

NEW BERN BANKING AND TRUST COMPANY
NEW BERN, N. C.

INVALIDS AND RETIRED PEOPLE.

INVALIDS and other persons who desire to have their financial affairs in the care of an efficient and reliable trustee can place their property, real or personal, in charge of the trust department of this Company, which is equipped with special facilities for safely handling real estate or investment funds. We collect rents, make repairs and safeguard the owner's rights in every particular. We shall be pleased to confer with any person interested in selecting a trustee.

WE CORDIALLY INVITE SAVINGS AND CHECKING ACCOUNTS.

WHISKEY WAS CAUSE OF WRECK

Engineer Who Ran By Danger Signal and Killed Forty Persons Was Intoxicated.

Corning, N. Y., July 10.—That William Schroeder, engineer of the express train which ran into the rear end of Lackawanna passenger train No. 9 here late Thursday, causing the death of 40 persons in the resulting wreck, was apparently intoxicated within four hours of the time he boarded the engine which he guided to destruction, was the testimony given at the coroner's inquest here today by Charles Klapproth of Elmira, for many years a close personal friend of Schroeder. Klapproth testified that at 12.30 o'clock on the morning of July 4th as he was leaving his place of business in Elmira he saw Schroeder walking towards him staggering. He remarked to friends who were with him that Schroeder seemed intoxicated. Schroeder went on toward his home and Klapproth saw no more of him.

Engineer Schroeder, it was learned today was late in reporting for duty on the day of the wreck. The train was held for him and he started out without testing his engine.

To Build Terminal at Southport, N. C.

Raleigh, N. C., July 10.—With authorized capital of two million dollars there was issued by the Secretary of State a charter to the Southern Harbor Company, Southport, N. C. The largest stockholders are J. F. Johnson and J. J. McLoughlin, both of Johnson City, Tenn. and W. L. Lambeth, Bakersville, according to the names given in the application for charter.

It is stated on reliable authority that the Carolina Clinchfield and Ohio Railroad is really the principal factor in the enterprise. This big railroad scheme, already of large proportions and constantly extending is looking for an adequate port on the Atlantic seaboard, in connection with the completion of the Panama Canal, especially in and selecting Southport it has hit upon one of the greatest natural ports in this section of the country. Big results are expected to eventuate.

Will Invite the Firemen.

Greensboro, July 10.—The Greensboro delegation going to the Firemen's tournament at Fayetteville July 22-23 are going to make a determined effort to bring the association and tournament to Greensboro in 1913. The board of city commissioners having given its official authorization to the delegation to present an invitation to come to this city next summer. The board also expressed its willingness to aid in providing prizes to be offered for the various exhibits of speed and water tests. It is estimated that it will require \$1,800 to provide these prizes, but local firemen believe that no difficulty will be found in raising this sum through private subscriptions.

It has been nearly 15 years since Greensboro has entertained the state association of firemen and the local boys feel that since Wilmington and Asheville have so honored twice since that time it is nothing but just that this city should be chosen for 1913. The local companies are to be well represented at the Fayetteville convention and they propose to exert all their energies toward bringing the tournament and convention to this city. Aside from the racing and water tests the tournament always brings several thousands firemen and visitors to a city.

Good Roads Convention.

Chapel Hill, July 10.—Dr. Joseph Hyde Pratt has issued the following: We would like to call the attention of all North Carolinians who are interested in the state's progress and development in the annual convention of the North Carolina Good Roads Association which is to be held in Charlotte August 1 and 2. Already a large number of delegates have been appointed to this convention, and it is expected that a large number will attend. Automobile runs are being arranged from our large cities. It is expected that the Governor will be present, and Senators Overman and Simmons, who will discuss the building of roads from a federal standpoint; Hon. John B. Small, and at least two thousand good roads enthusiasts from all sections of North Carolina, who are earnest in their efforts to get the state out of the old rut and out of the clutches of the old and unprogressive which has held and is costing the citizens of the state such vast sums. Every citizen of the state interested in its progress and the achievement of the fundamental condition to progress—good roads, is invited to attend as a delegate.

JOSEPH HYDE PRATT,
Secretary N. C. Good Roads Association.

STATE COMMITTEE ELECTS C. A. WEBB

New Executive Head of Democratic Party in North Carolina.

