**BABY PROTECTOR**

COMFORT AND REST FOR THE BABY  
PEACE FOR THE MOTHER

**THE ORDINARY HOUSE FLY**

IT IS NOT merely a nuisance, as is commonly supposed, but a dangerous pest which should be avoided as the plague. His body and legs are covered with thousands of fine hairs and his feet are especially adapted for collecting disease germs. The number of germs that have actually been found on him ranges all the way from two hundred and fifty to six million. He is built to carry deadly germs both inside and out.

He transmits Typhoid Fever, Tuberculosis, Summer Diarrhoea of children, Croup, and Injurious Worms, and carries acute contagious diseases, such as Small Pox, Diphtheria, Scarlet Fever, Chicken Pox, and Measles. In fact, all the germs known to produce disease have been discovered on the fly's body and in the fly specks.

**"DEATH TO THE FLY—SAVE THE BABIES"**

Knowing that the house fly is in reality the deadly enemy of human beings, it is the solemn duty of mothers to see that their little babies are protected from his disease ridden touch.

**"WESTBROOK" BABY PROTECTOR**

will bring joy, rest and a sense of safety to thousands of mothers this summer. It is no easy task to sit through the warm months with a baby requiring sleep and brush the flies away. It isn't quite reasonable either, to cover it from head to foot, depriving it of the full benefit of fresh air.

THE WESTBROOK BABY PROTECTOR is a patented article, which saves the problem.

**ITS MANY USES**

The uses of the Protector are many. It serves its purpose equally well whether the baby rests on a bed, on a couch, on a blanket or a quilt on the floor, in the open air of the porch, under the shade trees, or in summer houses.

**FEDERALS STILL FIGHTING HARD**

Government Forces Now Have the Most Advantageous Position.

At General Huerta's federal headquarters, Beshimba, July 4th—Eight hours of hard fighting gave the government forces the advantageous position they now hold, and when the fighting resumed tomorrow General Huerta believes he will have no difficulty in forcing the entire rebel army from their mountain stronghold.

The government army made a great showing, said General Huerta as he moved his box-car telegraph office into Beshimba station at ten o'clock last night, a place only yesterday held by the rebels.

Tomorrow at daybreak, he declared, his federals will renew the attack. Two bomb throwing machines were captured from the rebels and several prisoners were taken. Casualties are unknown tonight as the battlefield has not been examined, but as most of the fighting was long range it is not believed the losses will be heavy on either side. Unless General Orozco on account of a scarcity of ammunition has withdrawn his forces northward as has been reported here, it is probable that tomorrow's fighting will be decisive.

Appropriation for Militia Invalid.

Washington, July 5.—The whole executive program for the joint encampment and maneuvers of the regular army and the national guard, which began today, came near being suspended through omission in the enrollment of the act of Congress providing for the exercises.

In the haste of the legislators the law bore the usual initial declaration, "by the senate and the house of representatives of the United States." But the words "of America," which should have followed, were omitted and the act thus was made invalid.

The war department law officers, however, discovered that the appropriation for the maintenance of the regular establishment might be used to a limited extent for about two weeks to defray the expenses of the troops, and before the expiration of that time Congress is expected to correct the error.

**Hard on the Governor.**

Even if governor Kitchin should succeed in his effort to prove Senator Simpson was not fit to succeed himself in the senate would he not have to go all over the state again to prove that he himself was fit for the job? The Governor dwells at length on records. He has been in office 16 years and if he has a record of large achievements, even bi-stanishment supporters have failed to produce it. In the governor occupying all of his time in attacking his opponent in order to keep the public eye away from his own record? It begins to look that way—Concord Times. (Democrat.)

**Women Patients Escape.**

New York, July 5.—While it was being set down from the top floor of the Pathological Institute, a hospital and library building on Ward's Island, in the East river, late last night, 300 women patients were safely removed from the structure. Excellent discipline was maintained and no one was injured. The three story brick building was completely destroyed.

**Many Ships Built by the Americans.**

Washington, July 4.—American shipbuilders completed 225 vessels of all descriptions during the month of June. Most of the craft were of the small wooden steamer variety and total gross tonnage for the lot was only 31,300. Nine first steam vessels were turned out, the largest being the Rainier, of 4,184 gross tons, built at Oregon for the Standard Oil Company, and the Dan, of 1,085 gross tons, built at Berwick, Wash., for the Seattle Commercial Company.

**TRAIN CRASH; MANY KILLED**

Lackawanna Express Crashes Into Passenger Train, Thirty-five Dead.

Corning, N. Y., July 5.—Thirty-five passengers were killed and 40 injured when an express train crashed into the fast westbound Lackawanna passenger train No. 3 two miles east of this city yesterday morning.

The passenger train, which came from New York to Buffalo, had been standing on the track for 20 minutes when the express train, which carried 100 passengers, struck it in the rear at full speed.

The two day coaches, attached to the rear of No. 9, were hurled down an embankment and the express ploughed its way through the rear Pullman car, shattering it before it came to a stop.

The collision occurred at 2:30 o'clock. Most of the killed were passengers in the day coaches, who were returning home to spend the Fourth.

