DEFY STORM TO WIN THE PRIZE

Aviators Battle Against Great Odds to Win \$100,000 Prize.

Nice, France, May 30th.—Bad weather and mishaps are overtaking the aviators who are contesting in the 1,800 mile race from Nice to Tunis, the prizes of which will total \$100,000.

A storm is now raging in Italy, and telegrams have been received from the Petit Parisien, which is promoting the race, ordering the aviators to wait at Nice for better conditions.

Garros and Esnault-Lanier, who led in the first day of the race, arose at Avignon, 463 miles from the starting point, at 5:30 and 3:56 o'clock this m., respectively, despite a heavy rain. Garros fell when near Pomas and injured his machine, escaping injury himself.

Cescaux was forced to descend at Brignoles to repair his motor. Mollas's machine suffered a broken wing a short distance from Avignon. Fred. Kimmeling and Vidart were all reported as flying toward Nice under the most adverse conditions.

Nothing has been heard from Henry Weymann, the only American entrant, who was forced to alight at Troyes by engine trouble.

TOBACCO CO. BAD TRUST

Supreme Court Decides That Tobacco Trust Is in the Bad Class Must Disintegrate.

Washington, May 30.—The government won a sweeping victory over the so-called "Tobacco Trust" when the Supreme Court of the United States held the American Tobacco Company and its allied corporation to be operating in violation of the Sherman anti-trust law.

The tobacco trust decision is characterized by Attorney General Wickham as a "most comprehensive and sweeping victory for the government."

The trust is held to be a combination in restraint of trade—a monopoly in violation of law.

The decision affects 65 American corporations, two English corporations and 29 individual defendants.

An opportunity is given the trust to disintegrate and recreate on condition of transacting business not repugnant to law.

If at the end of six to eight months the corporation fails to bring themselves within the law a receivership and dissolution by court decree will follow.

The trust is held to have been guilty of intimidation and clearly to have shown a purpose to stifle competition.

Chief Justice White announced the decision which was practically unanimous although Justice Harlan dissented on several points. As in the Standard Oil case Justice Harlan resents the application of the "rule of reason" to the Sherman anti-trust law.

The court having held the defendants guilty of conscious wrong-doing, Justice Harlan "is not all anxious" to perpetuate any new combination growing out of them.

By directing that the combination be forbidden the privilege of interstate commerce or be placed in the hands of a receiver unless it disintegrates in harmony with the law within six, or at the most, eight months, the court is regarded to have dealt with the tobacco corporations more drastically than with the Standard Oil Company, of New Jersey, whose dissolution was ordered two weeks ago.

WELCOMES SEN- ATORIAL CONTEST

Ex-Speaker Justice Thinks the Campaign Will Cause Beneficial Awakening.

Raleigh, N. C., May 30.—Hon. E. J. Justice, of Greensboro, former Speaker of the lower House of the North Carolina general assembly, says of the impending campaign for the United States Senatorship, involving the seat of Senator Simmons, that there is nothing to be depreciated about a long contest, as it is to be a campaign of principles rather than a personal campaign; that the four candidates are to be weighed and passed upon by the people. Indeed, he believes that such a long-drawn-out campaign will result in awakening the people to a more lively interest in the affairs of the State and the nation and aid in a more speedy and proper solution of the issues. He does not think any of the candidates—Senator Simmons, Gov. Kitchin, ex-Governor Aycock or Chief Justice Clark—can justly complain of a discussion of their political beliefs or performances. He insists that the question for the people is what do the several candidates stand for and how zealous will they be in writing their principles into law. He insists that there should be two primaries, the first for all four candidates in the general election next November, and the other to follow in due time for only the two highest in the first primary.
