The Furniture Man.

Several months ago we began pub-

lishing in each Sunday's edition of the Journal an installment of a serial story entitled "The Third Degree." From the time the first installment of this fas cinating and thrilling at ry appeared we were urged by our many readers to run the story in eath day's issue. However we decided not to do this at that time and at the conclusion of that particular story we began another, "Keith of the Border" which is now app-aring in the Sunday Journal. Recently we have reeeived so many requests asking us to run a serial in each day's issue of t'e Journal that we decided to do so. The, question then arose as to the proper story to secure. We desire to give our patrons the best that could be secured regardless of expens, and at the same time give them a story that would interest them from the first line to the finish. After looking over a large number of the works of the best writers we purchased that unusually thrilling and charming story "Toe Pool of Flame" by that well known author, Louis Joseph Vance. The first installment of this story will appear in next Wedre day's issue of the Journal and every man and women in New Bern should read it from start to ficish. The story peals with a priceless ruby which had been stolen from the eye of an Irdian I iol and of the many adventures of the men and woman who owned it. Through the story th re runs a line of romance that charms the reader in an inimitable manner. Of course there is bloodshed and intrigue but this help to make he nory one of the best ever written. In addition to this ' Keith of the Border,

which is now appearing in the Sunday Journal, will be continued. Remember the first installment of "The Pool of Plame" appears in Wednesday's issue of the Journal. Just Received
