Aids Nature
 The great success of Dr. Pierce's Golden Medical Discovery in curing weak stomachs, wasted bodies, weak lungs, and obstinate and lingering coughs, is based on the recognition of the fundamental truth that "Golden Medical Discovery" supplies Nature with body-building, tissue-repairing, muscle-making material, in condensed and concentrated form. With this help Nature supplies the necessary strength to the stomach to digest food, build up the body and thereby throw off lingering obstinate coughs. The "Discovery" re-establishes the digestive and nutritive organs in sound health, purifies and enriches the blood, and nourishes the nerves—in short establishes sound vigorous health.
"If your dealer offers something 'just as good,' it is probably better FOR HIM—it says better. But you are thinking of the cure not the profit; so there's nothing 'just as good' for you. Say no."
 Dr. Pierce's Common Sense Medical Adviser, in Plain English; or, Med-
 icine Simplified, 1000 pages, over 700 illustrations, newly revised up-to-date Edition, paper-bound, sent for 21 one-cent stamps, to cover cost of mailing only. Cloth-bound, 31 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

A TRIAL OF STRENGTH.
 The Fast Trial Was Performed by Adargoma, the Wrestler.
 Tradition has immortalized one Adargoma of Grand Canary, who could wrestle for two consecutive hours and having been thrown underneath in a certain contest, got his antagonist between his legs and arms and squashed him so that his bones began to crack. The native was subsequently sent as a prisoner to Spain, where he astounded the people by his performances. One day in Seville he was visited by a brawny youth of La Mancha, who was anxious to try a bout with him. "My good friend," said Adargoma, "as we are going to wrestle together it is only reasonable that we should begin by drinking something."
 A large bowl of wine having been brought, he took this in one hand and continued to address his challenger: "If with both your arms you can overpower one of mine so as to hinder me from drinking every drop of this wine we will try our strength together; if not, you may return to your home." The struggle took place, and Adargoma by degrees drained the bowl in the coolest manner without spilling a drop of the wine. His one hand was more than a match for the other's two.—London Spectator.

HOW TO GET THE UTMOST VALUES WHEN YOU BUY CLOTHES.
A SUIT of clothes has three points of value—style, fit and wear. You get the utmost style value only when your suit is cut to fit YOUR individual personality. That means tailor-made clothes.
 You get the utmost fit value only when each garment is made to conform exactly to YOUR figure. That means tailor-made clothes.
 You get the utmost wear value only when your suit is made of a standard pure wool fabric. And that means tailor-made clothes.
 We give you the utmost value in style and fit by applying all our knowledge and artistic skill to the making of YOUR suit.

AN UPSET TRADITION.
 The material and industrial advancement of this century, has carried with it a progressive facts and traditions that were thought to be stronger than facts. In all farming communities the crow has been set down as an evil, almost proof against man's ability to successfully combat. In the spring of the year, in small and large corn fields may be seen figures variously clothed in human garments, and variously disposed about the fields, as tho at work like folks. It would only be the most "cited" who would ask why, were those figures placed in the corn fields. The crow being a suspicious bird, one very bright and knowing, has been held as the worst enemy the newly planted corn had to contend against. Traps the crow seems able to evade, while a man or woman in the field is the signal for every crow to take flight that goes beyond possible gun range. The crow with his black coat has been painted in his actions even blacker than his outward appearance.
 The crow has been charged with causing great injury to the corn crops, stealing fruit, robbing nests of poultry and eating young birds. To determine the real economic status of the crow, the scientists of the Biological Survey examined nearly a thousand stomachs of crows killed in every month of the year and throughout the country. The crow was proven guilty of these charges, but it was also shown that most of the corn that he had eaten was waste corn, and the part destroyed while growing was only 3 per cent of the total food. The destruction of fruit and eggs was only trivial, while, on the other hand, the amount of harmful insects and mice eaten rendered the final verdict in favor of the crow. It was proven beyond doubt that he was of more real economic value than harm.

NOTICE TO COTTON FARMERS
 On account of the light weight bales coming to this market, the buyers held a meeting and decided for their own protection, that they would not accept a bale weighing 400 pounds or less, unless there is a deduction of ten pounds per bale; consequently in buying light weight bales in your territory, it will be absolutely necessary for you to deduct ten pounds per bale from bales weighing 400 pounds or under and 25 pounds per bale from bales weighing 300 lbs. or less. The usual custom was to deduct one dollar on bales under 300 lbs. which does not anything like cover the loss. Further we particularly want to call your attention with regard to tare, this must not exceed 22 pounds per bale, any cotton overstated you must either refuse to buy it or else buy it subject to tare claim when it arrives at Norfolk, and such notation must be made on the invoice for cotton. We cannot urge you too strongly to follow these instructions very carefully, otherwise we will have to bill you back for any loss sustained for either of the above causes.
 Yours very truly,

