VACANCIES IN REVENUE OFFICE

Death And Resignation Creates Two Vacancies in Raleigh Office.

Raleigh, Aug. 15.—It is learned that the position of cashier in the United States Internal Revenue Office for the Eastern District of North Carolina here made vacant recently by the death of William B. Duncan, father of Republican National Committeeman E. C. Duncan, is being filled temporarily by William T. Ielear, who has for a long while been in charge of the desk in the Collector's office that keeps the records of the tobacco manufacturer's tax. It is understood that the other clerks in the Collector's office are doubling up to a considerable extent until Collector Wheeler Martin and Committeeman Duncan deem it the proper time to appoint or at least make public their appointments to the vacancies, especially notable being the cashier vacancy and that caused recently by the resignation of C. M. Babbitt, who desired to return to his home in Eastern Carolina. In the filling of these positions there has to be at least the semblance of observance of civil service regulations and the developments are being watched with no little interest.

Dog Attacks Child.

A dog attacked the three year old child of Mr. and Mrs. B. B. Hurst on the street yesterday morning, and but for the interference of a colored man, would have doubtless been seriously injured. As it was the child escaped with only a few scratches which it is not thought will prove serious. However, in order to be sure that the animal was not suffering with rabies, Mr. Hurst killed him and sent his head to Raleigh to have it examined.

WILEY CASE STILL DRAGGING

Witness Testifies That She Was Subjected To Third Degree Methods By Solicitor McCabe.

Washington, Aug. 15.—Alleged third degree methods employed by Solicitor George H. McCabe, of the Department of Agriculture, in probing into the private affairs of officials of the Bureau of Chemistry, were testified to, when the Wiley investigation was resumed by the House Committee on Expenditures in the Department of Agriculture.

Miss Carrie M. Davis told of being locked in a room with McCabe and a Secret Service agent and questioned for two hours about the affairs of Dr. Kebler, chief of the drugs division, and particularly about dividends from a Philadelphia drug concern, in which he owned one share of stock.

Miss Davis testified that at rare intervals Kebler received small checks from the firm.

After her examination she said she was assured she "would be taken care of in the department." Later, Miss Davis said she told her inquisitors that the correspondence between Kebler and the drug concern consisted largely of complaints from the latter that Kebler was too radical and discriminating against them.

Willis Baldwin, attorney for the cat-sup manufacturers who were concerned in the Indiana benzate case, asked to testify, and declared that evidence heretofore given that the Government connived to assist manufacturers as against the State Pure Food law was false.

Refrigerators.

Will sell the balance left over at the following prices. Genuine Porcelain lined Lenard Cleanable, the \$25.00 at \$22.50, the \$35.00 at \$30.00, the \$40.00 at \$35.00, the \$45.00 at \$40.00. The above prices are the lowest we ever offered this class of goods at. Everyone carries guarantee that they will do all you expect any refrigerator to do.

Governor's Mother Nearing End.

Raleigh, Aug. 15.—Governor Kitchin was summoned last evening back to the bedside of his mother, Mrs. Maria Kitchin, at Scotland Neck. He had two telephone messages that indicated that the aged lady was sinking and that the end was believed to be very near. The governor told anxious enquirers before leaving the city that there was no hope for recovery. He feared, indeed, that the end would come before he could reach her bedside. He was with her two days last week, but came back to Raleigh on account of the text book adoption and other very pressing business that awaited him here.

CONDITIONS IN ENGLAND SERIOUS

General Labor Strike Threatens The Trade of United Kingdom.

London, Aug. 15.—There appears now little hope of averting a great railroad strike which probably will be accompanied by a general labor revolt that will have a tremendous effect on the trade of the United Kingdom.

At a meeting held in London yesterday by the managers of all the railroads having terminals here, it was resolved that the time had arrived to resist the men's encroachments. The managers contend that the men by striking will violate the agreement arrived at after the railway troubles of 1907, under which all disputes were to be referred to conciliation boards or an arbitrator. This agreement they say, was to run until 1914.

Yesterday's meeting was unanimous that the only way to terminate constant dislocation of business was to take a firm stand and refuse all concessions to the men. One manager in the interview expressed the fear that there will be grave troubles on all the railway systems before the present week is ended.

Sectional strikes of railway men were declared tonight at Manchester, Liverpool, Sheffield and other places.

London, Aug. 15.—The strike fever has become epidemic in Great Britain. From one end of the country to the other men either have struck or are threatening to do so. Even the women and girls in the smaller factories of the larger cities are demanding better conditions of labor.

The streets of London are resuming their normal appearance. The van men began work early in the day. At the docks only a portion of the men returned to work and a good deal of uneasiness prevailed, as many of the men refused to accept the settlement arranged by their leaders, and demanded unconditional surrender on the part of their employers.

Distressing Accident To Small Boy.

Lee Harvey, a small white boy, who lives on Burn street, had the misfortune to cut his foot very badly yesterday from the effects of which he will likely be lame all his life. He with other boys was playing in a vacant lot on Broad street when he stepped upon a broken bottle cutting a part of his foot nearly off.

About a year ago the same little fellow had a severe case of typhoid fever which left him paralyzed and he has only recently been able to join his mates in play, not at all actively, and this makes the accident peculiarly distressing.

BIDS WANTED.

The city of New Bern, N. C., desires bids for furnishing (1500) fifteen hundred feet of six inch standard cast iron pipe for Water Main, delivered F. O. B. cars at New Bern.

All bids must be sealed and addressed to F. T. Patterson, City Clerk, New Bern, N. C., and endorsed on envelope "Bid for furnishing water pipe." Bids will be opened Sept. 1, 1911.

The city reserves the right to reject any or all bids.

A Well Known Man's Opinion.

The Savoline Co., New Bern, N. C. We have derived so much benefit from the use of SAVODINE, that we wish to add our testimony to the list of those already acquainted with its merits.

My wife has been using SAVODINE for quite a while for cold in the head, also has found it a ready relief for CATARRH but above all that, is the fact of its having proved itself invaluable to us for our baby. A short time ago he was taken very sick, and as he would clasp his little hands to his ear, we decided he must be suffering with earache, and realizing that something must be done at once, we put a tiny bit of SAVODINE in his ear covered it with warm cotton and in a few minutes he was sleeping as sweetly as though he had never had a pain. We cheerfully recommend Savodine to all who will always feel grateful for what it has done for us.
