

NEW BERN BANKING AND TRUST COMPANY

WOMEN are often unacquainted with business practices and hesitate to open bank accounts, because they do not understand just how to transact the business. We cordially invite the accounts of women and make it easy for them to deposit all money received and pay all expenses by writing their own personal checks. This plan affords a safe guard against paying bills a second time, and the money is always protected against loss by fire or burglary.

4 per cent paid on savings accounts of one dollar or more.

33 PER CENT DISCOUNT

On all clothing for the next 15 days only. As we have to reduce our stock of clothing to make room for Fall and Winter goods we are offering this great reduction for a short time only. Now is your chance to save money. It will be money in your pocket to give me a trial.

TRENT HOTEL TO BE OPENED SOON

Workmen Have Been Engaged For Months Getting it in Readiness.

During the past two months a force of workmen has been busily engaged in remodeling the Trent hotel on Middle street. This work is now nearing completion and the hotel will doubtless be opened to the public at no late date.

On the first floor of the building will be located the office. This will be one of the most attractive points in the building, tiled floors, wainscoting and beautifully decorated walls serving as a background for the handsome furnishings. Just in the rear of the office will be a glass covered sun parlor where the guests may sit during the winter months and enjoy a sun bath without venturing out in the open. Back of this are the sample rooms for sal-men. On the second floor will be located the dining room and kitchen and also a number of rooms for the guests, while the third floor will be occupied exclusively by rooms for guests. Many of these will have separate baths while on each floor there are bath rooms for the use of all guests.

The furnishing of the rooms will be done by an expert and J. W. Stewart, the owner, states that no detail will be forgotten. Yesterday a handsome mar-ques which will cover the front entrance to the building, arrived and will be placed in position today. This will extend from the building to the outer edge of the sidewalk. It is constructed of bevelled glass and a steel frame work.

It has not been decided as yet who will be the manager of the hotel.

Several Rabid Dogs Reported.

During the past few days a number of mad dogs have been reported in the city. In one of the cases recently reported to the police a rabid animal attacked and bit several other dogs before he was killed. These dogs are now running around the street and if infected with hydrophobia will doubtless inoculate other animals.

INFORMATION IS WANTED AT ONCE

About ten days ago every industry in New Bern was mailed a letter by the Chamber of Commerce asking them to let the Chamber of Commerce know at once the volume of freight handled by them in and out of New Bern during the last twelve months. Only a few have complied with this request.

We are going to make an effort to get the Atlantic Coast Line give us a northern outlet for our freight and passenger traffic and it is necessary that we have this information before our committee can go before the officials of the railroad.

I have also asked that the industries of New Bern give me a statement of the volume of freight that they handle to and from Norfolk so that this information can be given to the Benner Line, of New York City, who wants to establish a steamboat line if feasible.

The committee will call for this information within the next few days, so please have it ready.

J. LEON WILLIAMS, Sec. Chamber of Commerce.

Notice to the Public.

We hereby notify all members of New Bern holding policies with the Winston Industrial Association not to pay T. J. Williamson any more, as he is not any longer our employe. We are not responsible for dues paid him after this date.

The Winston Industrial Association, J. A. BLUME, Manager.

Forfeits Bond, Abandons Beer.

When the case of the State vs. Gus Rountree, colored, was called before Justice of the Peace W. K. Baxter at the city hall yesterday afternoon at 4 o'clock the defendant failed to answer and thereby forfeited a bond of \$100. Rountree was charged with violating the law by selling beer and whiskey. Two barrels of beer are now at the city hall awaiting his return, but it is safe to say that he will not call for the re-lease at any time in the near future. Rountree's house on Burn street was raided Saturday night by officer Bryan and the two barrels of beer seized.

Picnic at Rhems Aug. 1.

The citizens of Rhems are making extensive preparations for the big picnic to be held at that place on August 1st. There will be plenty of good things to eat and amusement for all who attend. A cordial invitation is extended to the public to be present and assist in the merry-making.

CROPS IN JONES UP TO AVERAGE

Pollockville Correspondent of Journal Tells Also of Some Fine Ones.

Special to Journal

Pollockville, July 16.—The writer has had some opportunity for the last 10 days to visit a large portion of the farming section of Jones and Onslow counties and is pleased to report that the outlook for a crop of corn and cotton in both counties is very encouraging.

While there are in both counties some poor crops, as a whole the crop is an average of 10 years.

People are inclined to complain because their crops are not as good as they were in 1911 without stopping to think that the 1911 crop was a record breaker.

In this immediate vicinity there are some exceptionally fine crops. On the farm of Mr. C. E. Foy near here under the skillful and efficient management of Mr. J. J. Pritchett, there are forty acres in corn that is the best forty acres of corn I have ever seen the corn stands 14 inches by 72, with one and two stalks to the hill with from 2 to 8 shoots or ears to the stalk. If every thing continues favorable the yield easily be four hundred barrels or 2,000 bushels of corn. Mr. Pritchett has also thirty acres in cotton which is good for from 1,500 to 2,000 lbs. of seed cotton per acre.

Mr. J. A. Thomas on an adjoining farm has corn as good as Mr. Foy's but only a few acres, on 18 by 84 inch row and a fine crop of cotton also.

Mr. F. M. Taylor also, has fine corn and cotton, on a small farm.

Mr. Jack Pearce has some very fine corn 12 by 60 inch rows. He is expecting 75 bushels per acre and a bale of cotton per acre on most of his farm which is a large one.

Mr. Newton A. White has two acres in corn from which he expects 50 bushels per acre, and I think he will get it for his corn is as good as it can be on upland.

