HINTS IN GETTING ALONG.

JULY NINETEENTH.

JUST how the expression "horse sense" came into use is not known. The meaning of the expression is simply an old fashion logic, simple analysis and actual truth. Make these principles the basis of your living and you will get along well. The man who uses "horse sense" is more successful than the man who depends upon smartness.

WILL SELL EX- POSITION SITE

Judge To Name Commission to Sell
Jamestown Exposition Grounds
And Buildings.

Norfolk, July 18.—Federal Judge Edmund Waddill, Jr., yesterday directed sale of the Jamestown Exposition site on Hampton Roads by commissioners, probably five in number, to be named by the court July 19th. The property consisting of 226 acres, together with the exhibit and state buildings thereon, as well as all other improvements belonging to the receivership estate will be sold, first in parcels and then as a whole persons offering to bid on parcels lots being required to make \$500 deposits and those offering to bid on the whole to make a deposit of \$10,000. The sale will probably occur in October after four weeks' advertisement in each of the Norfolk newspapers. The terms of the sale will be one-fourth cash and the balance in three annual installments.

The commissioners of sale will determine the number of parcels into which the property will be divided for first offer at auction. The division will probably be in blocks rather than lots. There was some question as to how the water system on the grounds would be sold, but this was decided in favor of its sale in one parcel as a whole, the entire water works system to be included in the property when the land and improvements are finally offered as a whole.

The decree of sale affirms the right of mechanics' liens to come in ahead of the Jamestown Exposition first mortgage of \$400,000, heretofore decided by the court, when the mechanics' liens are valid.

Those nominated to the court today as special commissioners of sale were H. M. Kerr, R. H. Baker, R. M. Lett, H. C. Davis and H. H. Rumble. Most of those named were trustees under various mortgages involved. The court said this raised a troublesome question and it would do the best it could.

A Well Known Man's Opinion.

The Savodine Co., New Bern, N. C. We have derived so much benefit from the use of SAVODINE, that we wish to add our testimony to the list of those already acquainted with its merits.

My wife has been using SAVODINE for quite a while for cold in the head, and has found it a ready relief for CATARRH of the nose. It is the best remedy I have ever used. A short time ago she was feeling very sick, and as he would clap his little hands to his ear, we decided he must be suffering with earache, and realizing that something must be done at once, we got a tin of SAVODINE. In a few minutes he was sleeping peacefully as though he had never had a pain. We cheerfully recommend Savodine to us we will always feel grateful to what it has done for us.

THE VITAL SPARK IS SEEN

Its Departure From Dying Man
Witnessed by X-Ray
Expert.

Chicago, July 18.—The "flight of the vital spark" has been witnessed, according to a statement made today by Dr. Patrick S. O'Donnell, an X-ray expert, who has been following up experiments made by Dr. W. J. Kilner, of London, England.

Some time ago, using a chemicalized film sealed between two thin strips of glass, Dr. O'Donnell gave a demonstration to twenty physicians of the aura, or "electrical radiation" of living bodies, four young women being used as subjects. The aura developed as a strong ray of light surrounding the entire form of the subject.

"Last night," said Dr. O'Donnell, "in the presence of several physicians at Mercy Hospital, I tried the experiment on a dying man. He was rapidly sinking. Suddenly the attending physician announced that the man was dead. The aura began to spread from the body, and presently disappeared. Further observation of the corpse revealed no sign of the aura.

"We do not claim that the light is the soul, or spirit. In fact no one seems to know what it is. In my opinion, however, it is some sort of radio-activity made visible by the use of the chemical screen. My experiments, however, seem to prove that it is the animating power, or current of life of human beings."

BRYAN WOULD TEST CANDIDATES

They Must Go On Record As To
Various, Present and Past,
Policies of Party.

Lincoln, Neb., July 18.—The Democratic Presidential aspirants are to be placed on record on public questions before the nominating convention is held if William J. Bryan has his way.

Bryan, who, by reason of the rule which compels a candidate to receive a two-thirds vote of the delegates to secure the nomination, will be a potent factor in next year's convention, declares in the Commoner today that Democrats should profit by the lesson of 1908.

"The Republicans," he says, "took Mr. Roosevelt's word for the political disposition of the Republican candidate for the Presidency, and they have been naturally, greatly disappointed.

The questions he wants the aspirants for the nomination to answer include:

"Do you favor tariff for revenue only?"

"Free raw materials and a revenue duty only on manufactured goods?"

"Giving consideration to the element of protection in revising the tariff?"

"Election of Senators by the people?"

"The income tax?"

"Promise of immediate independence to the Philippines?"

"Publicity of campaign contributions and expenses?"

"Safeguarding of States' rights?"

"Indorsement of labor planks of 1908?"

"Strict regulation of railroads?"

"Indorsement of the trust plank of the 1908 platform?"

"Asset currency in any form, and more especially the Aldrich monetary reform plan?"

"Legislation guaranteeing bank deposits?"

Bryan would also put the aspirants on record on the question of keeping the three branches of government within their Constitutional sphere and whether they believe in the reading of "unreasonable" into the Sherman Anti-Trust law by the Supreme Court.

The managers of The Athens always look to the comfort and pleasure of their patrons.

Attempted Big Swindle.

New York, July 18.—The police arrested a well dressed man, who said he was Edward B. Kahn, of New Orleans, who is charged with having ordered from cloak and suit manufacturers in this city goods to the value of \$60,000 in the name of a Chattanooga, Tenn., firm to which the goods were ordered shipped. One of the firms visited by Kahn wired to Chattanooga for confirmation of a \$10,000 order, and received a reply that the company had no buyer in the New York market.
