakwater and was towed thence to Norfolk. It is said that she is not leaking and sustained no other damage than the loss of her three upstanding masts. She lies anchored between Norfolk and Portsmouth and having a queer look because of missing masts attracted much attention.—Norfolk Dispatch.
