**NEW BERN LAGS IN
 LOCAL CO OPERATION**

"Back homers" declare New Bern has wonderfully changed for the better in the past decade. Visitors to New Bern are surprised at the improvements made here. Even New Bernians, themselves, occasionally take courage to offer a faint cheer over local betterments.

But the real co operative local sprit lags. There is no local organization that is assertive and keeps assertive every day and every hour in the day, for it is only by such continual, never ending, never ceasing local self assertion, through some kind of a local co operative organization, that New Bern is not merely to grow, but keep what betterments this city now has. The local co operative weakness is to be noted at every public meeting. There should be five hundred present, it is considered a crowd if one hundred are out. The small crowd may force the matter at hand to successful conclusion and the entire city acquiesce, but the success of one hundred is not that of five hundred, and great community gains are not to be secured through a few of its citizens.

A city, New Bern, ought to be like a merchant, advertising his goods, and then with his capable assistants be at the front door ready and eager to welcome not only buyers but also any and every one who will come into the store and look at the goods. Is New Bern advertising? Is there any committee ready and eager to greet even to advance and help in any prospective enterprise or industry? It is not enough to wait and see if something may not come in, there must be a reaching out, or nothing worth this community's interest will come in and locate. There is a droop, a lagging back, in New Bern's co operative spirit. There is need of organization that means not a selected few, but every business man, every citizen of standing, who shall get together as one man and with a co operative force that will gain immediate benefits for this city.

SORE NIPPLES.
 Any mother who has had experience with this distressing ailment will be pleased to know that a cure may be effected by applying Chamberlain's Salve as soon as the child is done nursing. Wipe it off with a soft cloth before allowing the babe to nurse. Many trained nurses use this salve with best results. For sale by all dealers.

SAVED HIS WIFE'S LIFE.
 "My wife would have been in her grave today," writes O. H. Brown, of Macon, Ala., "if it had not been for Dr. King's New Discovery. She was down in her bed, not able to get up without help. She had a severe bronchial trouble and a dreadful cough. I got her a bottle of Dr. King's New Discovery, and she soon began to mend, and was well in short time." Infallible for coughs and colds, it's the most reliable remedy on earth for desperate lung trouble, hemorrhages, grippe, catarrhs, hay fever, croup and whooping cough. 50c. per bottle. Trial bottle free. Guaranteed by all druggists.

AN OLD-TIME PRESCRIPTION
 In a modern product. From time immemorial men and women have been told for the hair and scalp. Almost every one knows of the value of such a combination for darkening the hair and making it grow.

In older times the only way to get a hair tonic of this sort was to travel to the home of a certain "method" which was treasured and not always satisfactory. Nowadays almost every up-to-date druggist can supply his patrons with a ready-to-use product, skillfully compounded in perfectly equipped laboratories. The "Witch" Chemical Company of New York put up an ideal remedy of this kind called "Witch's Hair and Scalp Tonic." It is a hair tonic and scalp restorer, and will make your hair grow and be as healthy as ever.

CHANGING A QUARTER.
 What You May Do With a Twenty-five Cent Piece in Tangier.
 The traveler who goes ashore at Tangier is likely, if he wanders about alone, to meet himself coming back to the same starting place. His souvenir postal cards may be mailed at four separate postoffices, with different stamps on each. Or, writes Mr. R. A. Forbes in "The Land of the White Helmet," at a British hotel he may exchange French money for Spanish postage and mail his letter in a German postoffice. But he may not put British, French, German and Spanish stamps on the same letter, for that might lead to international complications.

He may also do coin tricks equal to those of the prestidigitator. Let him take an American quarter dollar and exchange it for English money. He now has a shilling and a penny over.

He may exchange the shilling for a French franc and receive 30 or 40 centimes in change. The franc may be traded for a Spanish peseta, plus 20 centimos in copper. The Spanish peseta may now be converted into a Moorish peseta, "hassani," with a handful of copper to boot.

He now has his pockets weighted down with English, French, Spanish and Moorish copper, yet he can buy just as much from a Moor with his hassani peseta as he could have bought with his original quarter.

In a thoughtless moment one day I held out a hassani peseta to the American vice consul general at Tangier and asked him how much it was worth.

"A hassani peseta," he replied glibly, "is worth ten dirhems or twenty half dirhems."

"And twenty half dirhems equal?"

"Two or three cents less than a Spanish peseta," he answered. "But you must remember that the valuation of Moorish silver fluctuates from day to day; at times it is officially worth only a third of its face value."

"Today is Thursday," I said in desperation. "The hour is 7:45 p. m. Would you mind telling me how much this hassani is worth in American cents at this moment?"

"I'll figure it all out for you," he answered.

At 2:30 he was still figuring, so I crept softly out and wandered into a Moorish tea house. There I spent the hassani in riotous living.

