AND CRAVEN COUNTY.

New Bern, N. C. Oct. 27, 1911.

#### SOME POLITICS.

In what is termed an "off poli tical year," there is a singular individual and party indifference as to the words and actions of leading and prominent statesmen and politicians. Take a year when conventions meet and men are striving for political nominations, the thoughless word and act are given startling prominence, and destroy chances.

politics at present. The announcement that W. R. Hearst has returned to the democratic fold, prominent man that he is, has provoked only the faintest applause. In a political year it would have furnished press news for days, with editorial comment from every section of the country. The press dispatches say President Taft is not receiving any great warmth of reception by the crowds that greet him on his western trip. It is some time before a national convention and people hear from the President the things that most of them know, and if he makes "issues," who cares in an off year to study political issues?

Then there is William J. Bryan who endorses Senator La Follette, a republican, for the Presidency. And Congressman Underwood makes the forecast that William R. Hearst will be a candidate for the Presidential nomination at the next national democratic convention. And yet there is no public or political upheaval over these declarations, All of which goes to show how nothing counts when the political game is not on.

#### FOR CHAPFED SKIN.

Chapped skin whether on the hands or face may be cured in one night by applying Chamberlain's Salve. It is also unequaled for sore nipples, burns and scalds. For sale by all dealers.

The Art of Poisoning. Professional poisoners arose early in our era. It is recorded that Agrippina A. D. 26) refused to eat apples at the table of her father-in-law, Tiberius through fear of poison. The notorious Locusta flourished in that epoch. It is charged that she supplied with appropriate directions the poison by which Agrippina rid berself of Claudius. She also furnished the poison that was administered to Britannicus committed in quite a conventional ach or heartburn, sick headache and manner. The Romans were accustomed to drink hot water at table, but the same temperature did not appeal to all. A slave offered hot water to Briternally, acting directly upon the tannicus. "Too hot," he remarked. blood and muceus surfaces of the The slave added cold water. Britannicus drank, gasped once or twice and died. The cold water was poisoned either with a cyanide or with prussic

#### A MOUNTAIN RESCUE.

Mind That Stopped a Slide to Death

On entering central Asia after a trip across India Major R. L. Kennion witnessed a rescue which was due to the quickness of decision and prompt action of a native. The story is given in "Sport and Life In the Farther by moonlight. The cold was intense and the way slippery and uncertain.

No one having crossed the pass that year, the guide took a wrong line and led us across an ice slope that was concealed by snow. The first I knew of it was seeing his dim figure begin and as his pace increased it seemed that nothing on earth could save him Near the end of my line, however,

tion was only equaled by his resource Dropping his load, he sprang out on to a projecting point of rock near which the man would pass, and us he slid by with the point of his native made ice ax he gaffed him in his loose clothing as you might a salmon. It was most cleverly and promptly done.

"Fixing" the Ball Grounds. Hugh S. Fullerton, the baseball expert, tells in the American Magizine of the queer ethics of the national game. He writes:

"'Fixing' the grounds so as to give the home team the advantage and handicap the visiting players is the commonest form of trickery, yet in professional ball it is not considered wrong, any more than a commander of a defensive army would consider it wrong to prepare breastworks to meet an enemy. The extent to which the fixing of grounds is carried is amazing. There probably is not a major or minor league grounds in the country on which the home players have not the advantage, and visiting teams are forced to be on the alert from the moment they enter a field to discover, if possible, what they are up against.

There is a difference. Go to The Athens.

A plea for a "live church" was made pefore the Unitarian Conference in Washington.

#### HAIR THAT FASCINATES