MEAT FOR MUSIC.
 The Way Haydn's "Ox" Minuet Came to Get That Title.
 There is no sensible reason for the titles attached to many pieces of music, some of them even classical selections. Most generally they are placed there as an attempt of some publisher to "boom" his stock and sell his goods. Then again, some peculiar titles may have their origin in incidents about as important as the following:
 Haydn one day received a visit from a butcher who said that himself and his daughters were admirers of Haydn's music and as the young woman was soon to be married he made bold to ask that the composer write a minuet for her wedding. Kind "Papa Haydn" consented, and in a few days the man of meat obtained his music. Not long afterward Haydn was surprised to hear this same minuet played under his window. On looking out he saw a band of musicians forming a ring around a large ox, tastefully decorated with flowers. Soon the butcher came up and presented the ox to Haydn, saying that for such excellent music he thought he ought to make the composer a present of the best ox in his possession. Ever after this little composition was called the "Ox" minuet.—W. Francis Gates in "Anecdotes of Great Musicians."

 Lake in a Volcanic Ring.
 On the island of Niunawof, halfway between Fiji and Samoa, is a volcanic ring enclosing a crater containing a lake two miles in diameter. Toward the sea the ring is bordered with walls of black cliffs 200 to 300 feet in height. An eruption in 1880 formed a peninsula on the eastern side of the lake. While the ocean outside is trembling and thundering under a heavy wind the lake remains smooth or is simply wrinkled with ripples or wavelets.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY.
 as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surface. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonial free.
 Sold by Druggists, Price, 75c, per bottle.

 The Seismograph.
 The seismograph is a most interesting instrument. It is kept in a sub-basement room, far from disturbing influences. There it records upon a strip of paper such earthquakes as may happen anywhere. The scientists then study the strip of paper and herald to the world the news that the tremor which shook down several cities was duly registered.
 The seismograph is a remarkable contrivance, though in just what way is not yet determined. However, in the interests of science, it is as valuable as would be the imprint of the hoof upon the seat of the trousers of a man who had been kicked by a mule. After the event he could study the imprint and assure himself that he had been kicked.—Life.

A FIERCE NIGHT ALARM.
 Is the hoarse, startling cough of a child, suddenly attacked by croup. Often it aroused Lewis Chamberlain of Manchester, O., (R. R. No. 2) for their four children were greatly subject to croup. "Some times it severe attacks," he wrote, "we were afraid they would die, but since we moved what a certain remedy, Dr. King's New Discovery, we have no fear. We rely on it for croup and for coughs, colds or any throat or lung trouble." So do thousands of others, so may you. Asthma, Hay Fever, LaGrippe, Whooping Cough, Hemorrhages by before it. 50c and \$1.00. Trial bottle free. Sold by all Druggists.

ATTACHES SCHOOL PRINCIPAL.
 A severe attack on school principal, Chas. R. Allen, of Zyranda, Ga. is here told by him. "For more than three years," he writes, "I suffered from indigestion, constipation, nervousness, and stomach trouble which rendered me unfit for my duties. All remedies failed me and I was in a desperate condition. I was advised to try Chamberlain's Stomach and Liver Tablets and after using them I feel like a new man. I am now able to perform my duties as principal and I am very grateful to you for your kind suggestions."

 The Stickleback Legend.
 The stickleback is one of the species of fish that build nests. There is a legend that the stickleback builds a nest because during the deluge it pulled the tow out of the bilge hole of the ark, and if it had not been for the hedgehog, who plugged up the leak with his own body, Noah and his sons would have had an exciting time baling out their boat. When Noah found out who had done the deed he ordered as a punishment that the culprit should be compelled each year to build a nest, while other fishes would have an easy time of it.
DIGESTION AND ASSIMILATION.
 It is not the quantity of food taken but the amount digested and assimilated that gives strength and vitality to the system. Chamberlain's Stomach and Liver Tablets invigorate the stomach and liver and enable them to perform their functions naturally. For sale by all dealers.

 A Glass in Napoleon's Will.
 Peter the Great is said to have made a will in which he exhorted his heirs to approach as nearly as possible to Constantinople and toward India, but the authenticity of this document has been disputed, and it is shrewdly suspected to have been forged late in the eighteenth century by August von Klotzsch.
 Of the genuineness, however, of the last will and testament of Napoleon, there can be no manner of doubt. One of its clauses was as follows: "I bequeath to my daughter, the Empress, the Imperial Library of Green and the medals to her husband in favor of two young ladies and their mother with the title of the Empress."
