New Bern, N. C. Dec. 3, 1911.

**THE SEASON OF CHARITY.**

The last month of the year, the season for giving to relative and friend some offering expressive of affection, it is also the season when the poor and unfortunate look to those blessed in material things and fortunate in their surroundings, for some relief. The poor and unfortunate are always to be found, always needing help, but in this month with its approach of Christmas and all the associations connected with that holiday period, charity seems to be more general and generous, the poor more numerous and the unfortunate more unhappy than at any other time of the year.

More than at any other time arises this question, what is charity? How many think that the payment to some association of money, the giving of food and raiment to some public institution, or to some organization, goods to be distributed, is all that is meant by charity. Doing this solves the question, and gives the person so acting a full credit for benevolence, a comprehensive charity the fulfills one's full duty as citizen and christian. But the holiday season is not merely food, raiment and shelter from the cold, though these are comforts that awake gratitude in the hearts of the destitute. There is the work of fellowship and cheer, the handshake of encouragement, that is worth more than money, for how often have such expressions from man to man aroused the sad and weary heart, and brought a flow of cheer that sent a man almost broken down, into the world's action to win success. It is the human side that calls for help, the kindly word, that is the spirit tonic to arouse and stimulate.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a good many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

**WOMEN**

Women of the highest type, women of superior education and refinement, whose discernment and judgment give weight and force to their opinions, highly prize the wonderful corrective and curative properties of Chamberlain's Stomach and Liver Tablets. Throughout the many stages of woman's life, from girlhood, through the ordeals of motherhood to the declining years, there is no safer or more reliable medicine than that which is so widely known as Chamberlain's Stomach and Liver Tablets. When your feet are not cold and your legs shiver through and through, when your nose is like a live coal and your eyes are watering, take a box of Chamberlain's Stomach and Liver Tablets. They will cure you.

**This is the Coffee Andrew Jackson Liked so Well**

ANDREW JACKSON

After his brilliant victory at Chalmette in 1815, Andrew Jackson led his troops past the old French Market in New Orleans and treated the officers and men to fresh, hot French Market Coffee. And in 1843, Henry Clay—at the conclusion of his eloquent speech at the great banquet in his honor—slipped away, with his friends, to the old French Market for a cup of the same famous beverage. Then you could get

**END STOMACH TROUBLE NOW**

All Distress From Dyspepsia, Gas, Heartburn or Indigestion Vanishes in Five Minutes.

As there is often some one in your family who suffers an attack of Indigestion or some form of Stomach trouble, why don't you keep some Diapiesin in the house handy?

This harmless blessing will digest anything you can eat without the slightest discomfort, and overcome a sour, gassy stomach five minutes after.

Tell your pharmacist to let you read the formula, plainly printed on these 50-cent boxes of Paper's Diapiesin, then you will readily see why it makes Indigestion, Sour Stomach, Heartburn and other distress go in five minutes, and relieves all such miseries as Belching of Gas, Eructations of sour, undigested food and Nausea, Headaches, Dizziness, Constipation and other Stomach disorders.

Some folks have tried so long to find relief from Indigestion and Dyspepsia or an out of order stomach with the common, every-day, cure advertised that they have almost made up their minds that they have something else wrong, or believe theirs is a case of Nervousness, Gastritis, Catarrh of the Stomach or Cancer.

This, no doubt, is a serious mistake. Your real trouble is, what you eat does not digest; instead, it ferments and sours, turns to acid, Gas and Stomach poison, which poisons in the digestive tract and infests, and besides poisons the breath, with nauseous odors.

A hearty appetite, with thorough digestion, and without the slightest discomfort or misery of the Stomach, is waiting for you as soon as you decide to try Paper's Diapiesin.

**BANK OF ENGLAND NOTES.**

Always Fresh and Clean, as They Are Issued Only Once.

There is as great a difference between the systems of issuing and redeeming the notes of the Bank of England and of the banks of the United States as there is in the appearance of the notes themselves.

The English note is somewhat longer and much broader than ours, is of rough white paper, with ragged edges, and is printed on one side only, with a few words and with no pictures or designs, while ours are completely covered on both sides with vignette and the work.

Our notes are issued again and again until they become so worn that they are no longer serviceable. A Bank of England note is never issued more than once. Every note that comes in is cancelled at once, and then it is stored away with other canceled notes to be preserved for a certain period, when it is destroyed by burning.

It takes many clerks to keep the record of notes issued and paid, and so accurately is this work done that the date when any note was issued, the person receiving it, the time when it was paid into the bank and by whom, can be ascertained from the books. If the time was within five years the note itself can be produced.

Many are the stories of attempts to counterfeit these notes, which have always been failures. As the average time between the issue and the payment of the notes is only five or six days the fact that a counterfeit is in circulation is known almost at once, and the system of English bankers and merchants of keeping the numbers of the notes received and paid gives the few wretched offenders is quickly apprehended. -Exchange