Raleigh, N. C., July 10.—The State Democratic Executive Committee last night elected Hon. C. A. Webb, of Asheville, as State chairman, and re-elected W. E. Brock, of Wadesboro, as secretary of the committee, both being by acclamation. The same Mr. Webb was presented by Hon. Joe C. Mills, of Rutherfordton, as a man eminently fitted for the place by past distinguished service as repeatedly district chairman and as State Senator and other public service.

In taking the chair, Mr. Webb expressed deep appreciation for the expression of confidence and the honor and he expressed the hope that he realized fully the great responsibility, declaring that in the conduct of the pending campaign the State Committee feels that it will have the hearty support of all loyal Democrats. He declared there is a glorious prospect of a great victory.

The first business before the committee was the adoption of rules supplemental to those adopted by the State convention for the holding of the primaries for United States Senator at the General election. A set of rules was presented by T. D. Warren, of New Bern. They consisted of the rules adopted by the convention, setting out the general plans for the primaries to be on general election day, November 5th, and for a second primary on November 26th, in the event no candidate receives the majority of votes cast in the first primary. Then supplementary rules provided that county executive committees meet on the first Monday in October to appoint pollholders, one for each candidate for Senator, that the candidates provide their own tickets to be the size of the tickets for Congressman, and for returns of the primary to be made November 7th to the County Committees and forwarded to Raleigh where a sub-committee of the State Committee would canvass the returns on November 14th, and report to the full State Committee on the night of November 14th, when the nominee would be declared or a second primary ordered.

New Paper For Onslow County.

Raleigh, July 10.—A charter was issued yesterday to the Onslow Publishing Company of Jacksonville, the object being to publish a newspaper and do a general job printing business. The authorized capital is \$10,000, with \$300 subscribed for by Joseph W. Little of Wilmington, Naro E. Day, of Jacksonville, and Rudolph Duffy, of Catherine Lake.

You say your ice cream was not properly mixed?

Then you didn't make the mixture in an Alaska from J. S. Basnight Hdw. Co.

A Toll of Death.

New York, July 9.—This city today sweltered under the hottest sun of the season thus far. Seven people died, 40 were prostrated and two were driven temporarily insane from the excessive heat in Greater New York. The mercury rose steadily from early morning until at 2 o'clock this afternoon the thermometer registered an official maximum for the day of 98 degrees. At 10 o'clock, to night the temperature was still hovering about the 83 degree mark. Some hope of relief was held out tonight by predictions of possible showers for tomorrow. People crowded by tens of thousands to the parks and other open spaces for relief tonight.

Philadelphia, July 10.—Six deaths due to the heat, were reported here today and three other persons committed suicide. The maximum temperature reported by the weather bureau was 93 degrees at 4 p. m.

Year Rebels May Attack Mormons.

Agua Prieta, Sonora, July 10.—The determination of Mormon colonists at Colonia Morelos and Colonia Guzman, south of here, to resist the demands of providing rebel hands, coupled with the Mormons' appeals to Washington, presented a menacing situation today.

Most of the Mormons are American citizens. They have armed themselves and they declare they will fight till the last one of the 250 of them drops to protect their property against rebel devastation.

A few of the Mormons are naturalized Mexicans, and the fear has been expressed that this circumstance might impel the rebels to assume that they were justified in attacking the colonists if they resisted demands for supplies.

General Sanjuan, commander of the government forces in this section, today was at Chihuahua, twenty miles northwest of Colonia Morelos, but was said to be unprepared, as yet, to attack the rebels.

HILLES CHOSEN AS CHAIRMAN

The President's Secretary Will Manage Republican Presidential Campaign.

Washington, July 10.—Chas. D. Hilles, President Taft's secretary, was yesterday unanimously chosen for chairman of the Republican National Committee.

Mr. Hilles will meet the subcommittee of nine to arrange for other officers.

Chas. B. Warren, Republican national committee member from Michigan, made the motion to make Mr. Hilles' selection unanimous. He was appointed a committee of one to notify Mr. Hilles and bring him into conference at once with the subcommittee to decide upon the other officers of the national committee.

Chairman Hilles and the full National Committee will meet on Friday, July 19th, at the Waldorf-Astoria, in New York, to appoint a treasurer, other officers, an executive committee and an advisory committee.

At the meeting Otto Bannard, of New York; Charles C. Dawes and David R. Forgan, of Chicago; Jno. Wannamaker, of Philadelphia; E. F. Swinney, of Kansas City, and John Hays Hammond, of Washington, were all considered for the office of treasurer, but not even a tentative decision was reached.

