LIGHTNING KILLS TWO IN ANNISTON

Severe Electrical Storm Strikes Alabama Camp Fourteen Injured.

Camp Pettus, Anniston, Ala., July 12.—Fourteen injured and two dead was the report rushed to the head quarters of the hospital corps at the encampment of the Southern States troops at Camp Pettus, yesterday afternoon just at six o'clock.

The injured men were all members of Company B, Second Regiment, Alabama National Guards, from Birmingham. Captain C. Beale was in command of Company B at the time of the accident. The company had just gone to supper. The heaviest rainstorm of the encampment was raging, but there was no hint of an especially severe electrical phenomena.

A clear bolt flashed out, men were buried in every direction, some being lifted bodily through the air and dropped into near by tents. In all, a dozen men were lying prostrate and to all appearance dead. Emergency calls brought out the hospital corps of the Eleventh United States cavalry and Ambulance Company No. 1 of the North Carolina National Guard which rendered immediate service. Eleven of the wounded were carried to United States field hospital No. 11. Remarkable efficiency was shown by the North Carolina boys. In two minutes after the call they were off in the ambulance.

Charles Kurby, and H. Repe are dead.

The others suffering from burns and more or less severe shocks are: M. C. Sullivan, who is not expected to live; Carl Jackson, R. E. Parson, Bob Lockhart, H. Moore, Tevva Downey, A. Leonard, T. B. Robinson, J. Jefferson, W. T. Evans, S. Spiegler, S. Walters.

The Third regiment, including the band and ambulance company No. 1 of Raleigh, are in the midst of the camp activities. The best health conditions prevail everywhere.

Tomorrow morning the ambulance company is ordered out on a two day hike.

The North Carolina troops strike camp Monday morning at 6 o'clock.

Eight Miners Killed in Explosion.

Mountville, W. Va., July 12.—Eight miners are believed to have been killed by a gas explosion at the Panama mine this morning.

Rescuers penetrated the works and returned with two men, who will die. Ten men entered the mine for the purpose of loading coal. They were in the mine only a short time when the village was stricken by the sound of a loud explosion and great volumes of smoke poured from the shaft.

NEGRO WOMAN CARVES ANOTHER

At Carnival Ground And is Now in the County Jail Awaiting the Results of the Wounds Inflicted on Her Victim

Late Thursday night Martha Crawford and Thelma Kinsey, both colored, became engaged in an altercation on the carnival grounds on Broad street with the result that the Kinsey woman is now in Stewart's sanitarium receiving medical attention for the knife wounds in her body inflicted by the Crawford woman, while the latter is in the Craven county jail awaiting the result of the victim's injuries.

Just how the trouble started could not be learned by the police, but it is supposed that the women fell out about some trivial matter. So suddenly did they go together that bystanders were unable to interfere before the Crawford woman had cut her opponent several times. She was placed under arrest and carried to jail in 176. Yesterday afternoon she was brought out to be arraigned by a preliminary hearing, but on account of the darkness of the evening she only saw the rear end of the judge's face as he came down the aisle.

HEAT WAVE IN FULL SWING

Little Relief in Sight For Sufferers at the National Capital.

Washington, July 12h.—A few tantalizing thunder storms, that pattered vainly on burned fields and steaming pavements, were only promises of relief in sight tonight from the wave of humid heat that has deluged the country.

From east and west tonight the weather bureau received reports of generally increasing temperatures. Behind the solid figures came a story of sweltering cities and seared farms. Increased death rates in the over-crowded cities and general suffering as a result of the heavy, oppressive heat were generally recorded.

"There is no relief in sight," said the forecaster at the weather bureau tonight. "The heat wave from all indications will probably continue for some time."

The national capital sweltered under a blazing sun throughout the day with legislators courting electric fans and cooling drinks.

Hot weather and the vacation spirit combined today to drive the home leaders almost to despair for they were virtually unable to command quorums either on the floor or in the committees.

Today was set aside for consideration of the naval appropriations bill by a naval affairs subcommittee but not enough members appeared.

Other committees today were without quorums and could transact no business.

Juarez, Mexico, July 12.—General Pascual Orozco, while admitting the Rebel defeat as an organized movement, asserts that the guerilla warfare blimp cannot be calculated to severely harass the Mexican Government, Orozco came here from Encinitas, where the rebel outposts are stationed. He believes the guerilla warfare will ultimately overthrow the Madero Government.

PROHIBITION PARTY FIGHT

They Also Have Insurgents—All Taxing and Licensing Laws Should be Repealed.

Atlantic City, July 12.—The factions of the prohibition party are determined upon a final fight over the chairmanship of the national committee. The insurgent leaders will present W. G. Gaidewood, of Minneapolis, as national committee's presiding officer, while the regulars will support Charles R. Jones, the present chairman.

The prohibition party platform, presented by the resolutions committee headed by S. F. Sibley, of Arizona, has the following declaration of principles: "The alcoholic drink traffic is wrong, a most serious drain upon the nation's wealth and resources, detrimental to the general welfare, and therefore of the inalienable rights of life, liberty, and pursuit of happiness, and therefore all laws taxing or licensing a traffic that produces crime, poverty and political corruption, and spreads disease and death should be repealed."

To accomplish this end, it is declared that the political party must be elected that will recognize the liquor traffic as a crime and not a business. A six year presidential term and one term only, and women suffrage were endorsed.

N. S. R. R. Passenger Dies on Train.

Benjamin Lucas, of Moyock, N. C., died very suddenly on the Norfolk Southern passenger train from Norfolk to Raleigh last night. Mr. Lucas ran some distance in Norfolk to catch the train and when he took his seat in the car he was not cold to be very warm. Several passengers noticed his condition and his traveling companion secured a glass of water and sprinkled his face. Later it was suggested that the train be searched to ascertain whether there was a physician aboard. One was found but before he reached Mr. Lucas he had expired.

The physician pronounced his death due to heart failure.—Washington News, July 11.

Britain's Request Ignored.

Washington, July 12.—Great Britain's request for a postponement of Panama canal legislation now before congress until a formal statement can be filed against the proposed ship toll provision will likely have little effect in delaying the passage of the canal bill, according to leading members of the senate. The senate inter-oceanic canal committee members declare there will be no "backing down" by the senate from its position in favor of the free passage of American ships. There is a wide divergence of opinion in the senate over the United States' rights under existing treaties.
