Dividends Exceed Premiums

The GROWTH in ASSETS, INSURANCE IN FORCE, and POPULARITY of the UNION CENTRAL LIFE INSURANCE CO., are phenomenal. For instance: Policy No. 4271 issued 1871. Ordinary Life Plan for \$1000.00, age 36, premium \$7.25. The first dividend was \$4.00 while the 1911 dividend was \$39.11, being \$2.86 more than the premium, and a gain over the first dividend of 643 per cent, and the face value of the policy today is \$1,657.70 instead of \$1000.—The dividends have increased each year and for the past four years have exceeded the premium paid.

A policy in the UNION CENTRAL, not only protects against death, but is an excellent investment to the business man as collateral security in times of financial stringency.

Rates are LOW, Dividends LARGE, Satisfaction Absolute.
