NEW BERN, N. C.

TEACH THE CHILDREN TO SAVE.

PEOPLE sometimes think that the bank does not receive the savings deposits of children, but this bank cordially welcomes children's accounts, and its officers are always pleased to explain any matters relating to the keeping of an account. One of the best things that you can do for your boy or girl is to start a savings account. Additions can be made from time to time and habits of economy, prudence and thrift will be gradually acquired by the child who has a savings account with this bank.

WE ALSO INVITE YOUR ACCOUNT SUBJECT TO CHECK.

GENERAL ORDER FOR ENCAMPMENT

Locations Named For Encampments of North Carolina Troops.

Raleigh, N. C., June 1.—Adjutant General R. L. LeMaster, of the North Carolina National Guard, issued yesterday the general order for the Guard encampments and other events for the Summer. First there will be the Second Infantry encampment at Camp Glenn, Morehead, July 2nd to 12th. Then the Third Infantry will go to Anniston, Ala., for training with regular troops July 15th to 18th. The First Regiment will encamp at Camp Glenn, Morehead, July 14th to 25th. There will be a practice march by Troop A, Cavalry, July 22nd to 25th, this being the Coast Artillery will be at Fort Caswell, below Wilmington, for special training with regulars in coast defense August 5th to 15th.

United States Judge H. G. Connor, in the Federal Court gave warning to United States Commissioners of his district that he will not condone the practice of trumping up cases for making or selling whiskey where it appears that the State courts, magistrates or higher courts have had the defendants before them for the same offense. "I want it understood," he said, "that this court will in no way review a case in which the State courts have taken action." He said that numbers of cases are coming up in which the motive seems to be to use the Federal Court to further harass defendants. C. E. Stinson was on trial for selling liquor at Bear Creek, between Wilmington and Greggboro and it not only appeared that the State court had tried the case, but there was nothing in the case beyond the fact that a friend had wanted some brandy he had and Stinson refused to sell it and then the friend had taken the brandy and left money and so one seemed to know what went with it. The case was dismissed.

Suffragist is Sent To Jail; Beat Husband.

Binghamton, N. Y., June 1.—Mrs. Mary Dubal, of this city, is believed to be the first suffragist in the United States to be given a penitentiary sentence for husband-beating.

She was arrested on a warrant obtained by Mr. Dubal, who complained that in a fit of rage she gave him a good beating. City Judge Albert Hotchkiss found her guilty and declared that if women desired men's prerogatives they should have men's punishment when found guilty of violation of law. He always dealt severely with wife-beaters, he said, and accordingly he sentenced her to three months in the penitentiary.

Fire at Winston Salem.

Winston Salem, N. C., June 1.—Fire had led to have been of incendiary origin Saturday damaged the five story brick building and job printing plant of Stewart Bros., in the heart of the city. The conflagration is being investigated by the State Insurance Commissioner W. A. Scott. The building and plant was valued at \$45,000 and was insured for \$45,000.

Coffee Poisons Over Fifty People.

Mobile, Ala., June 1.—Over fifty persons are suffering from poisoning as the result of eating a luncheon prepared by the local patriotic organization. The coffee, it is believed, was responsible. The lunch in which it was prepared is in a restaurant here for analysis. Some of the victims are seriously ill.

WEEKLY COTTON MARKET REVIEW

Mixed Crop News But Prices Hooped. Speculation Small.

New York, June 1.—In cotton prices have shown more tendency to recede, owing to more favorable crop reports at times. Still the weather and crop news has cut both ways. Early in the week the yamers' report putting the condition as high as 75 per cent, when everybody had been looking for about 70 per cent, was a wet blanket for the market. It sent prices down sharply. Also there were some favorable reports from Texas, Arkansas, Oklahoma and parts of the eastern section of the belt. Good stands are reported in Texas and other parts of the belt. But later on a new factor came up. It was dry, hot weather over a large portion of the belt. These new conditions were rather startlingly indicated in the last weekly government report, which shows that over a large tract of cotton country temperatures had been abnormally high and the rainfall abnormally low.

