ARRAIGNS HEAD
OF TREASURY

Assistant Secretary Andrew Re-
signs and Tells
Tales.

Washington, July 4.—A. Platt An-
drew yesterday tendered his resignation
to President Taft as assistant sec-
retary of the Treasury.

In a spirited letter to the president,
Dr. Andrew writes of conditions in the
treasury department which are alleged
to be due to the attitude of secretary
MacVeagh toward many of his subordi-
nates.

Assistant Secretary Andrew's letter
of resignation charges that subordinates
in the treasury department "have been
hampered and discouraged at every
turn by Secretary MacVeagh's idiosyn-
crasies and his incapacity for decision."
It contains a scathing arraignment of
Secretary MacVeagh's administration of
the government's financial affairs and
created a profound sensation in official
circles.

One portion of Andrew's letter to the
president is susceptible of being inter-
preted to the effect that other high of-
ficials in the treasury are dissatisfied
with Secretary MacVeagh's treatment
of them.

"For further evidence of the peculiar
difficulties which surround the handling
of business in the treasury," he sug-
gests that President Taft consult Law-
rence O. Murray, Comptroller of the
Currency; Lee McClung, treasurer of
the United States; Joseph E. Ralph,
director of the Bureau of Engraving
and Printing; Charles A. Kram, auditor
for the post office department; Royal
E. Cabell, commissioner of internal
revenue; James K. Taylor, former su-
perintending architect, and Charles D.
Norton, Dr. Andrew's predecessor and
former secretary to the President.

War on Coal Dealers.

Milwaukee, Wis., July 4.—Milwau-
kee's crusade against wholesale and
retail coal dealers who have raised the
price of coal 25 cents a ton since the
settlement of the miners strike is to be
extended and made an issue in every
other city where the price has also gone
up.

It is learned here that coal in the
cities is at a much higher price than in
the country, being sold fifty miles from
Milwaukee 50 cents cheaper than here,
where it is unloaded from lake ships.
The Interstate Commerce Commission
has been interested in the Milwau-
kee complaint and has promised an in-
vestigation upon a formal complaint
being filed. This will be authorized by
a resolution to be introduced at tomor-
row's meeting of the City Council.

Bolt Kills Woman and Cow.

Minneapolis, July 4.—While Mrs.
Carl Nord, aged eighteen, stood in a
barn door on a farm near here yester-
day watching her husband milking, a
bolt of lightning killed the woman and
cow. The latter fell on the man, pain-
fully injuring him. The couple had
been married but three months.

Money for Encampments.

Washington, July 4.—The senate
agreed to the joint resolution appro-
priating \$1,350,000 for the encampment
of the organized militia of the states.
The resolution now goes to the pres-
ident.

Divide Immigrant Travel.

New York, July 4.—All railway lines
which participate in maintaining the
joint ticket agency at Ellis Island share
equally in the business of transporting
immigrants to their destinations, and
in all instances where tickets cost more
than \$2.50 the railways pay a 10 per
cent commission to the steamship lines
for such business, according to testi-
mony of C. C. McCain, chairman of the
Transit Line Association today. He ap-
peared at the hearing of the govern-
ment suit against the "shipping trust"
as alleged to be constituted in the busi-
ness of the North Atlantic conference
on steamship dealers.

The immigrants do not choose the
railway lines they take and are not
even consulted in the matter, the wit-
ness admitted. The hearing adjourned
to Tuesday next.

Local Firemen's Tournament Held
Yesterday Proved To Be A Big
Success. Atlantic Com-
pany's Horse Hurt
and Not in the
Race.

Yesterday was a big day with the lo-
cal fire ladders. For weeks they have
been practicing hard for the races
which were to be held and when at last
the day arrived all of the companies ex-
cept the Atlantic team were in fine
trim.

A few days ago the Atlantic Com-
pany's horse accidentally broke out a
number of his front teeth while biting
on a wheel of one of the wagons and
since that time has been under treat-
ment. However, the team decided to
use "Fred," another horse owned by the
company but which was not in the same
class with the other animal at all.

The races had been scheduled to be-
gin at 3:30 o'clock, but it lacked but a
few minutes of four when the track
was finally cleared for action. The first
race was a dry race. In this no water
was used, the time being taken from
the time connections at both ends were
made.

The following time was made by the
companies participating.

Fourth Ward—Ruled out.

Button—24 1/2.

Atlantic—26 3/5.

Sixth Ward—28 1/3.

In the second race water was used.
In this race the Jinx still pursued the
Atlantics. The driver came too near
the hydrant and the rear of the wagon
struck it, delaying them so that they
were ruled out. The Sixth Ward com-
pany also failed to make connection
with the hydrant and they, too, were
ruled out. The Button company's time
in this race was 29 1/2 seconds while the
Fourth Ward company made the run in
30 1/5 seconds. There were four cash
prizes and the Button company was
awarded three of these while the Fourth
Ward Company carried off the remain-
ing one.

The races were witnessed by a large
number of people and each one seemed
to be well satisfied with the entertain-
ment they were receiving for the small
amount of money they had expended
for admittance to the course.

Allen Trial-Halts.

Wytheville, Va., July 4th.—Proceeed-
ings in the second trial of Claude Allen
were brought to a sudden halt yester-
day when one of the jurors, C. T. Bris-
coe, was stricken with an attack of
acute indigestion. It is thought that
the juror will be well enough by tomor-
row for the trial to proceed.

Opening statements were made by
the Commonwealth and the defense yester-
day, and one witness, Judge D. W. Bol-
den, examined. Bolten repeated the
statements made by him at the former
trial of Claude Allen, saying the young
man fired the first shot and that was
the one that killed Judge Massie. No-
thing new was brought out.

His System Upside Down.

Paris, July 4.—A curious discovery
has just been made on board the French
cruiser Patrie. A young stoker, Albert
Cassan, aged 23, came to the doctor
and told him that he suffered from pal-
pitations of the heart. Quite natural-
ly, the man accompanied his words by
a gesture, but to the doctor's great as-
tonishment, it was to his right side
that he pressed his hand.

"But your heart is in your left side,"
he protested. Cassan, however, insis-
ted that his heart was on the right
side, and finally the doctor examined
him, and discovered, not only that
this was actually the case, but that the
man's whole system, heart liver, stom-
ach and spleen were reversed.
