Senator Simmons Introduces Bill to Appropriates Five Hundred Thousand Dollars to Begin Work.

Washington, March 27th.—Senator Simmons has been appointed a member of the subcommittee of commerce, to which the river and harbor bill has been referred. The subcommittee will take up the bill next Monday.

Senator Simmons introduced in the senate a number of amendments to the bill, among them being an amendment providing \$500,000 for the beginning of work on constructing a harbor of refuge at Cape Lookout; \$250,000 to begin the work of improving the Chesapeake and Albemarle canal which the government has contracted to buy; \$300,000 for the improvement of the Cape Fear below Wilmington; and \$20,000 for deepening the channel in Core Sound by way of Carrot Taylor through route.

Joe Pogue, of Raleigh, believes the Malvin bill, which would appropriate \$100,000 to provide for the encouragement of agriculture, horticulture and industrial exhibits in the various states, will become a law either during this session or the early part of next Congress. "If this bill becomes a law," said Mr. Pogue, "it would mean so much to the farmers of the country. It would mean that the North Carolina state fair would be run on a much larger scale and that the federal government would build a handsome building in Raleigh for the display of farm products."

Mr. Pogue says he believes all members of the North Carolina delegation in the House will vote for the measure.

Judging from the enthusiasm at the banquet given to representative Underwood by Governor Goldsborough and members of the Maryland legislature at Annapolis recently the Alabamian has many friends in Maryland, and it was real sentiment, too. There was not a "drop of anything stronger" than black coffee. Mr. Underwood impressed every one most favorably.

It is believed that Senator Simmons will leave Washington for Greensboro, where he will join Mrs. Wagner, who is ill at St. Leo's hospital.

The Patriotic Song of America and other labor and agricultural interests, with representatives at Washington, have ordered 15,000 copies for general distribution of Senator Simmons' speech on his educational test amendment to the pending immigration bill. The senator's speech appeared in Monday's Record. It covers nearly 14 pages of the Record, and is regarded as a thorough and exhaustive discussion of the question.

Senator Stephens, of Wisconsin, won the first round of the battle over the validity of his seat in the senate when by a vote of 29 to 27 a resolution by Senator Jones, of Washington, declaring the Wisconsin senator illegally elected, was rejected.

VOICE OF THE PEOPLE

WHY DOES SUCH A CONDITION EXIST?

Mr. Editor: A few Sundays ago the writer accompanied by a friend, visited across the Trent River county bridge, and really we were appalled at the state of affairs that existed near the foot of the bridge in James City. Drunken men, and even drunken boys, both white and black staggering around, cursing and blaspheming and without any restraint whatever making themselves a public nuisance.

We were informed by some of the best citizens of that little village that such was the state of affairs nearly every Sabbath afternoon. Many of the men and boys coming from New Bern for the express purpose of getting drunk, as whiskey was sold without fear of the law, and apparently with the full consent of those whose duty it is to prevent it. They also informed us they would be glad if the Sheriff would send a deputy over there to assist them in keeping order and to break up the selling of whiskey; and they would give every support in their power to any officer of the law who was sent to protect them from this outrage.

Now Mr. Editor this state of affairs is a menace to every good citizen, white or black is bound to deplore such a state of affairs. Now if it is allowed to exist sooner or later, and very likely sooner, there will be such a tragedy emanating from such lawlessness as will make every one of us cry aloud and ask "what has become of the law and of those who have sworn to enforce it."

Our fair name, our intelligence is at stake. Shall the Blind Tiger element rule, or will the good people get behind their sworn officers and make them enforce the law?

New York State's Primary Gives Regular Organization Big Majorities. Taft Rejoices.

New York, March 27.—Yesterday's State-wide Republican primaries for delegates to the Republican National Convention at Chicago, resulted in the election of organization candidates in practically every district where there was a contest, according to unofficial returns fairly complete.

Claims that at least 83 of the 90 delegates will be for Taft and not more than seven for Roosevelt, were made by State Chairman William Barnes, Jr. and John W. Hutchinson, director of the Eastern branch of the National Taft Bureau.

Chairman Charles H. Duell, of the Roosevelt city committee, declared that the primaries, characterized "by a complete breakdown of the election machinery had been a farce." He asserted that an effort would be made by the Roosevelt committee to rescue a real primary in this city with a full expression of Republican opinion.

"Governor Dix should be called upon to convene the Legislature in special session," declared Chairman Duell in his statement last night, "for the purpose of passing a Presidential primary law so that there may be an honest expression of the wishes of the voters. In no surer way could Governor Dix meet the wishes of the people."

Samuel S. Koenig, chairman of the Republican county committee, speaking of the organization, alluded only briefly to the operation of the new law.

"The primaries of the New York county gave the voters an opportunity to express honestly and accurately their preference for a Presidential nominee," Mr. Koenig declared.

County Chairman Koenig called the White House on the long distance telephone and told Secretary Hines that President Taft had swept New York county and that not more than three or four election districts had given pluralities for the Roosevelt nominees. The secretary said in reply that the President was much pleased that New York county had come to his support.

It was the first trip of the new primary law and the working of it had been looked to with special interest on this account. Ballots in many of the districts ranged from 10 to 14 feet and so great had been the haste to get them out that in some cases they were in sections, there having been lack of time to paste them together. The Democrats who elected delegates only to their State convention and members of organization committees had little trouble, but Republican and prohibition voters in some instances were unable to vote. Notwithstanding the confusion there was no disorder of importance, voters venting their complaints in ridicule of the primary system.

Buster Brown Last Night.

Buster Brown held the boards of the Masonic Theatre last night. The house was about half filled, and after the first act at least one half of the audience returned home. The voices of the members of the chorus reminded one of the chorus that one finds on the midway in the "Mysteries of Egypt" and the costumes looked as if they had come over in Noah's ark. Taken as a whole the entire show was one of the "rottenest" that has come to New Bern this season.

No Room For Rabies.

A disappointed young boy blew into the city yesterday morning ignorant of the fact that the presence of "gentry" of this class is not desired here, and shortly after his arrival walked into the precincts of one of the local police. Yesterday afternoon he was told to either return to his home, either instantly or become a inmate of the county jail. Needless to say he left the city without further delay.

From early returns and claims by the different managers of the New York primary election, the delegates to the Republican National Convention, Taft seems to have swept the state, the vote being in a ratio of 2 to 1 against Roosevelt.

"You may be sure," said the thread to the needle, "but I neither see nor hear anything of it."

"Oh, I don't think," answered the needle, "I notice that whenever you get in a hole I have to get you through."

"Hush up you fool," cried the thread, "if it wasn't for my RUBBER I would neither of you be along."

Then the thread said to the needle, "And they are both doing the right thing by not coming to me."
