LAST STRONGHOLD BOMBARDED

Nanking About To Be Overwhelmed. Rebels Swarm On Every Side Chinese Capital.

Nanking, Nov. 27.—After more than half a century of silence the hills overlooking the walled city of Nanking, the ancient capital of China, swarm with rebellious forces eager for its occupation and determined to take the stronghold where the Manchus are making their last stand south of the Yang Tse. From the Tiger Hill Fort for several hours Sunday morning big guns spoke repeatedly, while further up, along the northeastern range from the top of Purple Mountain, overlooking the Ming Tombs, for a fifteen mile semi-circle westward to the Yang Tse, smaller forts scattered shells into every section of the city. So far as is known the casualty list is not large. General Wong second in command of the defenders, is among those killed.

During the earlier part of the day the imperialists attempted a sortie against the attacking forces, with a view to recapturing their position and guns, but were driven back inside the walls with considerable losses. The Tiger Hill batteries, meanwhile, were pounding shells into Lion Hill. They succeeded in silencing the batteries there which, it is suspected, were of little value. The object of the seizure of Tiger Hill was shown by the early appearance of four cruisers, and later in the day of other warships. In the evening a dozen torpedo boat destroyers and cruisers were lying menacingly near the city. Doubtless they will quickly reduce the lower section and drive the defenders to the south.

The viceroys of Nanking and the Tartar general, in fear of General Chang, the imperialist commander, have taken refuge in the Japanese consulate, in which only the consul remains. He is the sole official representative of foreign interests in Nanking. The consulate is well guarded by marines.

Sunday's attack can only be considered a slight foretaste of bigger things to follow, because the main body of the revolutionaries is steadily investing every side and bringing the big guns into position on every eminence. The plans of the attacking force are not revealed. The revolutionaries may not attempt to rush the city but may prefer to bombard steadily and await its surrender. But if breaches are made in the walls of the city and the rebels enter it is believed that General Chang and the loyal troops will make a desperate stand.

Don't let the cold snap catch you without a heater from J. S. Basnight Hdw. Co. 67 S. Front St., Phone 99.

Schooner Goes Ashore.

Early yesterday morning the big three-masted schooner 'W. H. Patrick' bound from Georgia to Maine with a cargo of 350,000 feet of lumber, went ashore at Cape Look Out. The life savers from the station nearby succeeded in getting the crew ashore but the vessel was a total wreck.

Woman's Club Notice

Those members of the Woman's Club who have not paid their dues are requested to have same ready this Tuesday when they will be called upon by Mrs. Clyde Eby.

Heaters.

If you want just a cheap heater for bed room, we can give you a nice little wood heater for \$1.25 that heats quick. We have out of our Coles Ranges and Hot Blast Heaters, 2 Ranges and 20 Heaters left. Don't delay in getting your heater placed in your home.

Bank to Observe Thanksgiving Day.

The banks of this city will observe, Thursday 30th, Thanksgiving Day, it being a legal holiday. All persons having dealings with the banks are requested to take notice of this closing on Thursday.

"When Catholic Captured Me"

That's the title of an amazing story to be featured in the Magazine Section of next Sunday's New York World, narrating the thrilling experiences of a New York City broker who suffered terrible hardships and had hair-raising conflicts with criminals in Patagonia, barely escaping being eaten by the South American savages. This is a true and thrilling story which makes fiction pale in comparison to its telling. The magazine will be ready in time for the next issue.

WRIGHTS TO BUY AT KITTY HAWK

Noted Aviators Will Build Permanent Station For Experiments Where Biplane Had Its Birth.

Manteo, N. C., Nov. 27.—The Wright company has practically closed a deal whereby it will acquire 1000 acres of land at Kitty Hawk, on which a permanent testing ground for aeroplanes will be established next spring.

The stretch composed of giant sand dunes and woodland, runs east and west across the "banks" from the Atlantic ocean to Croatan Bay and includes three dunes, the highest of which is known as Hill Thirteen and rises to 100 feet. Killdevil Hills, on which the Wrights have made experiments since 1900 and on which it may be said "the first aeroplane was born," is not on the property, but undoubtedly arrangements will be made with Robert Mescott, the life saver who owns the land, whereby it may be used.

When Orville and Lorin Wright left Kitty Hawk, following the recent experiments with the new soaring glider, the former said he was not sure whether he would return, but before departing he obtained from John J. Mann an option on the tract upon which, through an arrangement with Mr. Mann, he built last summer a rough wooden hangar and laboratory. A few days ago Mr. Mann received notice from the Wrights at Dayton, O. that they would exercise their option and establish a permanent experiment station at Kitty Hawk. Shortly after this Adam Etheridge, the Wright's Kitty Hawk representative and the member of the Killdevil Hills Life Saving Corps, was presented with the hangar and told to make such use of the lumber as he saw fit.

During the winter or early next spring the Wrights will erect at the foot of Hill Thirteen 100 rods from Killdevil Hills, a combination hangar and laboratory of concrete and, quite possibly, a bungalow for living purposes. This will be the only structure of its kind in Dare county. While camping at Kitty Hawk in October the Wrights lived, cooked and worked in a single building and found their quarters exceedingly cramped.