Mr. Hilles will resign his office as secretary to the President on Saturday night. It is thought unlikely that Mr. Taft will appoint a successor, but will turn the business of the executive officers over to two assistant secretaries, Rudolph Forster and Sherman Allen.

Headquarters of the National Committee are to be opened in New York the first of next week. They probably will be in the Metropolitan Life building the same as four years ago.

Vaudeville to-night Mme Harrington & Co.—Musical Dutch comedy act. Mme Harrington is the Melba of vaudeville—Vocal range: low F. to high D.

Rehearing in Suit Refused.

Concord, N. H.—A rehearing was denied by the supreme court here Friday in the case involving the legality of the residuary bequest in the will of the Rev. Mary Baker Eddy, discoverer and Founder of Christian Science.

The suit was originally brought in the superior court by Mr. Eddy's son, George W. Glover of Lead, S. D., seeking to have the residuary bequest declared void and the residue of the estate divided between Mr. Glover and E. J. Foster Eddy.

This was referred to the supreme court for the determination of the points of law involved. The supreme court recently ruled that the residuary bequest was legal, Counsel for Glover then asked for the rehearing, which has just been denied.

Elks Are in Their Yearly Convention.

Portland, Ore., July 10.—The formal opening of the forty eighth Grand Lodge of the Benevolent Order of Elks occurred last night and today was marked by the opening sessions. Nearly all the committees which had been in session the past week were ready to report to the Grand Lodge. Following the usual routine proceedings, the order of business called for reading the annual reports of John P. Sullivan, Grand Exalted Ruler, Fred Robinson, Grand Secretary, and Edward Leech, Grand Treasurer. The Grand Lodge proceedings seemed to create subordinate interest to the election of officers, which occurs Thursday. The next convention city will also be chosen then. Rochester probably will receive the convention next year. Atlanta is campaigning to get the convention the year following.

According to the Grand Secretary's annual report the total value of property owned by subordinate lodges, at the close of the fiscal year of March 31st, was \$20,391,832, which the report states makes the order the wealthiest in America. Portland is the richest, with assets exceeding one third of a million dollars. New York is second. The total membership is 284,724, a net increase over last year of 28,065.

Aviators Organize To Save Own Lives.

Chicago, July 10.—The American Aviators' Association, founded "to save the lives of remaining American flyers" was organized yesterday at the flying field of the Aero Club of Illinois.

Members pledge themselves not to fly in an airplane they do not think safe, regardless of fears or accusations of cowardice; they agree to seek action against managers or employers who seek to force aviators into unsafe flights and they have arranged for a mutual exchange of experience.

"We do not get into the air," said Andrew Drew. "Every time a flyer goes up he needs some new prodding. If we put this knowledge to common use we shall learn something."

THE ORDINARY HOUSE FLY

THIS NOT merely a nuisance, as is commonly supposed, but a dangerous pest which should be avoided as the plague. His body and legs are covered with thousands of fine hairs and his feet are especially adapted for collecting disease germs. The number of germs that have actually been found on him ranges all the way from two hundred and fifty to six million. He is built to carry deadly germs both inside and out.

He transmits Typhoid Fever, Tuberculosis, Summer Diarrhoea of children, Caruncle and Intestinal Worms, and carries acute contagious diseases, such as Small Pox, Diphtheria, Scarlet Fever, Chicken-Pox, and Measles. In fact, all the germs known to produce disease have been discovered on the fly's body and in the fly specks.

"DEATH TO THE FLY—SAVE THE BABIES"

Knowing that the house fly is in reality the deadly enemy of human beings, it is the solemn duty of mothers to see that their helpless little babies are protected from its disease laden touch.

"WESTBROOK" BABY PROTECTOR

will bring joy, rest and a sense of safety to thousands of mothers this summer. It is no easy task to sit through the wasp-hus a baby requires or sleep a drush the flies away. It isn't quite reasonable, either, to cover it from head to foot, depriving it of the full benefit of fresh air.

THE WESTBROOK BABY PROTECTOR is a patented article, which solves the problem.

ITS MANY USES

The uses of the Protector are many. It serves its purpose equally well whether the baby rests on a bed, on a couch, on a blanket or a quilt on the floor, in the open air of the porch, under the shade trees, or in summer house.
