GOVERNOR WILSON TALKS ON TARIFF

Says the High Cost of Living is the Burning Question of the Hour.

Sea Girt, N. J., July 8.—Governor Wilson has expressed the opinion that the high cost of living is the burning issue of the hour and that "at its heart lies the high protective tariff." He said it is the issue he will cover fully in his speech of acceptance and in every campaign speech he will make. The tariff lies at the heart of it all. Wilson believes the many most questions have arisen out of the tariff.

"Do you intend, Governor, to take off your coat and go to the mat with Roosevelt?" Wilson was asked regarding his probable tariff fight. "That sounds terribly strenuous doesn't it?" commented the Governor laughing. He said the matter would be fully covered in his acceptance speech, but could not now indicate what he would say. "I want time to organize my thoughts," said he. He said the most interesting part of his mail today were contributions. He said: "There are a dozen letters containing checks of from five to one hundred dollars. That pleases me greatly, because it is my idea of the right kind of campaign. I think contributions should come in small amounts from unsolicited sources." Governor Wilson displayed a letter from Senator Bankhead, of Alabama, assuring him of the enthusiastic support of Underwood and all of his friends. Underwood says: "After the battle we found no dead to bury. We are ready to pursue the enemy and will follow you in the thickest of the fight." James Hamilton Lewis, of Chicago, writes: "I am one of the men who will aid in bringing you the electoral vote of Illinois, Indiana and Iowa." Chairman Jam. S. of the Democratic convention, is expected here to arrange with Wilson, for the formal notification date. It will be set for near August 1st.

Kills Four and Ends Own Life.

Dawson, Iowa, July 8.—Eugenio Vaglio, 45, aged 45 years, yesterday killed his brother, John Vaglio, proprietor of the Central Hotel; his brother's wife and their two children, Rosa, aged 16, and Christina, aged 9, and then committed suicide.

Eugenio Vaglio was infatuated with his niece, Rosa and had been forbidden by her parents to enter the house. The murderer went to the hotel with two pistols and a dagger. He found Mrs. Vaglio in the kitchen, followed her to her bed room and shot her there. The husband was killed in bed. Christina rushed to the door and was shot down and Rosa was slain in bed. The murderer then cut his throat and blew out his brains.

RED MEN WILL MEET

Second District Members to Hold Pow Wow at Morehead City. Elaborate Program.

The following letter received by us yesterday with a request for publication will explain itself:

To the members of the 2d District Improved Order of Red Men, North Carolina.

Dear Brother:—I call your attention to the 2d District meeting of the Red Men, to be held at Morehead City on Tuesday, August 13th, at 8:00 p. m. on the Atlantic hotel. If you come in on the afternoon train, you will reach the Atlantic hotel by 7 o'clock, and have plenty of time for supper. The convention hall is on the second floor of the Atlantic hotel.

Now a few suggestions to each member: Try to be on time, and we will get a long session. After the meeting there has been suggested to have a war dance on the ball room floor at the Atlantic hotel in our Indian suits. This will be a fine thing, and I am sure will call a large crowd, and will do the Order good in this part of the State. I would like for each of you to bring your suit. The North Carolina State Guards are now in camp, and I am sure there are lots of Red Men with them, and we invite them to join us. We have secured a sapphire launch for July 10th to take you down fifteen miles to a pony penning, and we want each Red Man, who can, to go on this trip. We will return in the afternoon and take you over to the beach for a bath in the Atlantic ocean. At 8 p. m. we will go over to Beaufort with brother Goodwin, our G. C. of R., assisted by Chittawa Tribe No. 14, of New Bern, and will institute a Tribe there, and we will return to the Atlantic hotel by 11 o'clock. Now, Red Men, come, and we will have a good meeting. Let each member talk this up and tell all. Please write me by return mail if you think you can come. Hoping to see you one and all at our District Meeting, July 9th.

Yours in F. F. & C. J. W. WILLIS, JR., D. D. G. S.

The floral tributes were very beautiful and attended the casket in which Mr. McLacklan was held. The pall bearers were Messrs. A. E. Ribbard, Thomas Daniels, S. M. Brinson, D. F. Jarvis, L. H. Cutler and S. M. Brinson.

Hanged in Effigy.

Flourished His Revolver, Gets Arrested.

While the Atlantic Coast Line train was enroute from Wilmington to this city Sunday night Harry Huff, of this city caused consternation among the passengers by cursing and threatening to use his revolver which he was flourishing around in the car. The conductor finally succeeded in placing the unruly passenger under arrest and locked him up in the baggage car. On the arrival of the train in this city he was turned over to a policeman. Later he was required to give a bond for his appearance at a preliminary hearing tomorrow.

MANY INJURED IN SOUTHERN WRECK

Engineer Killed and Fifty Passengers Hurt in Collision at Greensboro.

Greensboro, N. C., July 8.—Engineer Thomas G. Beach, of Alexandria, Va., was fatally injured and more than 50 passengers more or less seriously hurt when Southern Railway limited train No. 36 from Atlanta to Washington, collided head on with a freight engine on the local yards at 8:40 o'clock Saturday afternoon.