An Odd Habit Among Rooks.
 Among the odd habits of rooks is the way that members of the same rookery have of intermarrying generation after generation. The males always choose their wives from among their near neighbors, and if one alighted so bold as to bring home to his rookery a bride from a distance, the other rooks will invariably refuse to receive her and will force the pair to build some way off. In the neighborhood of big rookeries outlying nests of this kind may always be found.

GOVERNOR JUDSON HARMON OF OHIO
 By A. V. ABERNETHY

COLUMBUS, O., [Special.]
 When the bribery charges against members of the Ohio general assembly exploded with the suddenness and force of a bomb and sent scores on a hunt for lawyers Governor Judson Harmon took the same view of the personality of guilt that he did when he reported to President Roosevelt that Paul Morton, a member of his cabinet, had been guilty of granting rebates while an officer of the Santa Fe railroad. "Guilt is always personal," said Harmon to Roosevelt, and he resigned his commission to investigate rebating because Teddy was inclined to shield Morton.

A few hours after the bribery charges were filed the Ohio executive sent out an order that no man should be spared in the legislative hoodluming investigation. Party and even personal friendships must be set aside, the governor said, and the entire situation cleaned up.

Throughout nineteen years of continuous control Republican state administrations, when charges of irregularities were made involving members of their party, assumed the attitude, "They are our friends, and we must defend them." There is an Ohio statute which grants immunity to every

HON. JUDSON HARMON, GOVERNOR OF OHIO.

one who testifies before a legislative committee, and this law, together with a whitewash brush, had prevented any Republican law violator from being held before a court of justice.

Naturally there was a great rush by distraught members for legislative immunity. But Governor Harmon promptly pulled the plug of the immunity bathtub and prevented any one bathing in its soothing waters by insisting that no legislative investigating committee be appointed and that the largest of the grand jury be the only probe.

Indictments were returned against seven members of the general assembly and the sergeant-at-arms of the senate, and these cases will take the same course as that of the most humble citizen who becomes involved in criminal charges. A couple of Democrats who had been fighting the governor's bills were among the members indicted.

In less than three years of his administration Governor Harmon has made a record of accomplishment unparalleled in the history of Ohio politics. He has wrought more progress for the people than was accomplished in the forty years that preceded him. There has been written into the statute legislation that the unrighteous citizens had been demanding and pleading for in vain for decades.

The supremely important achievements of the Ohio Democracy under the leadership of Governor Harmon may be divided into three classes and legislations. First, for the elimination of graft; second, such reform to the tax system as will protect the taxpayer from the tax spender and will compel corporations to stop dodging taxes and pay along with all individual property owners; third, the application of business methods and economy to public expenditures and fourth, the enactment of purely non-partisan laws for the benefit of the entire people, irrespective of political parties, and designed to make sure by honest seeking corporations, enterprises difficult and sure to the people.

After his business government had been in operation for a few months his investigation of the methods by which corporations had been favored by the legislature was completed. He had found that there was a great deal of money being paid to the legislature in return for the passage of laws which would benefit the corporations and hurt the people.

going the will of the people." One of the committee suggested the Oregon plan was undemocratic. The executive replied: "It's the very essence of Democracy to put the government back into the hands of the people and let them say when they want for United States senator."

Governor Harmon took a new tack and had a similar measure offered in the house, the Wyman bill. That body passed it and sent it to the senate, where the governor finally got sufficient Republican votes to save it. Citizens had demonstrations recently that their judiciary, one of the most sacred institutions of a free government, had been invaded by party bosses in their inordinate thirst for power. Instead of being placed where the people could turn to invoke the penalties of the criminal statutes on those who had offended certain courts, were being used in cases where men of vast political power were concerned, to shield violators from the vengeance of the law.

But the general assembly took a long step forward from boss domination of the courts by passing a bill providing in the future that all Ohio judges, from the dignified gowned justices of the supreme court down to the humble justices who sit as justices of the peace, shall be elected on tickets submitted free from party emblem or device. Nominations may be made by conventions, but the power of bosses to control nominations was broken by a clause in the bill which says that nominations may be made by petition. There is not another such law in the United States.

Ohio has been hampered by the archaic machinery of a constitution which was adopted in 1803, and the subject of making a new organic law is the largest and most important proposition that has come before a Western general assembly in many years. Such bills were being introduced to get control of the constitutional convention to be held in 1912, when Governor Harmon took charge of the arrangements for it and succeeded in getting through the general assembly a bill which will remove the legislative from party influence and make them responsible to the people.

It will be well to remember that Ohio will see a new general assembly when the new constitution is adopted. It will be well to remember that Ohio will see a new general assembly when the new constitution is adopted. It will be well to remember that Ohio will see a new general assembly when the new constitution is adopted.