The fact that there was a little rain during the past week accounted for the rapid recovery of prices, after the depression following the publication of the National Ginners' report last Monday. Cotton goods have not sold so freely. Manchester reports have not been so buoyant a character as they were some time ago. The speculation here has flagged. At times well known interests with extensive Southern connections have been selling very freely. Some of the spot people have sold to a certain extent and the same is true of commission houses in and out of Wall Street. On the other hand the late hot dry weather in Texas and other parts of the belt, including the Atlantic section, has had a stimulating effect on the market. The shorts have covered with precipitancy. Some of the large Wall Street and spot interests have bought to some extent. Southern interests which at one time sold have lately been buying. Finally the buying by spinners has been a noteworthy feature. It has encouraged the bulls and a little everybody is now awaiting the government report of June 14. Norden puts the condition at 78.5 per cent, with an average reduction in the average of 7 per cent. This caused moderate selling.

Would Raise the Doomed Titanic.

Fishkill Landing, N. Y., June 1.—John Marcus, a hatter, employed in a hatter's shop, declares he has a plan by which the Titanic can be raised. He claims that the ship sank in 16,240 feet of water, and that the ship's weight is not sufficient to bear it to the bottom of the sea. Marcus thinks the ship is floating about half way down.

On all ships there is a balance wing below the waterline at an angle of 45 degrees. These wings extend the entire length and keep the ship on an even keel. His idea is to lower four highly magnified grab hooks from two barges with derricks on them. When the hooks come near the hull the magnetism will attract them. Nine times out of ten, Marcus says, one of the three arms of the grab hooks would catch the wing. He would then draw up the ship a certain distance, without taxing the cables too much. As it becomes heavier, because of lost buoyancy, he would reinforce the cables.

What he would then do he refuses to disclose, claiming his idea is worth considerable money. Marcus is sure he can bring the Titanic to the top. All he lacks, he says, is financial backing.

NEW GENERAL NOW IN CHARGE

Fate of Cuba Believed to Rest With Him and His Course is Being Watched.

Washington, June 1.—General Moragudo, who arrived at the front as commander-in-chief of the Cuban general forces is being closely watched here. His success or failure is expected to forecast the Federal government's ability to cope with the situation.

Should rebel bands continue to attack foreign property it is possible the United States will send a fleet of small vessels to various points bordering the rebel zone to have the marines ready for immediate action.

In army circles here failure of the Federal force to make headway against the rebels is believed to be due to the fact that the government forces were compelled to place themselves on the defensive by dividing up and attempting to furnish small detachments to many foreign properties which are demanding protection. Positive assurances have been received from the Cuban government that a force of Cuban troops was sent to guard the property of the Spanish-American Mining Company at Dalquiri on the south coast of Oriente, near Guantanamo.

Havana, June 1.—The government declares it has no news from the front, and does not expect an important movement until tomorrow.

Hampton's Magazine Ceases Publication.

New York, June 1.—Hampton's Magazine has suspended publication and the June number will not be issued. The company which was organized after the failure of the consolidation of the first Hampton's and the Columbian Magazines last fall, found it had no money to continue the business and the directors decided to ask for a receiver in dissolution. One of the losers in the magazine is Speaker Champ Clark, who is said to have invested \$4,000 in the publication.

Gun Stopped Elopement.

Houston, Tex., June 1.—Lloyd Jackson's mode of paying court led to a killing yesterday according to a statement by Miss Hazel Moody whose father faces a murder charge. Jackson was killed by Miss Moody's father after the young man had eloped to the second story of the Moody home and engaged Hazel in conversation. In his dying declaration Jackson said he and the woman were about to elope when a bullet from Moody's gun upset the romance. The girl denies this. Moody's trial is set for Monday.
