FARMERS' CONVENTION

The program of the Farmers' con ention to be held in Raleigh next reck is a very attractive one. It uld draw a large number of the farmers of the State. Farmers who attend these meetings say they always get out of them much more than the and the loss of time incurred in attending them. Not only so, but they afford an admirable opportunity for the farmer to get a little outing and everyone knows that of all per

THE WHY OF SOCIALISM.

Whether voting the ticket or not men everywhere looking upon the awful injustice of this economic system are becoming socialistic in theory if not in conduct, Governor Marshall.

The readiness of men to grab at Roosevelt's new party with its socialistic tendencies shows that there is much of truth in what Governor Marshall says. There has got to be a change in the system or the socialist party will eventually get in control. The change is promised by the Democratic party and under the guidance of Wilson and Marshallit will deliver the goods.

About four years ago urinary analysis revealed the existence of Bright's Disease. The urine contained large amounts of renal deposities. Remedial agents gave him for a time partial relief, but soon lost their affect. His suffering at times were severe. He sent for the water of Buffalo Lithia Springs, which for some time gave relief, but this lost its good effects, and when his condition became hopeless he was advised to pisit Chase City and try the virtue of the water there. The result was wonderful, as he there. The result was wonderful, as he now writes me that he has fully recovered. I am fully satisfied that the water of Chase City, Va., saved his life, as I did not believe when last I saw him that he could live these months.