Engineer Beach died at the hospital. The wrecked train carried between 350 and 400 passengers, and was running at terrific speed when Engineer Beach applied the emergency brake, 150 yards before the crash and jumped from his cab. His steerman jumped and escaped with slight injuries. Of the passengers and crew, the more seriously injured are J. M. Small, conductor, Spencer, N. C., rib broken and contusion on shoulder; J. E. Long, Atlanta, Ga., forehead cut and serious abrasions on shoulder and knees, also suffering greatly from shock; R. C. Springs, ticket collector, Asheville, back, arm and legs bruised; Mr. and Mrs. B. C. Craven, and daughter, Kitty, of Danville, each suffered severe cuts and bruises; E. D. Brooks, Greenville, S. C., bruises on side and fractured rib, Ed. S. Goodman, Richmond, Va., face cut and neck strained; Isaac Delilly, negro cook on diner, Washington, D. C., serious burns on face and arms. E. T. Lippincott, the Philadelphia publisher, was a passenger.

The wreck was caused by the engine of train No. 36 taking an open switch, throwing it from the northbound track onto the southbound. Less than 200 yards from the open switch the freight engine stood, the impact at a speed of about 25 miles an hour being terrific. The operator declared that Engineer Beach disregarded a danger signal. Officials state that the accident was due to an open switch, the responsibility for which has not been determined.

Engineer Beach has been in the service 32 years and this was his first wreck. He was the oldest engineer of this division in point of service and among the veterans of the system.

Mayor's Court.

Monday is usually a busy day in municipal court, but yesterday was an exception. There were only a few law breakers lined up before acting Mayor Baxter to answer for their transgressions.

Dennis Barnes and Columbus Sanders, colored had a disagreement Sunday morning with the result that they both bore the scars of battle when the dust of the affray had cleared away. A knife and club figured prominently in the fracas and both defendants were bound over to the next term of Superior Court under a bond of \$50 each.

Jeanette White and Polly Blackworth, negro women were next called to the bar. They plead guilty to a charge of being disorderly within the city limits and each was taxed with the costs of the case against her.

New Design for Nickels.

Washington, July 8.—The design of the 5-cent piece which has been jingling in the pockets of American citizens for many years does not coincide with the treasury department's conception of art and it will be changed in its entirety.

Secretary MacVeagh has decided to replace the Goddess of Liberty on the face of the nickel with a Buffalo. The reverse side of the new coin will show the head of an Indian.

J. W. Frazer, of New York, is making the design in collaboration with officials of the treasury department. All its details will be decided upon at a conference between Secretary MacVeagh and Mr. Frazer next week.

Bubonic Plague Has Foot-hold in Havana.

Havana, July 8.—The existence of bubonic plague in Havana has been definitely determined. A special board of physicians has pronounced the case at Las Animas Hospital true bubonic. The patient is Mendez Guerra, a Spaniard, employed on a sewer contract. He was taken ill July 3 at his lodgings close to the place.

Guerra is said to be dying and three other patients are reported dead at the same hospital with marked symptoms of the plague.

The secretary of sanitation ordered immediate fumigation of the infected house as well as all others in that vicinity, including the place. President Guerra and his family left today for their country home at Catabago.

At present the question of isolating Havana from the interior is not considered. The secretary of sanitation and the health department are now engaged in a study of the situation.

THE ORDINARY HOUSE FLY

THIS NOT merely a nuisance, as is commonly supposed, but a dangerous pest which should be avoided as the plague. His body and legs are covered with thousands of fine hairs, and his feet are especially adapted for collecting disease germs. The number of germs that have actually been found on him ranges all the way from two hundred and fifty to six million. He is built to carry deadly germs both inside and out. He transmits Typhoid Fever, Tuberculosis, Summer Diarrhoea of children, Car uncl- and Intestinal Worms, and carries acute contagious diseases, such as Small Pox, Diphtheria, Scarlet Fever, Chicken-Pox, and Measles. In fact, all the germs known to produce disease have been discovered on the fly's body and in the fly specks.

"DEATH TO THE FLY—SAVE THE BABIES"

Knowing that the house fly is in reality the deadly enemy of human beings, it is the solemn duty of mothers to see that their little babies are protected from its disease-laden touch.

"WESTBROOK" BABY PROTECTOR

will bring joy, rest and a sense of safety to thousands of mothers this summer. It is no easy task to sit through the weary hours a baby requires for sleep a d brush the flies away. It isn't quite reasonable, either, to cover it from head to foot, depriving it of the full benefit of fresh air.

THE WESTBROOK BABY PROTECTOR is a patented article, which solves the problem.

ITS MANY USES

The uses of the Protector are many. It serves its purpose equally well whether the baby rests on a bed, on a couch, on a blanket or a quilt on the floor, in the open air of the porch, under the shade trees, or in summer house.