I could mention others but these are in and around this place. Dr. Geo. R. Hughes, Bill Foy, (colored) and Mr. J. H. Bell all have fine crops. The cotton is in fine growing conditions green and bunched and shows thrift; I hope other sections are as much favored as this in the crop outlook.

A few days ago I drove up in the Piney Grove section, one of the most progressive portions of Jones county, where such model farmers live as Long Ben Henderson, the boys of short Ben Henderson, Fred Parker, George H. Harrow the sons of John C. Parker, and George H. Duvel. They all have large fields of fine cotton and corn and the future looks bright and encouraging for a bountiful harvest.

Very Ill With Hemorrhagic Fever.

Mr. J. J. Baxter went to Morehead City last night in response to a letter bringing the news that his brother, Mr. Thomas J. Baxter, was in the hospital there very ill with hemorrhagic fever. Mr. Baxter's severe attack of fever is attributed to the lack of drainage facilities for the water that has accumulated behind the "made land" along the water line at Morehead City, his room being close by the locality where the dredging operations have been going on.

WHITE HOT IRON BURNS HIM NOT

Dan Nagty and his wife, who are filling a three night engagement at the Athens theatre this week, are attracting much attention. Especially is Mr. Nagty being discussed by those who have seen him in his mysterious fire eating act. Yesterday morning he gave to a Journal reporter a demonstration of his power to handle fire and hot articles without being burned. At the New Bern Iron Works two long bars of iron were secured and placed in the forge and heated to a white heat. Taking one end of the iron in his hand Mr. Nagty placed the other on his tongue and let it remain for several seconds. When the iron was removed there was not the least sign of a burn or blister on his tongue. Next he placed burning sealing wax on his tongue and the result was the same. Mr. Nagty is unable to explain his wonderful powers, saying only that he feels no pain when performing his act and that it has no ill effects. He extends an invitation to all skeptics to visit him at any time during the day and he will convince them that there is no trickery or sleight of hand in his work.

Revival to Commence. Pollockville, July 17.—Rev. C. E. Edwards, pastor of the Baptist church announces that a revival will be commenced in that church next Monday night. Rev. M. A. Adams of Winterville will do the preaching.

SURVEYING CAPE LOOKOUT COVE

Activity of Government Steamer Presages Great Activity

Special to the Journal.

Beaufort, N. C., July 16.—The U. S. survey steamer Hydrographer arrived here from Key West some days ago. The vessel has been engaged in sounding and surveying the harbor and Cape Lookout Cove, and will continue this work for some days yet, it is understood. This survey has a peculiar significance in its relation to the proposed breakwater at Cape Lookout, which will make a harbor of refuge at the cape in which it is said the whole navy might ride in safety. An appropriation for preliminary work on this harbor has passed the Senate and will doubtless go through the House at this session. Promises have been made by the management of the Norfolk Southern railroad that its line will be extended to Cape Lookout as soon as the government appropriation is made, so everyone is confidently expecting great activity here within the next few months.

The fine brick store being erected by C. A. Clawson, the grocer, is rapidly nearing completion. The appearance of Front street has greatly changed for the better this year.

Municipal water works are being talked of. A great deal of work is now being done on the streets, and Beaufort is fast becoming cleaner, more progressive and more beautiful.

In Morehead City, Saturday night, July 13, Miss Elizabeth Robinson, of Beaufort, was married to Dr. Schackell of St. Louis, who is at present connected with the government biological laboratory at Piver's Island. The young couple will remain in Beaufort until next fall.

Miss Sallie Bushall, a beautiful Beaufort girl, was married in Morehead City Monday evening to Mr. Edward Hodson, of the government wireless station.

NEW BERN TEAM IS VICTORIOUS

In the game of base ball between the New Bern Juniors and the Pollockville Sluggers played in this city yesterday afternoon, the locals were victorious by a score of 10 to 5. Both teams played well and won the admiration of the spectators. But it was seen from the first that the visitors were out-classed in every way and despite the fact that they changed pitchers five times during the game they were unable to put them over the plate so that the local batters would fail to connect. Walter Bray and Gulon Bartling comprised the battery for the locals while John Chadwick, White, Gillikin, Oliver and Williams alternated in pitching for the visitors.

Stonewall.

Stonewall, July 16.—The very warm weather of the past few days has caused crops to greatly improve and the farmers around here are pleased to what they are in some sections.

Ye scribe was down in the lower part of the county last week and the farmers report their crops the poorest they have ever had. A gentleman at Whortonville said he had to plant cotton three times before he ever got any to come up.

The Hadder Mill Company added a new filing room to their plant last week. They are putting in solid tooth saws and an automatic filer.

Capt. Dewit Lewis took a jolly crowd down to Hobucken Sunday to attend the Children's Day exercises.

From all appearances the wedding bells will soon be ringing in our midst and ob, who will take us boat riding then.

Mrs. Mollie Casey and her daughter, Miss Nannie spent last week at Wintthrop Mills visiting relatives and friends.

Mr. Becton Hadder and wife went to Mayaville last Monday.

Mrs. Leah Hadder has been quite sick for the past few days but is better now.

Mr. Will Conshon has been very sick the past week with malarial fever. He is some better at this writing.

Health Conditions Good.

One of the leading local physicians stated yesterday that the health conditions in New Bern are very satisfactory. Of course in a town of ten or twelve thousand inhabitants there is always some sickness and such is the case here but there are comparatively few cases.

Indefinite Charity Wagon. One of the greatest injuries you can do an able-bodied able man is to feed him twice without payment.—John Dewland.
