VANISHED GRANDEUR.

Stories of the Thames When London Reads Wars Marriages.

In Tudor times royal residences were situated along the Middlesex bank of the Thames, and splendid barges moored by women in liveries were constantly coming and going between them.

"The city companies," says the London Times, "all had their state barges and liveried watermen. Great river pageants were numerous. High placed criminals traveled down to their death on the ebbing tide. Ambassadors and other envoys of foreign powers were met at Gravesend by the lord mayor and his aldermen and taken by river in a stately progress to Tower stairs. The regular route westward was by river to Putney, thence by road across Putney Heath.

"That way went Wolsey when deprived of the great seal, traveling from York House to Escher in disgrace, until he fell in with the king's messenger on the beach and knew he was his master's man once more. In a later age the entry into London of Catharine de Braganza, the consort of Charles II, was a memorable example of the river pageant.

"In old days the city roads were marked rather than thoroughfares, so that even if anybody wished to go from one part of the city to another he went by river, for the roads were quarrelsome in bad weather and at all times haunted by highwaymen and footpads. Pops, that type of the patriarch permanent official, always used the river. Such phrases as 'by water to Whitehall' and 'so by water home' constantly occur in his diary.

"In Queen Anne's reign there were 40,000 watermen plying for hire on the Thames and over a hundred 'stairs,' or landing places, in London proper. These watermen were the 'cabbies' of that age. The really curious thing is that the Thames was still a main thoroughfare less than a century ago. Not until 1857 did the lord mayor's show proceed to Westminster otherwise than by water."

The Perfection Heater burns nine hours on one filling and is always ready for use. You can move it anywhere it is needed. There is no waste of fuel and heat warming unoccupied rooms. Just the heat you want, when and where you want it.

The Perfection is fitted with an automatic-flaming flame spreader that prevents the wick being turned high enough to smoke and is easy to remove and drop back when cleaning.

Curious Way of Catching Fish.

Indians of Bolivia have a peculiar method of going fishing. A writer in the Geographical Journal says: "They use the milk of the 'mumu' or 'moll' tree, the scientific name of which is, I think, *Hura crepitans*, of the euphorbia genus, for catching fish. I went with some of the Indians to a lagoon in the forest. Here, floating on the surface of the water, perfectly alive and yet absolutely unable to get away from fish of all kinds, big and small, from which they selected the most palatable for food. The milk is merely poured into the water, and as it spreads every fish which comes in contact with it becomes paralyzed and yet is not affected as food. Moreover, the effect appears to last for several days without killing the fish. The milk is also used as a cure for toothache, as a caustic and for the purpose of sulfiting, for which a teaspoonful is employed. As a poison they say the results are painful."

The Little Word "Yes."

"Yes" is a simple word spelled with three letters. It has caused more happiness and more unhappiness than any other word in the language. It has lost more money for easy leaders than all the holes in all the pockets in the world. It has started more diplomacies on their career than all the strong liquor on earth. It has caused more fights than all the "You're a liar's" that ever were spoken. It has procured kisses and provoked blows. It has defied candidates and elected scoundrels. It has been used in more lies than any other expression. It is not meant half the time it is said. Will it continue to make such a record? Yes.—Philadelphia Inquirer.

Kidney Diseases Are Too Dangerous For New Bern People to Neglect.

The great danger of kidney troubles is that they get a firm hold before the sufferer recognizes them. Health is gradually undermined. Backache, headache, nervousness, lameness, soreness, lumbago, urinary trouble and dropsy, follow in merciless succession. Don't neglect your kidneys. Cure the kidneys with the safe remedy, Doan's Kidney Pills, which has cured people right here in this locality.

James Thompson, 808 Chestnut St., Kingston, N. C., says: "The public statement I gave in January, 1908, recommending Doan's Kidney Pills still holds good. I had severe pains across my loins and my back ached all the time. My kidneys were weak and I was obliged to pass their secretions every little while. Doan's Kidney Pills were so highly recommended to me that I got a supply and used them as directed. They strengthened my back and kidneys and removed all symptoms of kidney complaint from my system. The benefit I received has been permanent and I now have no need of a kidney medicine whatever."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—is the name.

Ancient Stone Workers. Egyptian stone workers 4,000 years ago had a surprising knowledge of what are considered modern tools. These pyramid builders operated with solid and tubular drills and straight and circular saws. In handling the tubular drills, which were of superior quality, the skill of the artisan was so remarkable that the cutting marks in granite show an indication of wear of the tool, while a cut of a tenth of an inch was made in the hardest rock at each revolution. A hole through both hard and soft material was bored perfectly smooth and uniform.

Big Hearted Goldsmith.

Mills, a fellow citizen of Goldsmith's, called one morning to offer Smith a breakfast, when he was so injured in answer to his knock and in a smothered voice to force open the door and enter. When Mills and others had at last forced the bolted door they found Goldsmith so entangled in the ticking of his bed that he could not extricate himself without help. He explained that as the night before he had been sleeping in his children's bed with his bedclothes, what could he do? He had nothing else, not a penny, to give her. "For I couldn't at first sleep for I thought of slipping open the mattress to be in the tick," said "Oliver Goldsmith." By H. Asha King.
