

SUGGESTION TO CITY

BEAUTIFUL DEPARTMENT

The clean up day set for New Bern, March 11th by the City Beautiful Department of the Woman's Club, suggests the question, what disposal of the rubbish is to be made, so that in no form will there be a return of what is carried away? Civic cleanliness has in it both the carrying away of all that offends, and its disposition so that no fragment returns in dust, by odor, or through flies that rubbish heaps are so certain to breed.

The theory of the United States Army sanitary department is that all garbage, rubbish and filth should be burned. In maneuver camps of the army each company kitchen has a garbage pit, made by excavating a hole two by four feet in size and two feet deep, lining it with the loose rock, brick or some permanent lining, and in this pit burning all refuse. It has been found that no stench arises from such burning and that the solids are cremated and the liquids poured around the edges, are evaporated. Last year at San Antonio 20,000 troops for several months lived within a constricted space and had practically no illness, and no flies or smell from the regulation garbage pits used by all the troops.

Of course it could not be expected to operate on such a lavish scale for this city. The point is, that a thorough clean up of this city should be followed by keeping it clean by some method that would not prove too costly when health is considered, the price paid for it cannot be too great, and cleanliness is all important for a healthy community. And further, the thorough disposal of all that is gathered up is as essential as the gathering, so that it does not return in some shape to plague the people.

DEAFNESS CANNOT BE CURED

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitution remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are cured by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

Lady in Goodwater Describes Her Distressing Experience and Tells How She Was Finally Relieved.

Goodwater, Mo.—"Ever since I was a little girl," says Mrs. Riley Laramore, "I was a great sufferer from dyspepsia. I suffered misery after eating, and had terrible heartburn. I thought I had to suffer this way as long as I lived, but when I began to take Theford's Black-Draught, in small doses, every night, the heartburn was all gone in a few days, and I could eat without distress. I took two small packages in all, and although that was some time ago, my dyspepsia has not returned. I speak a good word for Theford's Black-Draught whenever I have the opportunity. If eating causes distress, we urge you to try Theford's Black-Draught."

CHAPTER XVIII—Betty is told why Norton was killed and leaves Belle Plain, taking Hannibal with her. The carriage is held up in the woods.

"I'll send him to you when he is ready to go home. I am thinking of visiting my friends in North Carolina, and I should like to have him spend as much time as possible with me before I start for the east."
 It had occurred to Betty that she had done little or nothing for the child; probably this would be her last opportunity.

The state of the Judge's feelings was such that with elaborate absence of mind he poured himself a second drink of whisky; and that there should be no doubt the act was one of inadvertence, said again, "My best respects, ma'am," and bowed as before. Putting down the glass, he backed toward the door.

"I trust you will not hesitate to call upon me if I can be of any use to you, ma'am—a message will bring me here without a moment's delay." He was rather disappointed that no allusion had been made to his recent activities. He reasoned correctly that Betty was as yet in ignorance of the somewhat dangerous eminence he had achieved as the champion of law and order. However, he reflected with satisfaction that Hannibal, in remaining, would admirably serve his ends.

Betty insisted that he should be driven home, and after faintly protesting, the Judge gracefully yielded the point, and a few moments later rolled away from Belle Plain behind a pair of sleek-coated bays, with a negro in livery on the box. He was conscious of a great sense of exaltation. He felt that he should paralyze Mahaffy. He even temporarily forgot the blow his hopes had sustained when Betty spoke of returning to North Carolina. This was life—broad acres and negroes—principally to trot after you, toting liquor—and such liquor!—he lolled back luxuriantly with half-closed eyes.

"Twenty years in the wood if an hour!" he muttered. "I'd like to have just such a taste in my mouth when I come to die and probably she has barrels of it!" he sighed deeply, and searched his soul for words with which adequately to describe that whisky to Mahaffy.

But why not do more than paralyze Solomon—that would be pleasant but not especially profitable. The Judge came back quickly to the vexed problem of his future. He desired to make some striking display of Miss Malroy's courtesy. He knew that his credit was experiencing the pangs of an early mortality; he was not sensitive, yet for some days he had been sensible of the fact that what he called the commercial class was viewing him with open disfavor; but he must hang on in Raleigh a little longer—for him it had become the abode of hope. The Judge considered the matter. At least he could let people see something of that decent respect with which Miss Malroy treated him.

They were entering Raleigh now, and he ordered the coachman to pull his horses down to a walk. He had decided to make use of the Belle Plain turnout in creating an atmosphere of confidence and trust—especially trust. To this end he spent the best part of an hour interviewing his creditors. It amounted almost to a mass-meeting of the adult male population, for he had no favorites. When he invaded virgin territory he believed in starting the largest possible number of accounts without delay. The advantage of his system, as he explained his workings to Mahaffy, was that it bred a noble spirit of emulation.

"He let it be known in a general way that things were looking up with him; just in what quarter he did not say."

CASCARETS WORK WHILE YOU SLEEP
 Salts, Calomel and Cathartic Pills are Violent—They act on Bowels as Pepper Acts in Nostrils.

Take a Cascaret tonight and thoroughly cleanse your Liver, Stomach and Bowels, and you will surely feel great by morning. You men and women who have headache, coated tongue, can't sleep, are bilious, nervous and upset, bothered with a sick, gassy, disordered stomach, or have backache and feel all worn out.

Are you keeping clean inside with Cascarets—or merely forcing a pass ageway every few days with salts, cathartic pills or castor oil? This is important. Cascarets immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the decomposed waste matter and poison from the intestines and bowels.

Remember, a Cascaret tonight will straighten you out by morning. A 10-cent box from your druggist means a clear head and cheerfulness for months. Don't forget the children.

 Of course you use an antiseptic in your family and in the care of your own person, and you want the best. To keep oral, nasal and bridge clean and odorless. To remove mucus from the teeth and purify the breath after smoking. To eradicate unpleasant odors by sprays, bathings.
 As a medicinal agent for local treatment of feminine ailments where pus, catarrh, inflammation and soreness exist, nothing equals but Pastine. For ten years the Lydia E. Pinkham Med. Co. has been regularly selling this antiseptic to the thousands of women who are suffering from these ailments. It is the only thing that does it.
 It made a great hit with the school and the hospital.
