Senator Simmons Introduces Measure For Increase in Salary of R. F. D. Carriers.

Washington, May 16.—Senator Simmons has introduced the following bill: That the Secretary of the Treasury be authorized and directed to pay out of what is known as the cotton fund, or any moneys in the treasury not otherwise appropriated, to the treasurer of each of the states from which said collections were made, an amount equal to the tax collected by the government of the United States from citizens of said state upon raw cotton, under the act of Congress approved July 1, 1892, and the acts supplementary and amendatory thereof, during the years 1895, 1898, 1897 and 1898, and that the amount so paid to any state shall be held in trust for the tax-payer or tax-payers or their legal representatives from whom said cotton tax was collected, and to be paid to the claimants upon such examination and finding as to their claim and title to such fund as may be provided and prescribed by the legislature of the State. That for the purpose of refunding to said states the amount of cotton tax paid by their citizens, respectively, the sum of \$65,000,000 is hereby appropriated, to be paid in annual installments, first installment to be paid January 1st after the passage of this act. That on and after the first day of July, 1911 letter carriers of the rural free delivery service, serving daily routes of 24 miles or more shall receive a salary of \$1,200 per annum, payable in equal monthly installments, and shall after twelve months' service be allowed an annual leave with pay not to exceed twenty days; the substitutes for carriers on vacation or inability of carriers to be paid during said service at the same rate paid to the rural letter carrier.

Winthrop Mills School.

Winthrop Mills, Craven County, May 16.—We have had school here every winter, but never have we had one so successfully taught.

The children have advanced rapidly, the whole mind, soul and body of our teacher being centered in her school room. She thoroughly understands her work and is a competent and eloquent teacher.

Mr. and Mrs. Piner treated the school to candy, the little ones came in, took their seats and their loving teacher waited on them, reminding us of a host of feasts. They have not lost their taste for confections, they ate heartily and then offered a vote of thanks to Mrs. Piner.

Our commencement on April 21st far surpassed anything ever held at Adams Creek, the school ground as well as the school room was well filled, every one was glad they went, it was enjoyed by all. The stage was beautifully decorated.

Mr. Ed Harper furnished lovely bouquets, we also had organ and vocal music.

Mr. John Simpson had charge of the exercises. We wish to thank him and other helpers hands.

Advances in life and other things were more effectively shown in this year. The whole program was a grand success, as the records were well kept.

A Scared Novice.

At the Shriner's banquet last week a Novice was down for a speech, that never was delivered because it was scared out of him. However, it is worthy of publication and the public will gain where the Shriners lost.

"On an occasion like this, when the recollection of the past is still lingering in the brain of a scared Novice, and the glaring uncertainty of the near future still hanging like a pall on the anticipation of tonight I am in no mood or demeanor to make a talk, but as it is decreed by the powers that be, I am your humble servant.

In the beginning God made the heavens and the earth and then he made the Shriners, the best people who ever trod the hot sands of any desert. Kings may sit on their thrones in august majesty; financiers may exult in their power over the common herd; seers and prophets may wield their influence over their flocks, but never was there bandied together such a lot of unworldly kings, princes among men, preachers and teachers in reality, than the Nobles of the Mystic Shrine.

This spread of plattery is not exuded from my cranium to court favor with you all, but on the contrary I am your most ardent and trusting in the charity of your hearts. I thank you for your attention, and in conclusion let me say: Though young in sight and short in vision, I await with patience your final decision.

Be it good or bad, I am your mutton. Though in taking degrees I am no glutton.

My heart is glad and my pulse is quick, And I'll climb your pole, be it ever so slick.

But if you can, on account of my weight Please give me a place on the easy state.

STANDARD OIL COMPANY LOSES

Supreme Court Orders Grant Corporation to Dissolve Within Six Months.

Washington May 16.—The government won its case in the Supreme Court of the United States against the Standard Oil Company of New Jersey, in that it is a conspiracy and a monopoly in restraint of trade. The decree of the lower court was affirmed, being modified in particulars which Chief Justice White said were very slight indeed.

The suit which called forth today's decision was instituted in 1906 in the United States Circuit court for the Eastern district of Missouri. It was brought in the name of the United States. The immediate object was to dissolve the Standard Oil Company, of New Jersey.

The Supreme court holds: That the Standard Oil company is a monopoly in restraint of trade. That this giant corporation must be dissolved within six months.

Corporations whose contracts are 'not reasonably restrictive of competition' are not affected.

Other great corporations whose acts may be called into question will be dealt with according to the merits of their particular cases.

The court was unanimous as to the main feature of the decision, Justice Harlan dissenting only as to a limitation of the application of the Sherman anti-trust law.

President Taft and cabinet will consider immediately the entire trust situation and the advisability of pressing for a federal incorporation act.

A decision in the tobacco case, which was expected simultaneously, was not announced today and may be handed down on May 29.

An Ideal Advantage.

It stands to reason that if the merchants of New Bern find it absolutely necessary to establish connections with a strong bank such as this, the farmers of Craven County would, to say at least, be greatly benefited by so doing. The day has come when the farmer, as well as the business man, to be successful must be systematic in handling money and the desired results can be brought about in no better way than by opening an account with this bank and making use of its unexcelled facilities.
