Drainage Engineer Tells of Deals in North Carolina.

Washington, June 6.—J. O. Wright, now a drainage engineer for the State of Florida, before the House committee investigating the so-called Florida overglades charges yesterday, told of his private land deals in North Carolina with a drainage engineer in the Department of Agriculture. Wright admitted that he accepted stock and negotiated with certain North Carolina land companies and the State of North Carolina without telling his superiors. He said he got \$5,000 stock in the Albemarle Development Company from J. N. Wilkinson of Beilhaven, N. C., and in return drew up a plan reclaiming the land and placed \$14,000 in stock.

Wilkinson came to him in Washington, Wright said, accompanied by Representative John Small of North Carolina. After their conference, he was offered \$5,000 and Representative Small \$1,000 in stock for his legal service. Wright told of a "deal" with John Seip of Chillicothe, O. at Moyock, N. C., in which he was promised \$7,500 for his advice. He did not tell his chief of the offer and never got the money.

The State of North Carolina offered him \$5,000 to sell Lake Mattamuskeet in the dismal swamp, he said. In this he got \$1,250, of which his superiors knew nothing. He also engaged himself in the Lake Mattamuskeet scheme on a contingent interest of \$40,000.

At Wilson, N. C., with Lawrence Brett, another employee of the Department, Wright went into a drainage deal, which he testified cost him \$2,200 and Brett \$9,000.

It was reported that the boy was bleeding at the mouth and ears when he was picked up by the officer.

Begin Probe on the Money Trust.

Washington, June 6.—The money trust investigation will begin in New York this morning. A process server left for New York yesterday armed with several subpoenas. Mr. Pujo declined to make public the names of those who will be called. The first subject of investigation will be the relations of banks with the New York Clearing House and with banks in other sections of the country. The committee will also seek to discover the mutuality of interest of the banks, clearing house and New York Stock Exchange.

The first witness, it was learned just before the committee left for New York, probably will be A. R. Hepburn, president of the New York Clearing House. The hearing is to be held in the customs house and the investigation into the relation of the clearing house with the banks and Wall Street is to be pushed deeply.

MARINES GO TO EASTERN CUBA

President Gomez Unable to Meet Foreigners' Demand For Protection.

Washington, May 6.—Frank confession of President Gomez that he was unable to meet the demands of the large plantation owners in Eastern Cuba for adequate guards against the marauders and insurrection, was the factor that yesterday led Captain Kline, commanding the United States naval station at Guantanamo, to set in motion the body of United States marines gathered there for just such a purpose.

Captain Kline's action in dispatching nearly half of his available force of marines into the interior of Cuba gave the signal for the departure from Key West to Guantanamo of half of the second squadron of the Atlantic fleet which had been lying at anchor at Key West for the last week.

The facts as disclosed at the State Department are that several of the large American, British, French and Spanish companies operating plantations and mines in Eastern Cuba, telegraphed the Cuban government through the Alcades of Guantanamo, a demand for 100 regular troops for each of their mills and 50 for each of their cane fields. In reply President Gomez pointed out that a compliance with their request would require the use of 1,250 of his best troops for the protection of one group of foreign properties in a single section of the disaffected district. If he acceded to such demands, he said, his whole army would not suffice for police work alone and he would have no forces left with which to carry on the campaign against the insurrectionists.

Chairman Mack Confident.

New York, June 6th.—"The Democratic party has several candidates for the presidential nomination and any one of them is strong enough to defeat either Taft or Roosevelt," remarked Norman E. Mack, chairman of the Democratic National Committee, while here on a flying visit.

"If half of what Taft and Roosevelt are saying about the Republican party is true, then that party ought to be indicted by the grand jury," said Mr. Mack.

"This country has never witnessed such a spectacle as has been given by President Taft and Colonel Roosevelt in the last two months.

"The American people have made up their minds to kick the Republican party out of power, and it doesn't make any difference whether they nominate Taft, Roosevelt or a dark or brown horse."