The concrete laboratory and hangar will be much larger than the old building and will be thoroughly equipped for aeroplane building. It will be wide enough to hold two machines and in all probability a set forge will be installed in one end. One end will be devoted to a carpenter shop. The loft will be used for storage.

The station will be ten miles from Manteo north, the nearest telegraph office; forty miles east of Elizabeth City, the nearest railroad point, and six miles south of Kitty Hawk post office, where the Wrights will post and receive their mail.

A telephone line at the life saving station, one mile away, makes it possible to send and receive emergency messages without going to Manteo. A daily packet runs from this village of 400 inhabitants to Elizabeth City, and three times a week a boat plies between the latter place and Kitty Hawk.

Don't say "they haven't got it" till you've tried us. J. S. Basnight Hdw. Co.

Mrs. Chas. P. Bolles, Well Known in New Bern, Passes at Wilmington.

The following items clipped from the Wilmington Star of Sunday will be read with regret by many New Bern people. Mrs. Bolles had visited in New Bern a number of times and has a host of friends and admirers, who will remember her as Mrs. Abbie Chadbourne.

The community was shocked and many friends were deeply grieved to learn of the passing of Mrs. Abbie Chadbourne Bolles, the beloved wife of Dr. Chas. P. Bolles, and daughter of Mr. and Mrs. Jas. H. Chadbourne, who entered into rest at 4 o'clock yesterday afternoon at the family residence, No. 119 Non street, after a brief illness. Besides her husband and parents she is survived by four children and one sister, Mrs. J. W. Stanley, and those on sojourn bereaved have the tenderest sympathy of many friends here and elsewhere in their trying hour.

Mrs. Bolles was a devout member of the Presbyterian Church from girlhood and was a most beautiful Christian life. Her sweet and kindly disposition endeared her to all within the circle of her acquaintance and her passing is mourned by hundreds. Mr. and Mrs. Chadbourne were in New York City and a telegram was sent them late yesterday afternoon conveying to them the sad intelligence of the passing of their beloved daughter. They are expected to arrive today. Mrs. Bolles had been ill only since Friday night and her passing came altogether unexpectedly to her loved ones and friends.

AMERICAN BANKERS ASSOCIATION

Joins Wall Street In Accepting Aldrich Currency Plan Says A. O. Crozier.

Cincinnati, Nov. 27.—"In accepting the Aldrich so-called central reserve fund plan the American Bankers' Association has solemnly joined with Wall Street in the most daring and most dangerous conspiracy against the general welfare of the people of this country that has ever been cooked in the greed and avarice of high finance."

In these scathing terms Alfred O. Crozier, financial authority and economist, denounced the action of the bankers' convention at New Orleans, and called upon Congress to save the people from the effect of "this evil compact." "Shall the control of the public currency be public or private? That is the issue. The Aldrich plan offers banks for their support the most colossal bribe of all history. With less than a billion and a half of clear cash assets the combined banking institutions loan and collect interests on fourteen billions of bank credit. It is a dangerously big business on a shoestring. It takes a pretty smart business man to run in debt 10 times what he is worth and not go broke. And now the Aldrich plan would take away from the Government and give to the syndicate of banks as a Christmas present \$1,000,000,000 of public currency to put in their reserves so that with relatively no extra investment the banks can collect interest on the loan back to the people at profit \$10,000,000,000 more business credit—mere financial wind. I have too much faith in the intelligence of the American people to believe that they will permit this outrage. Aldrich has had his inning and the people will have theirs now. Watch the opposition grow.

"They say the Aldrich plan will stop panics. What it will do is stop depositors, by being frightened by panics, into withdrawing deposits and thus forcing banks to reduce profitable loans aggregating 10 times such withdrawals. The money combine wants panics if the high financiers can fix it so that panics will not have their banks, because their money will yield higher interest rates and buy twice as many securities and more property and labor during a panic. The people are the losers from price-destroying panics, and they will lose doubly under the new scheme. We need legislation not only to make banks secure during panics, but prevent Wall Street from starting panic for profit. In private hands the Aldrich central bank can be used to cause squeezes and panics by making money suddenly scarce. The plan is for the banks and by the banks. It will be defeated."

Humble; Seven Springs circuit, supplied by R. E. Johnson; Snow Hill circuit, W. H. Moore; Straits circuit, supplied by L. B. Pattis-hall.

For Fair Association.

Does New Bern need a Fair? That is the question that has been asked for a number of years, and it was answered last week. There is no doubt that a Fair, if properly conducted, would be a great success at New Bern. A mass meeting of the citizens of New Bern will be held at the hotel house Friday night under the auspices of the Chamber of Commerce. Citizens will be invited to attend, and a big time is predicted all over the State. The purpose of this meeting will be to launch a movement that will mean a permanent Fair for New Bern. Now Mr. Citizen of New Bern, if you have any valuable suggestions, please call on the committee before they meet.
