NORFOLK MAY GET BIG DOCK

Government May Decide to Enlarge One Now Building and Make it Largest in This Country.

Washington, D. C., July 26.—As battleships are built larger year after year the navy department may recommend to Congress the construction of a mammoth dry dock at either New York or Norfolk exceeding in size any naval dock in this country. Tentative plans for the dock contemplate a length of 1,000 feet, nearly 200 feet greater than any American dock built or building; a beam of 110 feet, the width of the Panama canal, and a depth of 84 feet.

Were the battleships Wyoming and Arkansas ready for commission at the present time there would not be a dock at an American navy yard wide enough to accommodate them. This situation, however, will be met before these ships are completed by the new docks at New York, Pearl Harbor and Puget Sound and the enlarged dock at Norfolk. These docks will be able to receive any ship built, building or designed for the United States navy. The Norfolk dock will be completed by Sept. 15th; the New York, February 1, 1912; Puget Sound, March 2, 1912, and Pearl Harbor, May 23, 1913.

ROCKEFELLER OUTWITS COURTS

Oil King's New Corporation Will Control Both Oil and Tobacco Trusts and no Law to Prevent.

New York, July 26.—That behind the recent formation of the \$10,000,000 National City Company, controlled by the National City Bank, is a plan to nullify the effect of the reorganization order of the Supreme Court in the Standard Oil and Tobacco Trust cases is the declaration in Wall street.

The new company, incorporated under the New York laws and entitled by its certificate to carry on a real estate or other general investment business, according to the financial sharps, is to be used as a holding company for shares of the two big convicted trusts.

The companies will be split up into their integral parts, to conform with the decision of the Supreme Court, but it is reported control of each one of these may be retained indirectly by the National City Company and the finances associated with it.

Stocks of the National City Bank and the National City Company are interlocked under the plan of distribution of shares of the new concern, which is exclusively a National City Bank Company. An owner of stock in the National City Company cannot sell that stock without at the same time parting with his bank stock.

The Rockefeller interests control the National City Bank and the new National City Company. They are also larger holders of the stock of the American Tobacco Company. They are thus in a position to do as they please with the two trusts, and if they decide that their new \$10,000,000 company shall virtually administer the affairs of companies capitalized and with resources running into the hundreds of millions of dollars, they will be able to do so.

COTTON TAKES ANOTHER TUMBLE

Forthcoming Ginner Report Expected To Forecast Great Crop, Hence The Decline.

New York, July 26.—Notwithstanding the big declines of the past week or so, the cotton market became sensationally weak yesterday with all deliveries except July, making new low records for the season under a renewal of general selling inspired by unfavorable foreign trade advices and increasing confidence in an August bureau report for showing an enormous crop next season. The new crop positions were the weakest, selling about 35 to 40 points under the closing figures of last night with January contracts touching 11.40, or a decline of \$11.09 per bale from the high records of last month, while August broke to 11.40.

Reports that the Indian monsoon had broken unfavorably and that the possibility of a famine in India had exerted a very unfavorable influence on the Manchester market, inspired a good deal of selling while the market was also influenced by rumors that the forthcoming report of the National Ginner's Association would make the condition of the crop about 90 per cent. comparing with the government report of 88.3 per cent. last month.

There was heavy covering below 11.50 for the new crop, but the market closed weak and at practically the lowest on new crop months which showed losses of from 35 to 40 points. Old crop positions closed unchanged to 19 point lower.

Break Over Moroccan Situation.

London, July 26.—Reports that Germany has decided to quit out 400,000 of the army reserves, that France will follow suit and news that Lloyds will not hold themselves responsible for war risks on shipping later than August 15th, today enlarged the ominous cloud of gloom that has arisen over the European horizon since the development of the Moroccan situation through German's aggressive action. Emperor William is said to have curtailed his sea cruises and started back to Berlin as a result of dispatches sent him by wireless.

LaGrange Bank Case.

Among these are Skinner, of Greenville; Aycock, of Raleigh; Tillet, of Charlotte; Dorch, of Goldsboro; Rouse, Cooper and Dawson, of Kinston.