On account of the confusion and the lack of wires the news of the disaster was slow in reaching here, but by 9 o'clock physicians were on the scene and the injured brought to a hospital here.

At 8 o'clock a number of the injured were still pinned under the wreckage and their groans and shrieks could be clearly heard.

At one time there were 60 persons, many of them fatally injured, lying on the floor of the emergency room at the local hospital. Every undertaker in Corning was called to help care for the dead, but the wagons were first pressed into service to carry the injured to the hospital.

The place where the wreck occurred was a straight stretch of track. So far as can be ascertained, the engineer of the express train had no warning that the passenger train was in his way.

The crowded passenger train was held up by a break in a freight train on the track ahead. No. 11 came along at the rate of 60 miles an hour. William Spaver, the engineer, failed to see the stalled train ahead because of a dense fog that prevailed at the time. The engine crashed through the observation car and telescoped three coaches ahead.

**C. W. MUNGER.**

All that was needed of the late C. W. Munger was laid to rest in Cedar Grove Cemetery last evening. At Centenary Church services were held, over which Revs. J. S. Harley and R. C. Bosman, the two pastors and close friends of the deceased, presided. The funeral tokens were beautiful and in profusion. The music by the choir and the remnant talks by the pastors created a profound sympathetic interest in the hearts of the great concourse present.

It is seldom he said that a community loses so distinctive a loss in the death of a citizen, the citizenship may be prominent and even influential, as does New Bern in the passing of C. W. Munger. This community of interest felt for Mr. Munger, was commercial, industrial, religious, no citizen was personally and individually so financially interested and in so many different ways business concerns, as he. Every man of pronounced financial standing solicited for help. Mr. Munger was and the difference between him and most others, he took some stock, put in some money, when the appeal was shown, at least prospectively good, and the prompt would be helped and this in a quiet way, for Mr. Munger, however keen in trade affairs, was very quiet in personal dealings. This self-help so generously extended to so many by Mr. Munger is best known and most felt by the recipients, to whom much for the city and its people, and the absence of this man will be felt by many.

**PLANTERS WILL GO OPERATE**

With the Department of Agriculture for Introducing New Methods.

Washington, July 5.—The anxiety of planters of the South are anxious to operate with the Department of Agriculture in the efforts of the government to introduce better methods of handling and marketing cotton, led Secretary Wilson by Charles J. Bland and W. A. Sherman, who have just returned from an extended reconnoissance trip through the South and Southwest.

The relative weakness of the cotton growing interests, said Mr. Bland, is their lack of organization. The government will endeavor to organize them for better returns in the commercial quantities. This is hoped to overcome the difficulty through the organization of cotton growers' associations, all of whose members will give a variety of cotton, which investigations of the department have shown best adapted to their conditions. The department contemplates actual demonstration in handling and marketing in the most direct manner practicable.

The New England and Southern spinning interests have expressed their interest in the new work. In the Imperial valley in California, where cotton has been grown commercially only for three years, the growers already have organized.

Similar organizations are getting together in other states.

**My Dixon.**

Last Wednesday morning United States Deputy Marshal Samuel Lilly of this city and Miss Mary Dixon, of Moberly City, were united in the holy bonds of wedlock at Beaufort, Rev. J. H. McCracken, of that place presiding over the ceremony. Mr. and Mrs. Lilly will make their home in New Bern.

**Thanks of Congress.**

Washington, July 5.—The thanks of Congress are conveyed to Captain Arthur H. Rostron and the officers and crew of the liner Carpathia for their rescue of 704 survivors of the Titanic in a Senate bill passed by the House today. The measure now goes to President Taft for signature. In addition the bill provides for a \$1,000 gold medal or Captain Rostron which, in language of the bill, shall express the high estimation in which Congress holds the services of this officer, to whose promptness and vigilance was due the rescue of 274 women and children and 330 men.

We are showing some beautiful Pictures—CHEAP TOO. New Bern Furniture Co., Phone 128, 76 Middle St.

**Postal Savings Bonds.**

Washington, July 5.—Secretary MacVeagh prepared to issue \$854,860 in postal saving bonds to depositors in the postal banks who wish to convert their savings into 20 year 2 1/2 per cent. bonds.

The new issue is the third of the series and will bring the total savings bonds outstanding up to \$2,814,149. It is estimated that the total savings deposits have reached \$20,000,000.

**Navvies Men Under Civil Service.**

Washington, July 5.—An thousand navy yard mechanics will pass under the protection of the civil service law when President Taft signs the executive order now being prepared by the navy department officials in conjunction with the civil service commission.

Theoretically these men have been shielded against the uncertainties of political changes by a system of regulations governing the employment of boards in navy yards and stations but these men were subject to change or dismissal at the will of the person who might be at the head of the department and lacked the binding force of the law.

The men now in the yards are not to be required to hold government positions, but new comers will be subject to all navy practical tests and must also pass physical examinations. It is guaranteed that anyone losing work under the new law must place his name at the very bottom of the roll of eligibles as a desirable deterrent to strikes.
