THE MUNICIPAL

KEEP CLEAN HABIT.

Too many citizens took the clean up day declared for March 11th by the City Beautiful Department of the Woman's Club, in the same way that the boy accepts the soap and water bath, for that particular occasion only. This is to be seen in the streets and alleys today, which have resumed their old time untidy and unhealthy coudi-

tions. The City Beautiful Department had no doubt the idea for its clean up day for New Bern, that the sight of clean streets, alleys and premises would prove an inspiration to the people, so that there would be no relax movement, but a continuation of clean up days. One set day for municipal cleanliness will not fix the habit of municipal cleanliness upon this city. As for municipal cleauliness, it is not a matter of just sending about a few street sweepers, a few carts to gather up the large heaps of rubbish in the alleys, to take up the trash from boxes on the streets. The issue of being and keeping a clean city rests upon each and every citizen and property holder. When every man, woman and child safeguards every piece of paper, all kinds of trash and rubbish, that these never appear ip public places, there will be music- upon. Try it. Sold by all dealers. ipal cleanliness, and the city carts will serve to some good purpose, as being the conveyors of trash and rubbish that never has been thrown upon the public sight, therefore has not polluted the city, destroyed its charm that comes from real cleanliness.

When each and every person becomes an active factor in keeping back everything that may go out as heads of large enterprises are men become a public nuisance, there of great energy.
